THE VALUE OF RELIGION.

St. Paul's Sermon. The value of religion is not to be measured by the amount of knowledge it imparts, but by the degree to which it purifies the heart and elevates the soul.

BELLEVILLE, SATURDAY, MAY 1.

Political Notes.

COOL.
The Toronto Irish Canadian speaks of a "breaking down of a despotism of sharp practices among the Conservatives" and the Government printing contract. Considering that the Grit party had a fair representation on the Committee which awarded the contract, that the contractors themselves who arranged the whole scheme and bought of sundry of their competitors were Grits and had, it is charged, secured their former contract by similar means, the assertion is rather ill-timed. Further, the job was exposed by the libel suit of the proprietor of the Irish Canadian against the Globe, and surely the Conservative majority are entitled to credit for carrying on the investigation which has laid bare the whole matter. The job seems to have been chargeable to individual members of both parties, and whilst each party is equally interested in condemning it, it is certainly unfair to charge it to either of the two parties.

THE OTTAWA correspondent of the Mail writes on the 29th ult:

The question of the value of goods for Customs purposes was, for instance, started by Mr. Burpee, ex-Minister of Customs. It is Mr. Burpee's misfortune not to remember with accuracy the events, legislation and proceedings of his former Department. He is now, however, at least at a disadvantage in the hands of Mr. Bowell, who makes a study of detail. Mr. Burpee seems to be of opinion that it is unjust to add anything to the value of an invoice when the price of goods goes up before delivery at the port of destination. But, inasmuch as the tariff is a protective one, and as the law is so framed, it is necessary in all cases where there has been a rise in the value of imports to add the rise to the value of the invoice for Customs purposes, when the same can be ascertained with any degree of accuracy. Self-interest and the law thus jump together for the protection at once of the revenue and the manufacturers.

THE MARRIAGE BILL.
It is to be regretted that the Senate have postponed till next session the Bill regarding marriage with a deceased wife's sister. The country is fully prepared for the passage of the measure, which is fully in accord with popular sentiment, therefore the refusal of the Upper Chamber to pass it, even by a majority so narrow as 1 vote, may cause a needless and undesirable agitation which it would have been much better to have avoided.

A FORGETFUL MINISTER.
The ex-Minister of Customs does not shine on some subjects, says the Mail's Ottawa correspondent, particularly those which involve a knowledge of his Department. On the question of the defalcation of the Toronto Custom House, he attempted in a deprecatory tone to pretend ignorance of the fact that defalcations had been discovered in his time. But the report of Inspector Kavanagh was ready at hand, and Mr. Bowell's recent knowledge of the case was too great for Mr. Burpee's imperfect detail of responsibility. If Mr. Burpee ever becomes a Minister again, and, of course, as unlikely things have happened, he will probably take a little more interest in the details of business which may at some time become topics of Parliamentary discussion. At present, he is like the men who regret the defects of an early training, but are unable to supply them.

THE WOOLLEN INDUSTRY.
The following appears in the Globe of April 27th: "The sale of woollen machinery contained in Mr. Robinson's factory in Galt on Tuesday, the 20th of April, brought together buyers from all parts of the Dominion. Most of the machinery sold was sold at fair prices, the sale realizing somewhere near \$3,000. The most valuable machinery, such a dryer, engine, boiler, and shafting, etc., was not sold, the demand being principally for cards, sacks, looms, etc." This is a sufficient answer to the organ's oft-repeated assertions that the N. P. had ruined the woollen trade.

ENGLISH ELECTION FUND.—The English election fund at the disposal of the Reform Club on the late occasion amounted to \$200,000, that of the Carlton Club to barely \$24,000. The British Grits "said money to them," made a "big push," and "grand stand." And those who were not bought with a price were "mesmerized in batches."

Cattle Shipments.

Messrs. Lingham & Son and Lingham & O'Brien, have shipped to Europe from the 12th November 1879 to 23rd April 1880, from Halifax, Portland, Boston, New York, Philadelphia and Baltimore, the following live stock:

November.....	601 cattle
December.....	1,201 "
January.....	3,044 "
February.....	2,917 "
March.....	715 "
April.....	3,922 "
Total.....	13,221 cattle, 4,201 sheep.

There was required for ocean passage for above as follows: 1,570 tons hay, 23,073 bushels corn, 400 lbs. oats, 10 tons straw for bedding, 11,283 lbs. rope for tow, 79 tons water, 35 tons. In addition, for medicines it required 2,204 gals. sugar, 175 gals. raw linseed oil, 37 gals. spirits nitre, and 415 lbs. Epsom salts. 7,000 sacks were used in packing the corn required. The services of 507 men, one trip each, to take care of the stock on board ship, their wages amounting to over \$17,000. The cost of the cattle and sheep when landed at Liverpool, with all charges paid, amounted to over \$1,700,000. It would take a train nearly nine miles long to transport the stock from the interior to the seaboard.

Presentation.

During the vacancy which occurred in the John St. Presbyterian Church, Rev. M. W. MacLean, Pastor of St. Andrew's Church, was appointed by the Presbytery, Moderator of the session of the John St. Church, and in his more intimate relations with the members and adherents of that church, won their love and esteem, as indeed he has won the respect and good will of all the members of the congregation, which has been in contact. It is not surprising therefore that the congregation of that church, in view of his special services, and in view of his genuine worth as a Christian minister and worker, should have decided to present him with some mark of their regard and love. On Thursday evening last, Messrs. Thos. Ritchie, John G. Campbell and Jas. Smith waited on the Rev. Mr. MacLean at the Manor, and, on behalf of the congregation presented him with the following address, at the same time giving a handsome present to Mrs. MacLean, to both of whom the visit and testimonial was a genuine as well as a most agreeable surprise. Rev. Mr. MacLean acknowledged the gift in appropriate words.

To the Reverend Mr. W. MacLean, M. A., Pastor of St. Andrew's Church, Belleville.

By appointment of Presbytery you having acted as Moderator of the Session of John St. Church during the recent vacancy in its Pastorate, we, the undersigned office bearers and members of the congregation take this opportunity expressing to you our appreciation of your services, and our love and esteem for you personally.

Your marked earnestness and zeal for the Master's cause, and your willingness to engage in every good work to promote the well-being of your fellowmen, and advance the glory of the Redeemer's Kingdom, have been a source of rejoicing, and inspire us to hope that you may be long spared to labor for the truth in this city.

Please accept, on behalf of Mr. MacLean, the accompanying small token of esteem for yourself and family.

Geo. Robertson (elder) James Robertson, J. G. Campbell (elder) James Smith, George Keith (elder) John Keith, John Cook (elder) George Linn, W. H. Ponton, William Gibson, James Macdonald, James McKay, James Macdonald, W. R. McKee, Geo. Denmark, Robt. Jameson, D. R. Coleman, Thos. Ritchie, U. E. Thompson, D. B. Smith, D. B. Robertson, Geo. D. Dickson.

The Polynesian.

We find the following in the Montreal Star: "Telegraph received from Captain Brown, of Pilot Island, Cape Breton, via Cow Bay, N. S. Polynesian: Have been up to Cape Ray, round by St. John's, and will return to Galt blocked with heavy ice. A. M. Now off Cape Ray again. All well on board."

Cape Ray is in the southwest coast of Newfoundland. Some years ago the same steamer was blocked in the ice in the Gulf of St. Lawrence for nearly a week.

Revenue Returns.

HALIFAX.
The receipts in the Inland Revenue Department during April amounted to \$20,675, an increase of \$9,245 over April of last year. The receipts in the Customs House during the month were \$99,281, an increase compared with April last year of \$37,138.

ST. JOHN, N. B.
The Customs revenue in April amounted to \$96,939, against \$84,174 in April, 1879. The receipts of St. John's Inland Revenue division in April amounted to \$18,496.47 against \$13,077.35 in the same month last month.

THE UNEMPLOYED.—Messrs. Purcell & Ryan, Railway Contractors, have advertised for a large number of men to go to Thunder Bay, and here is the result as stated by the Ottawa Citizen of the 30th ult: "Only ten men" could be induced to go on Purcell & Ryan's contract, their fares being advanced by the Corporation, and yet the Grit press unblushingly says the country is going to the dogs."

OPENING ENLARGED WELLS CANAL.
The Minister of Railways and Canals has decided on the opening of the enlarged Wells Canal for navigation next year, using the old aqueduct at Welland. This very pleasing and gratifying intelligence, says the St. Catharines Journal, Sir Charles Tupper conveyed to the St. Catharines session Mr. Neeson, Captain Murray and Dr. O'Leary, who brought an interview Friday to confer with the Minister on the subject of harbor dues, etc. The decision arrived at by the Government to open the canal next year will meet the approval of the whole country, and is most thoroughly in accord with the views of the people who understand the importance of at once putting forth every energy and straining every nerve to secure the vast volume of trade now demanding an outlet through our channels.

HON. GEO. BROWN.

Toronto, May 1.—11.30 a. m.—Mr. Brown passed a restless night. No great change since yesterday.

Liquor Licenses.

The License Commissioners for West Hastings met on Tuesday afternoon and resolved to issue licenses to a number of applicants. On Friday afternoon they again met and the result of their deliberations is as follows:

SHOP.—G. S. Bonter & Co., Wesley Bullen.

VILLAGE OF BELLEVILLE AND TOWNSHIP OF MIDWAY.
TAYLORS.—Dennis Brennan, George W. Clark, R. G. Sager, Joseph Kitchey.

ATTENDED SUICIDE.

A Man Tries Hanging in the Cells.
Peter Murray was arrested yesterday afternoon shortly before six o'clock, and was taken by Officer Marsh to the Police Station and provided with accommodations in the central state room of that establishment. Murray is about 23 years of age; he is a laborer, and the offence alleged against him was drunk and disorderly. He disliked his situation and with sighs and tears implored his liberty. The requests were not acceded to and he became morose and melancholy. After being in the cell a short time he relieved his person of the braces which supported his pantaloons, tied the two together and fastening one to one of the top bars of the cell door and the other around his neck undertook to depart from this vale of tears in other than the orthodox manner. His efforts to complete the job attracted the attention of Sergeant McCruden, who prevented Murray from accomplishing his purpose.

News Condensed.

Sir Garnet Wolsey is returning home. France has reduced the duties on petroleum. Large numbers of Nihilists are leaving Russia. Navigation on the Red River has reopened. Tenders for the printing of the Hansard.

CALL at C. McDonald's, 276 Front Street, for Bell Cuban cigars at 5c, or the stock of 1879 for 10c. 29347t

A PRESIDENTIAL LIFE COMPANY.—The tenth annual report of the Ontario Mutual Life Assurance Company, shows it to be enjoying a prosperity which renders it well calculated to meet the stringency of the times. Last year there were 81 more policies issued than the previous year—the numbers being 350 and 471 respectively. The cash receipts were \$73,707, against \$59,000 the previous year. Yet there has been a decrease of \$12 in expense. A feature of the policy, which makes it popular with the public is that it has decided to simplify its policies by striking out several objectionable clauses. The Company is fast getting a strong foothold in this section of the country under the able management of Mr. S. BURROWS. His office is in the Ashley Block, Front St.

Sabbath Services To-morrow.—METHODIST CHURCH OF CANADA. Morning Service. 10 a.m. Strangers welcomed and conducted to seats. Sabbath, May 2nd—11 a.m., and 7 p.m., Rev. John K. Starr.

Daily Intelligence.—BELLEVILLE, SATURDAY, MAY 1.

City and Vicinity.—CITY COUNCIL.—A regular meeting of Council is to be held on Monday night.

POLICE.—There was one prisoner in the cells during the night. No traps sought sleeping accommodation.

QUARTERLY SERVICES.—The Rev. E. Starr is to preach in the Bridge St. Church to-morrow, morning and evening.

ONTARIO MUTUAL LIFE ASSURANCE CO.—Some details concerning this Company will be found in a business notice above.

DOMINION TELEGRAPH.—The Dominion Telegraph Company have opened an office at Liscombe Mills, N. S. and Lachine Lakes Quebec.

YACHT CLUB.—The annual meeting of the Bay of Quinte Yacht Club is to be held in the Board Room at the Mechanics Institute on Wednesday evening next.

CHURCHMAN CLASS MECHANICS' INSTITUTE.—The Rev. A. Schuster kindly requests his class to meet in the Mechanics Institute as formerly on Tuesday next at 5 o'clock.

ST. GEORGE'S SOCIETY.—The members of this Society will meet at Christ Church to-morrow at 2 o'clock sharp to take part in the funeral services of their late brother, George Filmer, Esq.

RAILWAY TRAVEL.—Passenger traffic on the Grand Trunk has fallen off a little within the last few days, but still business is much brisker than it usually is at this time of year.

ARRIVED.—Prof. G. W. Hotchkiss, the springless truss and supporter man, has arrived at the Anglo-American, and will remain until Wednesday. Go and see him; he defies the Hernia he cannot hold.

ST. THOMAS' CHURCH.—The Bishop of Algoma will (D.V.) preach in St. Thomas' Church at the morning service, and in St. John's Church at evening service, on Sunday, Sunday 2nd inst. Mr. Oldham will enter his duties as Organist of St. Thomas' Church on same day.

OPERA HOUSE.—The project for the building of a new Opera House continues to attract a good deal of public attention, and it seems probable that a company, composed of a number of prominent and wealthy citizens will undertake the work. It is to be hoped that the project will assume definite shape at an early date.

VITAL STATISTICS.—The vital statistics of the City for the month of April are as follows: Births 17; marriages 6; deaths 24.

BAY OF QUINTE CEMETERY UNION.

This body is to meet at Pictou on the 18th and 19th inst., instead of the 8th, as was previously announced.

TORONTO HOSPITAL V. BELLEVILLE.—In Common Law Chambers, Toronto, on April 30th, before Chief Justice Hagarty, Judgment: Summons made absolute for a prohibition to let Division Court, York.

IRON SHIPMENTS.—Thirteen cars of iron ore arrived to-day by the Belleville and North Hastings Railway. We understand it is the intention of Mr. Pusey to commence the shipment of ore from the Dominion mine next week, and will ship from here by vessel.

THE SEASON.—A prominent farmer in Tyndensing states that he commenced sowing on Thursday, April 29th. In 1878 the whole of the seeding on his farm was finished on the 17th of April, but in 1879 this work was not completed until the 8th of May.

THE WEATHER.—May enters with sharp frost and a wind a little to the north of west and uncomfortably cold. The frost during the night hours was strong enough to cause the formation of ice of some thickness. It is to be hoped that a change has been made to fruit trees, but such is scarcely probable so early in the season.

INLAND REVENUE.—The duties of Excise collected within the Inland Revenue Division of Belleville for the month of April were as follows:—

Spirits	\$ 4,126 45
Tobacco	1,662 00
Malt	323 97
Corresponding month last year	\$ 6,112 42
Increase	\$ 3,156 21

QUEEN'S UNIVERSITY.—At the annual convocation of Queen's University, Kingston, on the 29th ult., Mr. Julien D. Blais, of Stirling, graduated and received the degree of B. A. Mr. Lewis W. Shannon, B. A., of Kingston, son of the worthy postmaster of that city, was the gold medalist in chemistry—a distinction which the young gentleman has worthily won and on which he is to be congratulated.

APPOINTMENT.—The Lindsay Post of April 30th, says: "Mr. M. O'Donohue left town last week for Belleville, where he has been appointed to the position of head carpenter in the institute for the Deaf and Dumb. Part of his duties are to instruct the boys in the art of using tools for the performance of different kinds of work. Mr. O'Donohue is a skillful workman and is in every way well-qualified to discharge efficiently the duties of his new position. The situation is a permanent one and his many friends here will be pleased to learn that he has received the appointment."

POLICE COURT.

(Before A. Diamond, P. M.)

SATURDAY, MAY 1.

DRUNK AND DISORDERLY.

Peter Murray was remanded for a week.

THE FISHERY LAW.

Samuel Mayhew, for having pickled in his possession, was fined \$2 and costs.

MARINE NOTES.

The steamer *Armenia* again on her route.

The schr. *Peerless* has cleared with lumber for Oswego.

The *Oswego Palladium* of Thursday says: "The *Deer*, with *Thobie* & *Allen*, leave pump and wrecking apparatus, went to work on the *David Andrews* to-day."

Capt. Porter's new steamer, the *Verona* (Capt. of the *Star*) will make her trial trip on the 10th of May. She is being finished up at Kingston, and is said to be first class.

The Allan steamer *Prussian* arrived at Quebec on the 30th ult.

The steamer *Princess* ran the Lachine Rapids for the first time this season on the 30th ult.

The *Pictou Gazette* says: "The *City of Belleville* is now making daily trips between Pictou and Kingston. She had been thoroughly overhauled, looks very fine. Capt. H. Bogart is in command. The str. *Pictou* is being thoroughly painted, decorated, etc., and will start for Toronto about the 10th of May, and commence running on her old route between that city and Port Dalhousie."

Seasonable Topics.

Those in want of horse bills can get what they want at the Livery Office.

A number of fine cuts to select from, either for bills or cards, and all orders filled promptly, at very low prices. Call and look at specimens.

You think of it?—Mr. May weather. What do you think of it?

Now is the time to do your spring advertising.

All those who have not complied with the regulations of the Board of Health, may look out for squalls.

Those in want of Job Printing call at the Livery Office where you will be guaranteed satisfaction.

Newspaper advertising is the most energetic and vigilant of salesmen, addressing thousands each day, always in the advertiser's interest, and constantly at work seeking customers from all classes.

A large number of the Ottawa mechanics who went to Conny Island to work have returned disgusted.

As a last tramp came down the street with fire and easy gait.

This welcome sign his eyes did greet: "Pity those who walk the streets."

"Now here, the highest tax," Without the slightest care.

But he led him to a pile of wood, And handed him an axe.

THE CEMETERY SCANDAL.—At a meeting of the Rev. Mr. Hanford's congregation, Toronto, on the evening of the 30th ult., that gentleman tendered his resignation of the pastorate, but the congregation declined to accept. A resolution was unanimously passed appointing a Committee to investigate into the charges, and another resolution was passed with but three dissentients asking the pastor to take the Sunday services as usual.

—There is an uneasy feeling in Vienna over the Liberal victory in Great Britain, and every political party in the Continent is supposed to be in some way connected with the overthrow of Bismarck.

"Taverner," the newest wonder of the dentistry, the tooth, delightfully referring to the motto: "To try is to become a friend to the patient, irresistible, popular Dentist," the day.

A DANGEROUS ADJUSTMENT.—The Scientific American gives the following sound and timely advice, which we commend to the attention of those interested:—"As outdoor sports begin the girls are sure, this spring, to take their usual turn at rope jumping. Scarcely a season passes without several reports of girls dropping dead after some long continued effort, as in trying to skip the rope a thousand times; and even when not so carried to excess the practice is decidedly hazardous. Dr. Peck, of the Surgical Institute at Indianapolis, pronounces it a prime cause of cramp among girls. Speaking of a recent operation in which the bones of a little girl had been removed owing to necrosis caused by rope jumping, Dr. Peck says that similar cases are of frequent occurrence, though the mischief more commonly shows itself in necrosis of the spine. Not a month passes but cases are brought to the institute to be treated for injuries brought on by the continuous concussions upon the bones in this amusement. He advises parents and teachers to prohibit the dangerous practice 'at all times and under all circumstances.'"

COMMERCIAL NOTES.

Messrs. Hoaglin Bros, Liverpool circular of 17th April, 1880.

CHEESE.—"The consumptive demand has been very strong this week at 7/10 to 7/12 for the finest Cheddar, and the stock is now almost exhausted. Buyers still being hungry—and the few holders are now asking up to 7/10. There is no longer any doubt about the fact that we are going to have a famine in this article for the next few weeks, pending free arrivals of new make."

The Chicago correspondent of the New York Bulletin writes under date of April 29th as follows:—"A large meeting of the Board took place to-day, considering the time of year. Between 40 and 50 lots of cheese were offered. The competition for it was not very sharp, on account of the high prices asked. It was expected that there would be some falling off, but salesmen were determined to get as much as they could. Buyers did not want to be put to pay over 14c, but as the lots were small and did not run up very heavy, all told, a concession was finally made, and a good condition before the market had been called a 'leading price.' It is a general complaint that cows have been late in dropping the calves, and in consequence the receipts of milk are small. Even yet. But it is told by some of our best factorymen that the milk has never been so clean and in such a good condition before in the spring. Dairy-men seem to be exerting more care in milking. Transactions of the day are as follows: 'Commission cheese, our stuff, 688 boxes, at 14 1/2; 1,294 at 14 1/2; 90 at 14 1/2; 351 at 13 1/2; 32 at 13 1/2; 49 at 13 1/2; 180 at 13 1/2; 26 at 13 1/2; 100 at 13 1/2. Total marketings, 3,120 boxes; extremes for full cream stock, 13c to 14 1/2c. Grass is beginning to start."

AFTERNOON DISPATCHES.

NEW YORK, May 1.—Arrived the *Adriatic* from Liverpool.

ROME, May 1.—The Italian ministerial situation remains unchanged. The King has not accepted the resignation of Cairoli. He is consulting with leaders of all sections.

Boston, N. Y., May 1.—From a telegram presented by the Eastern Rowing Association of Boston, Soule has selected A. B. Curtis, of the *Spirit of the Times*, as referee in the professional race of the world's regatta, and H. W. Garfield, of Albany, Sec. of the National Association of amateur oarsmen, as referee in the amateur race.

QUEENSTOWN, May 1.—Arrived, the *City of Chester*.

WASHINGTON, May 1.—The public debt decreased during April \$12,078,070 50.

PARIS, May 1.—Prince Jerome Napoleon has informed two of his most intimate counselors that Princess Clotilde, his wife, sister of the King of Italy, has at length consented to return to him and will shortly arrive at Paris.

BELMONT, N. Y., May 1.—Harlow & Co.'s machine shop and Mott's saw and lock factory have been burned. Loss, \$90,000.

NEW YORK, May 1.—Bank statement: loans, increase \$1,550,000; specie, increase \$42,900; legal tenders, increase \$1,581,900; deposits, increase \$3,675,500; circulation, increase \$33,400; reserve, increase \$1,085,925.

WEATHER REPORTS.

TORONTO, May 1.—Probable for the next twenty-four hours: For the lower lakes, fresh to brisk southerly to south-westerly winds, partly cloudy, warmer weather; possible showers in northern Ontario.

WASHINGTON, May 1.—Indications for lower lakes, warmer, partly cloudy.

Bogus and Counterfeit.

There is no genuine Hop Bitters made or sold in Canada, except by the Hop Bitters Mfg. Co. of Toronto, Ont., nor can there be, for the sole and exclusive right to use the name Hop Bitters is secured to said Company by the laws of Canada, by 2 registered trade marks, and it is a heavy penalty for any one to use the name Hop Bitters or make or sell any thing pretending to be like it. Druggists and consumers should remember this and shun all spurious, injurious, and cheap imitations. Hop Bitters is the purest and best medicine made.

CAUTION TO THE PUBLIC.—As I have been repeatedly informed that certain parties in this city who are trying to sell furniture (1) made by the name Hop Bitters or make or sell any thing pretending to be like it. Druggists and consumers should remember this and shun all spurious, injurious, and cheap imitations. Hop Bitters is the purest and best medicine made.

Daily Intelligencer.

Copies of the Evening INTELLIGENCER can be procured at the stores of Messrs. A. Robinson, J. O. Overall and M. O. Dempsey.

Weekly Intelligencer.

Copies of the WEEKLY INTELLIGENCER in wrappers ready for mailing can be had at the business office, corner of Front and Market Streets, every Thursday. Price 5 cents.

Our New Office.

To afford accommodation for the rapidly increasing business of the INTELLIGENCER, the business office has been removed to the front part of the building (ground floor) in that portion formerly occupied by Mr. John Lazier, which has been fitted up with all the modern improvements. Entrance from Front Street.

J. H. BATES, NEWSPAPER ADVERTISING AGENT, 41 PARK ROW, (Times Building), NEW YORK.

I am authorized to contract for advertisements in the DAILY and WEEKLY INTELLIGENCER at our best rates.

The Great North-West.

The annual report of the Minister of the Interior, which was presented to the House of Commons on the 30th ult., contains a great deal of valuable information. In reference to the North-West Territories the report states that there was a large influx of population last year into these territories, and that the coming season promised results far beyond anything which has been experienced. The Pembina Mountains, Rock Lake, Little Saskatchewan and Prince Albert Districts, are so rapidly becoming occupied that the stream of settlement is finding for itself new courses in and near the valley of the Souris River, and also in the neighborhood of the Turtle Mountains.

The condition of Her Majesty's subjects in the Northwest Territories is all that could be desired, the climatic influences being healthful and the soil unsurpassed anywhere for the fertility and the ease with which it is made available for agricultural purposes.

Reference is made to the Indian difficulties in the Northwest and the appointment of an Indian Commissioner. Taken in all the department purchased and delivered at various points in addition to supplies provided by treaty, no less than 500 head of beef cattle, 91,000 pounds of bacon, 100,000 pounds of beef, 20,000 pounds of pemican and 800 bags of flour in order that the Commissioner might be in a position to relieve all cases of actual distress, stopped at Kingston and all obtained supplies.

The meeting of the London Conference of the Canada Methodist Church will be held in Hamilton this year, commencing June 2nd. The population of the city is 17,366. The population numbers 3,302, an increase of 200. Through the death of a relative in the old country, Mr. W. C. E. of Ottawa, has fallen heir to a fortune of \$10,000 per annum. The lumber business has revived in the Northwest, and the mills are filling extensive orders for export to the United States.

At the recent Quebec Assizes, an action for seduction was brought by a girl of 16 against a boy of 17, and a verdict of 25 cents was returned by the jury. The exports from St. John, N. B., to the United States for three months ending 31st of March exceeded the value of those of last year by \$67,783.

The Winnipeg Times of the 27th says:—Major Walker, who was killed at the battle of Red Bank in 1814, was buried in the cemetery at Red Bank in 1871. The population was 24,308; now it is 35,000. "Oh, dear, what will the Times say?"

The Grand Trunk Railway is about to erect stalls for the accommodation of the passengers at Montreal of 1,000 horses, and a great many more. A very large increase in the shipment of cattle is anticipated this season.

A young woman, resident of Montreal, is suing a wealthy young man, also of that city, for \$5,000 damages and an alimentary provision for a child, the result of an intimacy which she claims to have had with him. The case is now before the court.

The fire in Thilworth's factory at Pointe St. Louis, which resulted in the killing of two persons and several injured.

In the lecture yesterday on the Panama Canal, the speaker stated that no longer than a few days ago the project had no longer any opposition from the United States.

The Manchester Guardian's correspondent at Havana says the situation in Northern Cuba is most serious. The combined forces of the rebels, numbering 15,000 men, are advancing to attack the Montemont position in Matanzas Valley, and if possible, to recover the city.

London, May 2.—Prince Leopold leaves on May 13th, accompanied by Hon. Alex. Yorke and Dr. Ruhl. He will first visit his sister at the Hotel de Ville, and then, by way of St. Louis, Chicago, Cincinnati, Washington, New York and Newport. He will spend four months in America.

Paris, May 2.—The explosion yesterday at Paris, in the Honores firework manufacture, the building was demolished and the surrounding houses shaken to the foundations. It is reported that twenty persons were killed or dangerously wounded. A fresh explosion was feared, owing to the large quantity of gunpowder which was scattered about.

London, May 1.—Lord O'Hagan has been appointed Lord Chancellor and Dr. Hugh Law Attorney General of Ireland.

There is a difficulty about Chas. Bradlaugh's candidature at the recent election in Northampton, taking the oath of allegiance. He is willing to make an affirmation, but the authorities at the House have not agreed whether that will be admissible, and it may be necessary to appoint a Committee to consider the question, which is within the exclusive control of the House.

DAYTON, O., May 3.—The memorial hall building at Dayton was burned yesterday. It was not insured. A large number of valuable war relics were lost, including the flag and uniform Gen. Thomas placed at the home for the first time.

A letter from Kate Clifton was received a few hours before the fire accepting an engagement to marry.

WASHINGTON, May 3.—The body of Chas. Post who was buried in New York last August has been refused cremation here, as it is not the intention to cremate suicides or other who do not die to death by natural causes, nor bodies which have been interred, unless the desire is expressed in the will of the deceased. This is the second body refused within a week, the other being a suicide at Newark.

New York, May 3.—The Times says some speeches made at the reception of the released convict Bennett last night were too filthy and blasphemous for publication, driving a number of women from the hall.

The S. S. City of Berlin yesterday landed 1,436 emigrants, the largest number that has arrived in any one vessel for several years.

The Herald says regarding the Patterson riot, Danell is a most desperate character, and that most of the mob were Roman Catholics made the altar more bitter.

The Herald says the proposed New York Island and Rockaway, and is an extraneous matter, and is not to be interferred with. Arrived, the Spain from Liverpool.

Montreal, May 3.—The S. S. Sardinian has arrived out.

News Condensed.

Popular work is \$6.00 a cord at Winnipeg. The destitution of the people of Hall is very great. The session will open on Thursday, very little business.

Capt. Kirtle, late of the Montreal Evening Post, will settle in Chicago. The Queen is to be invested with the St. James Order of the White Elephant.

During last year 247,311 acres of land were sold in the Province of Manitoba. The Grand Trunk is compelled by the pressure of traffic to increase its rolling stock 30 per cent.

The N. Y. Herald has a special commissioner in Canada, inspecting the Welland and other canals.

The Board of Examiners for Dominion Land Surveyors will meet in Ottawa on the 10th of May.

The British Columbia Legislature has concurred in the Esquimaux graving dock agreement.

Lieutenant-General Sir Edward Selby will leave for England on the 11th of June.

Brennan, the Ottawa incendiary, has been sentenced to five years imprisonment in the Penitentiary.

Two towns one in Moldavia and the other in the Tiflis district, have been destroyed by fire.

Hamilton Board of Trade wants Abbott's bill for the distribution of the estate of insolvent debtors passed this year.

26 emigrants from the ship, by the Prussian, stopped at Kingston and all obtained supplies.

The meeting of the London Conference of the Canada Methodist Church will be held in Hamilton this year, commencing June 2nd.

LET THERE BE HARMONY IN THINGS ESSENTIAL—LIBERALITY IN THINGS NOT ESSENTIAL—CHARITY IN ALL.

ON THE CURE OF THE LUNGS.

All diseases which are generally fatal are so because they are not understood or properly treated. Were this not so there would be no hope of progress or improvement in medical science. Consumption affords us a striking illustration of the fatality of a disease through the lungs, regarded and treated as though the lungs were not at all affected. Medical men examine the lungs apparently to see if the body is diseased, and finding them unimpaired, assume that the stomach, not the lungs, requires treatment.

In medicine all true knowledge comes from actual observation. The action of these causes upon our organism determines the nature and seat of the malady they produce. A cause which only acts on the stomach will produce a disease of the stomach; and so of causes which act on the lungs, liver, kidneys, bowels, or nervous system. Every known cause capable of producing consumption fits its action on the lungs. A small chest, a cramped position of the body, confinement in badly ventilated rooms, congestion and inflammation of the air passages, all act by impairing the breathing and preventing the proper action of the lungs. Consumption results from this interference of function of the lungs, and the disease which results fixes itself upon that organ.

Now, how should a disease so produced and so located be treated? We should withdraw the patient as fully as possible from the operation of the causes, and earnestly set to work to repair the injury they have done to the organ affected. In this case, the stomach, we should treat the stomach; and if it be the lungs we should treat the lungs.

When we treat the lungs we cannot succeed in any case of lung disease. This is the real point of difference between my treatment of lung disease and that of general physicians. It is the point of difference between my treatment and that of general physicians.

It is always possible for the physician to be able to point to the result of his treatment. Even at the risk of being accused of egotism, I will venture to say that the direct treatment of the lungs by inhalation speaks for itself by the substantial good it has accomplished and is accompanied by a strong and healthy improvement of modern times. I can point to cases saved by it after all other means had been tried and abandoned in despair. I can point to the direct treatment of the lungs, and I give the patient medicine to swallow and I give them medicine to inhale. But this difference is a question of life or death to the patient.

Every disease of an important organ must affect the general health more or less. Hence, a proper treatment of the lungs must regulate the liver when it is torpid, the kidneys when they are imperfect, and the stomach when it is weak. The circulation is generally impaired, the surface of the body chilly and the nervous system irritable. All these complications must be treated by the direct treatment of the lungs, and general treatment. But no attention to diet, air, clothing or treatment of particular symptoms without the direct treatment of the lungs, and the patient is never cured in carrying any chronic disease of the lungs.

It is impossible to visit the office personally, write for "List of Questions" which will be sent free of charge, together with a copy of my "Medical Treatise on Diseases of the Breathing Organs." Address,

RELEVEVILLE, TUESDAY, MAY 4
 A New Market.

The following, which appeared as a telegram from Montreal in the Mail of May 3rd inst., will be read with pleasure by all who desire to see Canada trading with the great west in Europe, instead of conducting this business through middlemen in New York.—"So well pleased were the merchants of Antwerp with the produce shipped for the first time from this port last year that they are determined to cultivate a closer acquaintance with us in order to extend their trade relations with Canada, which they evidently recognize as of the first importance. Some of our grain exporters have been advised of the intended visit of several representatives of Antwerp houses, one of whom, Mr. Jacques Sturm, of the grain commission firm of Messrs. Jacques Sturm & Co., has already arrived in the city. In conversation to-day, he paid tribute to the excellent quality of the Canadian grain, which is sold in Antwerp not only for distilling purposes but for breadstuffs. Wheat, oats and barley shipped from Montreal to that city last year also gave great satisfaction. Mr. Sturm believes there is a wide market on the continent of Europe for the cereal products of Canada, and he predicts a large development of our export trade in that direction. Last year we shipped to Antwerp 150,778 bushels of wheat, 321,800 bushels of barley, 46,026 bushels of oats, 18,560 bushels of rye, 11 barrels of flour, 17 barrels of saffron and 39 packages of butter, which is not so bad for the first year. Before that time, vessels coming to this port from Antwerp, Bordeaux and Rotterdam with glass, liquors, &c., had to find their way back by taking cargoes of timber, &c., to Buenos Ayres or other Brazilian ports, where they could obtain freight to Europe in the shape of wool, hides and tallow. Now there will be some chance of their getting return cargoes of grain from Montreal direct to Europe."

The effect of this trading direct with Belgium and Germany cannot fail to be beneficial in many ways. It will show to the people of these countries that certain products of Canada which they have hitherto credited to the United States are unsurpassed, and therefore induce intending emigrants to locate in the Dominion; it will lead to a profitable interchange of commodities; it will give the Canadian producer a better price for his products; and it will increase the shipping and rail way trade of the Dominion instead of adding to that of New York and furnishing freight to United States railways.

No Insolvent Law.

On Saturday an influential deputation of Antwerp, Belgium, arrived in Montreal to pass a bill this session providing for the equitable distribution of insolvent assets. They urged the passage of Hon. Mr. Abbott's Bill, and pointed out the opportunities that existed under the present system for the dishonest transfer of assets of insolvents to friends and relatives, and by which a creditor who got judgment by default could obtain possession of an estate to the detriment of other creditors. Several cases were cited, in which by the means relatives were enabled to deprive legitimate creditors of their just rights. The Minister of Justice replied that he sympathized with the views of the deputation, and had himself been extremely anxious that the old insolvency law, defective as it was, should be sustained in default of a better one being substituted, but as they all knew the feeling of the country was so strong in favor of repeal, it would be impossible to pass any insolvent law. He said the majority of the members were pledged to their constituents to vote for repeal. At this late period of the session it would be impossible to pass a bill as required by the deputation. He promised, however, to use his efforts to obtain efficient legislation on the subject next session. The Government intended during recess to consider the matter.

WAGES ADVANCING.—The Montreal Witness says:—"The tendency of the labor market in this city is in the direction of greater firmness. This is, no doubt, due largely to the exodus from the city of the laboring classes during the past year. Day laborers for excavating are worth now about a dollar a day against seventy-five cents or even less the corresponding period last year. There is at present a good demand for carpenters also, at an advance on last year's wages."

A NEW COTTON MILL.—The Montreal Witness says:—"The new cotton mill at Outaouais, which was opened some three weeks ago, adds another link in the chain of cotton industries which has been our part to chronicle within the past year. This mill contains 200 looms and 10,000 spindles and employs 250 operatives. It is of a capacity to turn out \$200,000 worth of cotton per annum. The mill possesses the most improved machinery, notably, that for spinning, which is done by the ring frame instead of the mule as formerly. The ring frame takes up much less room, and it is said does the work more rapidly and better than the mule. Mr. William Hobbs, well-known in connection with the Hudson and other cotton mill enterprises, has undertaken the management of the Outaouais mill."

RUSH OF BUSINESS.—The Grand Trunk Railway Company is at present doing an immense business, so much so that it is said it is doubtful whether it will consent to run excursion trains at all this summer. The traffic is sufficient to justify an increase of the rolling stock to the extent of 25 or 30 per cent. Hundreds of new freight cars have recently been added to the line, and 25 or 30 heavy locomotives have been under construction in the shops during the past few months.

CITY COUNCIL.

MONDAY, MAY 3.
 The Council met at the usual hour, PRESENT—Aldermen Brennan, Jas. Smith, Lingham, McLaughlin, O'Brien, Farley, Hamblin, Robertson, A. L. Smith, Geo. Jelliff, Wallbridge, Petrie, Costello, Proctor, Dickson, D. Holden, Grant, Vanarsdale.
 On motion, Ald. Hamblin was appointed to preside pro tem.
 The minutes of the last meeting were read and approved.
 The Mayor came in and took the chair.

The following petitions, &c., were presented and read:
 From Ann McAdie, for reduction of taxes on building destroyed by fire.
 From Nathaniel McCoy, for time for payment of taxes.
 From Neil McCarthy, for remission of taxes paid on property wrongly assessed twice.
 From David Bradford, engine driver, for a grant to assist him in replacing a valuable horse which died in the service of the city.
 From A. Robertson, for reimbursement for \$800 paid on behalf of the Corporation for the cost of the engine in 1876.
 From George Denmark, for the opening of French street in the north part of Coleman Ward, to College Street, the street being already dedicated throughout.

From the Mayor of Ottawa, regarding subscriptions to aid the sufferers by the Hull fire, by way of voluntary subscriptions of not less than \$1 each.
 From Thomas F. Wills, asking remission of fine under the Snow By-law.
 A number of accounts were presented.

REPORTS.
 Of the Finance Committee, that sundry accounts be paid; that Dr. Potts' account had been referred to the Solicitor; that Dr. Hamilton's petition had not been entertained; that of the R. C. School Board as to the refund of taxes had been referred to the Solicitor; the school requisition read; the claim of Joe. Mullen to be paid; the claim of J. A. Northcott granted to the extent of \$40; Mr. Patterson's petition not entertained; report of the Fire Committee as to water tanks referred back for further consideration; approving of Mr. Ockerman's bond as Collector and deferring the consideration of the Auditor's report.

OF THE MARKET COMMITTEE, recommending that the lighting of the clock to a later hour be referred to the Water and Gas Committee; that necessary repairs and cleaning be done to the market building, &c.

OF THE PUBLIC WORKS COMMITTEE that the petition of Monahan & McNeil be granted; that the Street Surveyor make an estimate of the cost of paving Front Street from Bridge to Hotel Street with wooden blocks.
OF THE WATER AND GAS COMMITTEE, that the contract of Wm. Connors for lighting coal oil lamps be extended for one year longer, namely \$11.60, same as last year, he to furnish wicks and oil.

OF THE OTTAWA DEPUTATION, the purport of which has already been made known, was read. On the part of the Printing Committee recommending the payment of sundry accounts.

OF THE BY-LAW COMMITTEE respecting the Tree By-law with and the assessment By-law, without amendments.

INQUIRIES.
 Ald. Jelliff asked why there was no report from the Printing Committee? He had made this enquiry at the last meeting and again to-night because they were threatened with proceedings at law by the publishers of the Montreal Witness.

Ald. Jelliff asked, would Ald. Gean give them a report at the next meeting?
 Ald. Gean said he was not the whole printing Committee, and would only act as the Committee directed. The Council unanimously passed a resolution, directing printing to be ordered only by the Chairman or acting Chairman of the Printing Committee, but had voted that it should be immediately and, what was more, it was difficult to determine. They should either repeal the resolution or adhere to it.

Ald. Proctor said the Printing Committee should have reported. There was no possibility of enforcing those cast iron rules.

Ald. Robertson said the Finance Committee had overlooked the resolution and the rule spoken of by Ald. Gean and directed the payment of the accounts, after conference with the proprietors of the papers. No individual should set himself in opposition to the executive Committee of the Council.

Ald. Dickson protested against any Committee being made a mere recording machine. Two of the accounts had nothing on their face to sustain them, although the INTELLIGENCER account had been certified to, adopted by the Council, and sent to the Printing Committee to ascertain if the work was done and at what rates, and to order its payment at the rate agreed upon. That information he supposed had not been obtained by the Chairman. They must have further information as to accounts than the mere figures which were placed before them, as was the case with the two accounts referred to in the first place. He had expected another meeting of the Committee, but it had not been held.

Ald. Jelliff said the Ottawa account was initiated by the chairman of Committees and by the Mayor.

Ald. Dickson said he now remembered that was the case.

Ald. Gean had not had time to call a meeting, as he could not devote six nights a week to public business. He would, however, have a meeting before the Council met again. There were several items in one of the accounts which were certified by parties who had nothing to do with them.

Ald. Jelliff objected to the delay, which looked as if it was intended. If there were not a report at the next meeting, he should move in the matter.

NOTICES.
 Ald. Dickson gave notice of a resolution for the assessment of the city by a Commissioner.
 Ald. Proctor gave notice of amendments to the Dog By-law.
 Ald. Robertson withdrew his notice for a By-law regulating the sale of milk, as the point is covered by the statute. He also laid over his other By-law regarding the sale of bread, and gave notice of amendment to the Cow By-law and of a By-law regarding the storage of gun powder and other explosives.
 Ald. A. L. Smith's notice regarding the consolidation of debt was allowed to stand over.

BY-LAW.
 Ald. Robertson introduced a By-law to confirm the award for land for the opening of Ann Street.

MOTIONS.
 Ald. Costello moved, seconded by Ald. Farley, that the teams engaged for fire purposes be employed in watering Front Street, from Dundas Street to the Railway station, when not otherwise engaged, and that proper carts be procured for that purpose.

In answer to Ald. Proctor, Ald. Costello said the merchants on Front Street would subscribe as usual. They would contribute \$600 for the season of six months.

Ald. Jelliff wished to have it defined who was to have control of these teams, and by contract irrespective of the city teams, which he did not think could be utilized satisfactorily.

Ald. Brennan said this team could not water the whole distance from Dundas Street to the Station. Mr. Hill, who does the watering now, has the places for supply, and would have to be bought out. He was opposed to the City having anything to do with the matter.

Ald. Proctor wished the subject referred to the Fire Committee.

Ald. Brennan agreed with Ald. Brennan and held that such Streets as were to be watered should be specially assessed for that purpose. Ald. Costello's scheme would be unjust to the other parts of the city. There would be no saving to the city, as the city teams would have to do the work.

Ald. Robertson moved to refer the matter to the Fire and Public Works Committees.

Ald. D. Holden opposed the original motion.

Ald. Lingham said according to Ald. Costello's statement the amount of the subscription would pay the whole cost of the employment of the teams or horses.

Ald. McLaughlin wished that it should be ascertained how much would be subscribed, and have the teamsters collect the funds.

Ald. Costello said the merchants would pay \$25 to the Chairman of the Fire Committee every week.

Ald. D. Holden would support a special rate for the district to be watered, but was opposed to having the city teams engaged in that way.

The motion was withdrawn and the amendment was passed, referring the matter to the Fire and Public Works Committees.

Ald. Grant moved, seconded by Ald. Farley, for a statement in kind of kind and quantity of work done on the streets being attached to the Street Surveyor's pay lists.—Carried.

Ald. Petrie moved, seconded by Ald. A. L. Smith, for a resolution of \$100 for the arrest and \$50 more for the conviction of any person implicated in the burning of the burning which was being erected in Murney Ward for small box hospital purposes.

Ald. D. Holden asked the withdrawal of the resolution.

Ald. Petrie moved, seconded by Ald. A. L. Smith, for a resolution that any person who destroyed public property by fire should be brought to justice.

Ald. Dickson would support the motion with some amendments.

Ald. Hamblin expressed himself in accord with Ald. Petrie.

Ald. D. Holden held that it was much a crime to place small box patients in a healthy locality, and that the building which was to have been used as an hospital was destroyed, it was a criminal act on the part of a parent whose family was thus threatened with this dreadful disease to burn the building, for which the locality was unfit. It was well for Ald. Petrie that he had friends in that locality, and perhaps, he (Ald. H.) was one of them.

Ald. Dickson—Otherwise perhaps we should have been offering a reward for a murderer.

Ald. Petrie thought if a reward had been offered soon after the occurrence events would have been made, and that even now a similar result would have been achieved. Considering, however, that some of the parties who had perhaps been implicated were men of family, he would withhold the motion.

BY LAWS.
 Council went into Committee on By-Laws. Ald. Brennan in the chair.

The By-law for the opening of Ann Street was then considered. The By-law was read a second time and was subsequently passed, the rules being suspended for that purpose.

WATER AND MEANS.
 Council having resumed went into Committee on Ways and Means. Ald. Gean in the chair.

The report of the Finance Committee was first considered. An objection to the clause as to Mrs. Patterson's petition raised by Ald. A. L. Smith was voted down, and the remainder of the report was adopted.

The report of the By-Law Committee was then considered.

The Tree By-law was referred back to the Committee, it being shown that the statute provides that no less than 25c can be given for each tree planted. This provision did not meet the approval of the Committee. The time was extended for one hour.

The report of the Public Works Committee was adopted, also that of the Water and Gas Committee, and that of the Poor and Sanitary Committee referred to the Finance Committee. That of the deputation to Ottawa was received and filed.

On motion of Ald. Dickson, the members of the police force and others were requested to attend the Council all lamps left unlighted.

Committee rose and reported.—Adopted.
 The amendment By-law was read a third time and passed.
 Council adjourned.

MORNING DESPATCHES. EUROPEAN.

St. Petersburg, May 4.—A banquet has been given by the Czar at the Winter palace to the officers of the house, Grenadiers of the guard and of the battalion of Finland, being the troops to which the soldiers who were killed in a recent explosion at the palace were killed. It is a significant fact that the only diplomat present was Ambassador Baron Dever.

Calcutta, May 4.—The Constellation is entirely unladen, with the exception of 150 lbs of meal.

The Zetland despatch from Calcutta says that owing to the aspect of affairs in Afghanistan, the reserve section of the Bombay troops is to be mobilized and sent to the Candahar line. It is believed that the Government will order to bear the entire cost of maintaining a special regiment of Afghan volunteers, and his own personal services.

AMERICAN.

LEADVILLE, May 4.—At a meeting of the board of supervisors last evening, the Judiciary Committee expressed the opinion that Mayor Colwell's conduct was unprincipled, devoid of integrity and fidelity to the public interests, and that the time has arrived when the people should express their denunciation of his acts and recommend prompt action to vindicate the name of the municipality by judicial enquiry into Colwell's case.

The motion to adopt the report was put by Mayor Colwell, who announced it was the intention of the board to move the report and resolution Colwell appeared unopposed, appealing only to consider the charges against the Mayor, and not the propriety of the motion to remove him from office.

POLLOCKVILLE, N. C., May 4.—Yesterday Moses Miller and Alex. Bibbs, both favored voters for the hand of Miss Lloyd, obtained a marriage license at the same time at the Court House, each with the intention of presenting it first to Miss Lloyd. A race to reach her residence was made, and the man who arrived first, Bibbs followed soon after and fell fainting in the doorway from his exertion. Miss Lloyd said the man who won the race was the best runner, but the man who fainted was the most ardent lover, and she married Bibbs.

ST. LOUIS, Mo., May 4.—In Howard County last week Saml. Stiles, aged 18, quarrelled with Linda Stephens, aged 20, concerning certain goods in circulation. The two grappled when Miss Stephens stabbed Miss Stiles in the neck, killing her instantly. She claims self defence.

Richmond, Va., May 4.—The house of Martha Jones, colored, in the suburbs of Christianburg, was burned yesterday morning. Mrs. Jones, who was evidently deranged, refused the assistance of the fire department, and the fire raged great headway, and she and her five children were burned to death.

THE LUMBER BUSINESS.—The Muskoka Herald gives some interesting statistics of the lumber industry in the Muskoka and Parry Sound districts, from which we may gain an idea of the growth of the interest in the lumber trade in that section. The season is out at 182,725,000 feet of lumber and 10,000,000 shingles. In the board trade the lumber trade is valued at 140,000 cubic feet, and 25,000,000 shingles remain to be cut. It is calculated that one-fifth of the stock of lumber above mentioned will be shipped by the end of the season, and the balance will be seen on the Georgian Bay and shipped by water. The lumber is of better quality than usual, and is mainly destined for American markets, principally Oswego and Buffalo.

THE LUMBER TRADE.—As an evidence of the revival in the lumber trade a gentleman well informed in the business at Ottawa says a sale of culls was recently effected at prices almost double those of the previous year. Culls that brought only \$8.00 last year are now coming at \$17.50. An Ottawa report says a prominent lumber merchant of New York, visiting the city with the intention of buying some lumber at the Chaudiere. He was, however, unsuccessful, as every foot of last year's cut had been disposed of, as well as the coming season's cut up to the 1st of September. This is a bright prospect for the lumber trade in the country, and safely look forward to more prosperous times.

In Poland the yield of wheat is twenty per cent above that of the Russian Empire, while there are 37 head of horned cattle for every 100 inhabitants as against 33 in Russia, and 100 horses to 1000 inhabitants. Horses are more numerous and better than in Russia.

The Printing Committee closed its investigation of the Printing Scandal yesterday, and made its report to the Council. It is declined to pass any opinion on Mr. Boyle's guilt or innocence in the matter, but recommended that the existing contract be cancelled.

VALUABLE FARM PROPERTY.

IN pursuance of the power of sale contained in a certain Mortgage which will be produced at the time of sale, there will be sold by Public Auction, on

Saturday, the 22nd day of May, A. D. 1880,
 at the hour of 12 o'clock, noon, at the Court House in the City of Belleville, by Charles Wilkins, Auctioneer, the following valuable (Building Lots in the City of Belleville):
 Lot No. 68, 51 and 60, lying to the north of Moira Street.
 Lot No. 4, on the west side of Howard Street.
 Lot 1, on the south side of Highway Street.
 The three last mentioned Lots lying to the south of Moira Street, as laid down on a plan of the Wallbridge estate made by John D. Evans, P. L. S., and lodged in the Registry office for the County of Hastings, on the 24th day of January, A. D. 1872.

The above are most desirable Lots, well situated, and will be sold cheap. Terms and conditions of sale made known at the time of sale, or in the meantime on application to the Auctioneer, or to

MORTGAGE SALE

OR VALUABLE FARM PROPERTY.

IN pursuance of the power of sale contained in a certain Mortgage which will be produced at the time of sale, there will be sold by Public Auction, on

Saturday, the 8th day of May, Next.

at the hour of 12 o'clock, noon, at the Court House in the City of Belleville, by Charles Wilkins, Auctioneer, in two parcels.

Parcel 1.—The north half of lot number twelve, in the sixth concession of the Township of Murray, in the County of Northern Ontario, containing one hundred acres, more or less. The land is rich clay loam. Good large concrete house with kitchen and woodshed recently built; good barn, sheds and carriage-house, nearly new; on the premises is an orchard of about five hundred young apple trees of the best varieties. The farm is well fenced and well watered, convenient to a school, market and railroad. It is about two miles from Smith's Corners, on the gravel road, and situated in a good neighborhood about four miles from Frankford. The farm is a choice one.

Parcel 2.—The west half of lot number 11 in the 4th concession of the Township of Hastings, in the County of Hastings. This parcel is situated near Huntingdon Town Hall, on it is a good dwelling house with barn and outbuildings, and fine orchard. The lot is well watered.

Terms made known at time of sale or in the meantime on application to

MESSRS. BELL & PONTON,
 Belleville, April 16th 1880. 212w

Mortgage Sale

OR VALUABLE CITY PROPERTY.

IN pursuance of the power of sale contained in a certain Mortgage which will be produced at the time of sale, there will be sold by Public Auction, on

Saturday, the 15th day of May, Next.

at the hour of 12 o'clock, noon, at the Court House in the City of Belleville, by Charles Wilkins, Auctioneer, the following valuable Building Lots in the City of Belleville: Lot No. 79 and 74, lying to the north of Moira Street.

Lot 3, on the south side of Everett Street, situated to a regular plan made by John D. Evans, Esq., P. L. S., and registered in the Registry office for the County of Hastings on the 24th January, 1872.

The above are most desirable Lots, are well situated, and will be sold cheaply. Terms and conditions made known

Daily Intelligencer.

REBELVILLE, WEDNESDAY, MAY 5
The Advance in Wages.

The Montreal *Times*, from which we
copied an item yesterday respecting the
advance in wages, has the following in last
evening's paper:

"In referring to the item in last evening's
edition in reference to the advance in wages
in the building trade, a contractor stated
to-day that the advance is not due to any
unusual activity in building, for such does
not exist, but simply to the wholesale exodus
of our laboring classes.

"Our informant estimates that the wages
being paid in the building trade to-day are
fifty per cent at least in advance of those
at the corresponding period last year. Masons
and plasterers who last year at this time
were getting \$1 per day are now being paid
\$1.50, while carpenters who were being paid
\$1 are now receiving \$1.25 to \$1.50. Labor-
ers who were receiving last spring only sev-
enty or seventy-five cents, are now receiving
one dollar or more. Unless the present ex-
cessive advance is sufficient to attract labor
from other places a still further advance may
be necessary, as there is no very great
amount of work being done, and there are
hardly enough carpenters and others here to
do it. However, as soon as labor comes to
exist, but simply to the wholesale exodus
of our laboring classes.

For some time past the *Globe* and other
Opposition papers have kept this exodus of
people from Canada prominently before
their readers, attributing it to the effect
of the policy of the Government. Instead
of industries prospering everything
was going to the dogs, and as a result the
people were leaving the country in thou-
sands to find employment elsewhere. The
facts as stated in the *Times* ought to
silence these cavillers at once and forever.

What is said of Montreal can be said
of nearly every locality in Canada. In
Ottawa, from whence hundreds of skilled
and unskilled laborers have gone to Man-
itoba and the United States, it is next to
an impossibility to procure men for
any class of trade; in Toronto and
Hamilton and other large cities it is the
same. It will be seen by our
advertising columns that Gilmour & Co.
of Trenton, want fifty additional men at their
works. And all over the country there is
a demand for laborers simply because
of the great tide of emigration to the North-
West which has carried off hundreds from
all parts of the Dominion, and no better
proof of the utter fallaciousness of their arguments
could be given than the facts as above stated
in the Montreal *Times*.

THEY ANSWER N. P.—A few days ago the
local Irish organ announced that Mr. Rees
Price had been ordered to leave Belleville
because of the N. P. Mr. Price had not
been engaged in any manufacturing busi-
ness here, he having been a grain dealer.
What the N. P. had to do with the specu-
lative prices of barley in 1878 and the
sudden and calamitous fall in that article,
all of which occurred long before the
present tariff came into being, it would
puzzle any sane person to find out. Mr.
Price goes to Goderich to engage in the
milling business, in which, but for the N. P.,
there would be but little profit. Hence,
the policy of the Government having been
detrimental to Mr. Price, it has been
quite the contrary.

THE CANADIAN PACIFIC RAILWAY.—There
was laid on the table of the House
on the 4th inst., a copy of the contract
entered into with the Government by
George Bowe and McNaughton, for a
certain portion of the Canadian Pacific
Railway, commencing at the end of the
4th contract, near the Western Boundary
of Manitoba, and extending to a point on
the west side of the valley of Bird Lake
Creek, in length about 100 miles, or any
shorter distance that the Minister of Rail-
ways and Canada may determine, and
may be otherwise designated as the second
100 mile section west of Red River. Fifty
miles of the track to be in running order
by the 1st day of June, 1881, and the
whole distance to be ready for the passage
of trains by the 31st day of December,
1881, the ballasting and other works to be
completed by the 1st day of December,
1882. The cost of the work to be done
under this contract is estimated to be
\$438,914.

THE CANADIAN CATTLE TRADE.—The
London *Daily News* of the 4th inst. says: A
number of very superior Canadian cattle,
which was landed on Saturday from the
teamship *Brooklyn*, consigned to Mr.
Richard Hall, cattle salesman of Liverpool,
by Messrs. Frankland, Thompson, and
Flanagan, of Toronto, were exposed for
sale at the Liverpool Cattle Market, yester-
day, and realized the extraordinary price of
\$45 each. These cattle, many of which
were prize winners at the various shows
in the Dominion, were bred and fed at Gov-
ernment Model Farms, at Guelph, Ontario,
an institution similar to that at Guelph,
the annual report of the Hon. J. H. Pope,
Minister of Agriculture for the Dominion
during 1879 a total of 25,000 cattle,
peddled to this country, and there was
in addition, a large trade in dead meat.

THE QUEBEC LABOR TROUBLE.—In conse-
quence of the labor troubles in Quebec among
the stevedores, stevedores are arriving at
that port have been ordered direct to Montreal
to that city by boats, and the stevedores
men were seriously injured in the dock
last night. No further disturbances took place
yesterday.

Political Notes.

CUSTOMS RECEIPTS.

The following, from the Ottawa corre-
spondent of the *Mail*, is exceedingly
gratifying to all but the free-traders:
Some time ago Sir Richard Cartwright
showed a great curiosity concerning the
state of the revenue for April. This
curiosity was gratified. Sir Leonard Til-
son this afternoon stated to the House
the revenue for April was as follows:
Customs \$1,192,300 excise \$382,342; total
\$1,574,642. In 1879, the figures were as
follows: Customs \$928,788, excise \$1,139,
388; total \$2,068,176. In 1878, the fig-
ures were as follows: Customs \$901,661, ex-
cise \$810,306; total \$1,711,967. The in-
crease in April, 1880, over April, 1879, is
\$766,229. The increase over April, 1878,
is \$822,635. It will be perceived that the
Customs and Excise for April, 1880, are
nearly double the receipts of the same
month last year. This is, of course, an
exceedingly gratifying statement, which
goes very far indeed in carrying out the
estimate of the Finance Minister. The
estimate of revenue from Customs for the
year ending 30th June, 1880, was \$14,-
500,000. Already up to date, we have
the following figures from Customs alone:—

Right months to March.....	\$8,601,570
March.....	423,070
April.....	1,132,300
Total.....	\$10,156,940
Total estimate.....	\$14,500,000
Deficit.....	\$4,343,060

The Customs receipts of the next two
months will be large, and must reach the
figure of at least \$2,500,000 or \$2,750,000,
thus making out the Finance Minister's
estimate of Customs revenue very closely
indeed.

THE IRON TRADE.

The Ottawa *Globe* says: During the
five or six years of depression in the United
States the railways were making very
little money, the demand for rails had
almost ceased, and not a dollar would the
companies lay out on either renewals or re-
pairs that could possibly be saved. Mean-
time both rails and rolling stock in use had
been rapidly running down, and when the
revival of business came in 1878 both were
so badly used up that extensive renewals
could no longer be postponed. During last
summer traffic improved wonderfully, and
the year closed it was "booming" on
all the great lines. Then there was a rush
upon the furnaces and iron mills for heavy
supplies of iron of all kinds—pig, rails and
bar, which were wanted faster than they
could be furnished. With this rushing
demand prices went up, and importation
from England, which before had dwindled
down to small proportions, began to expand
again. The English iron masters, having
vast supplies on hand for which no market
could be found anywhere in the world
during recent years, and having kept in
blast many furnaces, even though they
were not paying, were able on the instant
to take advantage of the sudden new de-
mand, and American makers had time to
realize the situation, and to put in blast
furnaces that had been long idle. The
latter made their iron, to meet the new
freedom, and between them and the
English the market was flooded. The
simple truth of the matter is that an
extraordinary and almost unprecedented
situation had arisen, caused in the first
place by a demand by the railways for the
delivery in three months of iron for re-
newals, that under a proper system should
have been distributed over three years, a
quick "boom" in prices, then an over-
supply, and the inevitable backward sweep
of prices at last."

THE N. P. AND FREE TRADE.

The Montreal *Star* says:—The National
Policy has been on trial for a year, and
we neither see any valid reason, nor have
we heard any sensible argument to show
that it should be abandoned until at least
a change in a progressive direction can
be offered. That the country is still enshrouded
in gloom seems undeniably true, but it
would mean nothing less than national sui-
cide to inaugurate a retrograde move-
ment now, to throw our markets open
to the Americans while theirs are closed
to us. Better incur the risk of ruin
under our present policy and sink under the
banner of protection, in the hope that the
Americans will yet relax the error of their
ways than relapse into a condition that offers
not a ray of hope. When the opponents
of the Canadian national policy are propo-
sed to offer in its place reciprocal free trade
relations with the United States then they
may hope to convert the people, but not
sooner. Are the *Globe* and its supporters
prepared to follow Goldwin Smith and his
few followers in the idea of a North Amer-
ican Zollverein? Otherwise "reciprocal
free trade," which means the abolition of
Customs frontiers, is as far off as ever, and
the only question remaining is as to a
revenue or a protective tariff. One thing
is certain, namely that the tariff must have
been raised to meet the deficits, which
averaged about \$2,000,000 a year under
the "great" Cartwright.

OFF THE TRACK.—The mail train on the
Midland going north on the 4th inst., was
thrown off the track near the Whittby
way junction at Lindsay. The engine was
upset in the ditch, together with the ten-
der and a box car. The engineer and
fireman escaped without injury, and very
little damage was done to the cars.

ORANGEISM.—The annual session of the
New York State Lodge of Orangemen was
held at Newburg, N. Y., on the 4th inst.
The delegates reported the membership
was increasing. The Supreme Grand Lodge
of the United States meets in Jersey City
in June.

THE HAMILTON TIMES.—The Hamilton
Evening *Times* has appeared in a new dress,
and the publishers deserve to be congrat-
ulated upon the exceedingly neat manner of
its get-up. The *Times* was always one of
the neatest and best printed papers in
Canada, and in its new dress it would be
difficult to find its equal. It is a spicy and
cleverly conducted paper, withal.

—The most strenuous exertions are made
by emigration agents in England to direct
intending settlers to take up their homes in
the States.

MORNING DESPATCHES.

AMERICAN.

SALT LAKE, May 4.—Six of Brigham
Young's daughters have been excommuni-
cated from the Mormon Church for charging
the church with defrauding Young's heirs of
a million dollars and for causing the impris-
onment of his executors. The daughters say
they are disgusted with Mormonism.

PORTLAND, Oregon, May 4.—The Court
from Astoria reports a fishing fleet of twenty
boats on the Columbia river swamped in a
equal on a bar. Twelve persons were
drowned.

LYNN, Pa., May 5.—Explosive gas at
Short Mountain colliery yesterday, resulted
in the instant death of three men, and fatally
burning two.

DETROIT, May 5.—Indian desperadoes
made the people of New Mexico desolate.
It is believed the raiders are led by the no-
torious Victorio, and have been joined by Me-
calero Bucks, who escaped from Hatch. The
bodies of the murdered shepherds have been
found dead, and the bodies of the Indians
and sheep have been driven off by the Indians.
Volunteers are starting out to overtake the
Indians.

A duel over a mining claim at Astor City
recently, between two Swedes, which resulted
in the death of both, was instigated by min-
ers who told the story, that disputes in the
area were settled with pistols. Both men
thoroughly mortally wounded, kept firing until
the weapons were empty.

NEW YORK, May 5.—The *Herald's* San
Francisco estimates the attempt to remove
Mayor Kelloch as a weak affair in the interest
of the Republican politicians.

The *Tribune's* Albany says some of the
members of the Senate Joint Committee on
taxation feel so aggrieved over the Govern-
ment's action in vetoing the bill taxing foreign
bank capital while they were talking to him
about it that they have proposed to attempt
to pass it over veto.

The *Tribune* says the ways and means sub-
committee reported the revised tariff to the
full committee yesterday making many radical
changes, which will decrease the revenue
eleven millions annually.

The duty on all manufacturers of cotton and
all unmanufactured wools is made 30 per
cent, *ad valorem*; on manufactured wools
20 to 40 per cent. The duty on wool pays
reduced from 20 to 10 per cent, and on flax
\$25 to \$10 per ton; on paper of all sorts from
20 to 15 per cent; manufacturers of paper
from 35 to 25 per cent; upon agricultural
implements from 35 to 25 per cent.

The Bill will receive all the Democratic
votes. High tariff men concede that the Bill
will be reported favorably.

YONKERS, April 16.—By an explosion in the
Takamaki coal mine, near Nagasaki, about
fifty were killed, and still more injured.

At Penn Yan this morning Mrs. George
Woodruff, during the temporary absence of
her husband from home, took her two sleeping
children from the bed, and going to the cistern
drowned both. The cause is thought to be
insanity arising from their inability to pay
their debts.

News Condensed.

—The Hull relief fund amounts to \$15,024.
—A break has occurred in the new French
Cable.
—The *Telegraph* says a short distance
north of the English Channel a short distance
a starch factory is shortly to be started at
St. Peter's Bay, P. E. I.
—Mr. Oliver Morat leaves for England to-
day.
—The *Polynesia*, now on her way to Que-
bec, has 1,180 passengers.
—Edward Beasley, tailor, was drowned in the
river at London on the 4th inst.
—The Vice-Regal party will leave for Que-
bec on the 29th of May.
—Four large lots of timber are under way
in Toronto harbor.

—The McDowell Combs on left Mont-
real for Winnipeg on the 3rd inst.
—Ice in New York commands double the
price it did at this time last season.
—Hanlan has commenced practice at Wash-
ington for the great race on the 19th inst.
—Gen. Laard is to leave England at once
to assume the command of the Dominion fire
brigade.

—The death of an old resident of Kingston,
Col. Angus Cameron, is announced, at the age
of 82 years.
—The Commissioners granted 14 licenses in
Colony last year; this year they granted only
12.
—Mr. J. C. Clark, of the New York *Herald*,
is at present writing up the harbor of Mont-
real and its navigable course to the sea.

—The price received by Bowie & McNaughton
for their second 100 mile west of Red River
is \$438,914.
—Lieut. Governor Macdonell will retain his
office till July 1st. His family will leave
Toronto for Montreal on the 18th inst.
—Governor Cornell, of New York, has
vetoed the Bill to tax the capital of foreign
banks doing business in the States.
—Anglo-American Telegraph stock has im-
proved in consequence of the announcement
of a break in the new French cable.

—Shipments of iron ore from the Mississippi
Mine on the Kingston and Pembroke Railway
have commenced.
—The disease which has been prevalent
among sheep in the west and north of
England is reported as being stamped.

—The Hon. D. L. Macpherson, Speaker of
the Senate will leave for England shortly after
the session, which will close this week.
—Lieut. Col. Irwin, of the North-West
Mounted police, is in Toronto passing re-
cruits for the force.
—W. J. Fraser, who went from Ottawa to
Rockaway Beach, to work in the hotel there,
died at that place on Friday last of pleurisy.
A number of the men have returned to
Ottawa.

—Advices from all the fruit sections of Il-
linois and Michigan indicate good crops of all
kinds of fruit and berries. The strawberry
crop in the latter State promises to be excep-
tionally fine, as well as the peach crop.
—It is feared dreadful epidemics may be
experienced during the heated period of the
coming summer. The European steam-
ships, if they continue to be fearfully crowded
with emigrants, and so poorly provided for
as at present.
—The children of a farmer near Unkridge
by their parents, and in playing with a light
and a piece of brick the house caught fire
and perished in it. Two of the children
—Sir Hugh Allan, the millionaire shipow-
ner, of Montreal, began life as a drygoods clerk
with a capital of \$100. He is now worth \$10,
000,000, is 70 years old, and may be seen at
his office, busy with the details of his busi-
ness, from 10 o'clock in the morning until
late in the afternoon of every working day.

HON. GEO. BROWN.

Toronto, May 5, 10 a.m.—No change
in Mr. Brown's condition since yesterday
p.m.

Police Court.

(Before A. Diamond, P. M.)
WEDNESDAY, May 5,
AGGRAVATED ASSAULT.

Peter Maloe was charged with having
committed an assault on an aggravated
character upon the person of Alder Gathier,
by beating him and biting off a por-
tion of his ear. Prisoner elected to be
tried summarily and said he did not know
whether he was guilty or not, as he was
drunk at the time when the affair occurred.
The parties are boys of about 16 years old,
and the evidence showed that on Thursday
last they quarrelled concerning a fish,
and fought, prisoner trying to gouge com-
plainant's eye, and bit a piece off his ear.
Prisoner was found guilty and sentenced to
six months in Central Prison.

NOTICE.

FLOWER AND GARDEN SEED.—A fresh supply of Perry & Co. Flower and Garden Seed just received.—Albert L. Green.

CALL AT C. McDonald's, 276 Front Street, for Bell Cuban cigars at 50c, or the stock of 1879 for 10c.

Daily Intelligencer.

BELLEVILLE, WEDNESDAY, MAY 5.

City and Vicinity.

IRON ORE.—Three cars of iron ore arrived this morning from Madoc.

POLICE.—One vagrant tramp was the only inmate of the cells last night.

ARRIVED OUT.—The Allan steamer Scandinavia arrived out to-day.

PERSONAL.—Mr. James Glass has so far recovered from his recent apoplectic attack as to be able to drive out to-day.

FIRE.—On the night of the 3rd inst., the store of Mr. R. Foster, Marlbank, was burned. Loss \$1,000; insurance \$500.

IMMIGRANTS.—One hundred immigrants passed west over the Grand Trunk, yesterday. They were chiefly bound for western Ontario.

DEAD.—Hugh McDonald, the Grand Trunk brakeman who was injured at Brockville recently by having both his legs cut off, died yesterday.

YACHT CLUB.—Members of the Bay of Quinte Yacht Club are reminded of the annual meeting to-night at the Mechanics Institute. A full attendance is requested.

DOG STEALING.—Several small and valuable pet dogs have of late been stolen from parties residing on Taylor's Hill. Owners of this class of property should guard it carefully.

BABY OPERA.—Remember, the largest company of the smallest and youngest children in the world, compose the Baldwin Baby Opera company at Metropolitan Hall, Friday and Saturday next.

CRICKET.—At a meeting of the Cricket Club last night, it was resolved to proceed with the fitting up of the grounds on the bay shore, which location is certainly the best for the purpose that can be had. The Club is likely to present a very strong eleven this season, and a number of interesting matches may be expected.

SOCIAL.—On Tuesday evening the 4th inst., a Social was held in the Station School, in aid of the organ fund of St. George's Church. The chair was occupied by Mr. J. A. Boyce, who delivered a very interesting address in opening the proceedings. The entertainment consisted of readings, songs and recitations, in which Miss Chambers, Kennedy, Northcott, Merrin, and others took part. The attendance was very large, and in every respect the Social was a complete success.

WRESTLING MATCH.—Prof. D. C. Ross visited here last night and the result was the fixing of the long pending wrestling match between that athlete and E. W. Johnston. The stakes are to be \$100 a side, and the match is to take place in Picton on Monday night next. The struggle, we have been assured, will be a genuine one, as both parties mean business. Johnston is backed by parties in Toronto and Ross by persons in Nanapan.

OBITUARY.—John McShos, formerly a resident of Marmora, died on Sunday, 25th of April, with congestion of the lungs, from which he had suffered for nine days. Although he had only resided in that vicinity for a little over a year he had made a great number of friends who mourn the loss of a good neighbor and kind friend. He leaves a wife and four children to mourn the loss of a kind husband and father.

THE BABY OPERA COMPANY.—The Ottawa Citizen says of Baldwin's Baby Opera Company which is to appear here on the 25th of April, on Friday and Saturday nights and at a matinee on Saturday afternoon: "Baldwin's Baby Opera Company appeared at the Opera House yesterday, both matinee and evening, in 'Pinafore,' before very good audiences. The children are wonderfully well trained, and sang their solos and choruses with remarkable correctness. 'Sir Joseph Porter, K. C. B.,' was in the hands of a perfect giant aged five years, Baby Wesley Lyman, and was the warmest approbation of the audience. His acting was worthy of a mature actor. He had a good voice, in a sweet, clear, little falsetto, and sang around the stage with the greatest possible ease and grace. 'Little Buttercup,' Miss Georgia Gardner, aged nine years, was a charming little actress. Both her singing and acting drew forth an abundance of applause. 'Hebe,' Baby Gardner, aged three years, was very fascinating, and her singing was very sweet. It is surprising that she should have so thorough a conception of the character. In fact, the same may be said of the whole company. Master Johnny made a good 'Dick Daudy,' and Tom Meany a capital Captain Corcoran. Miss Lizette Williams took the part of 'Joan,' and her singing was very effective, and to the amusement of the audience, the Burlington 'Triplets' sang 'The falling of the rain upon the roof.' The little fellow stamped himself an elocutionist, and scored an encore."

GIRLS.—A number of those nomadic people, with their tile-wagons, are in town.

RECEIPTS AND SHIPMENTS.—Messrs. W. Lingham and Son received one car of wheat on Monday and one car of wheat yesterday from Colborne. They shipped on Monday one car of corn and flour to Campbellford.

ROWING CLUB.—The annual meeting of the Bay of Quinte Rowing Club, for the election of officers, will be held to-night at the usual place, and all members and those who intend to become such, are invited. The club have now three double sculls, and four single scull lapstreak boats, and besides the members of the Club own about thirty skiffs and other craft. The terms of admittance are reasonable and the Club ought to have a large membership.

CUSTOMERS RETURN.—The returns for the Port of Belleville for the month of April, as compared with the same month last year, are as under. They show, it will be seen, a very gratifying increase, especially in exports:

IMPORTS.	
Goods entered for consumption April 1879-80.	Value.
1880.	\$16,358
1879.	\$17,124
Decrease.	\$ 766

EXPORTS.	
Goods entered for consumption April 1879-80.	Value.
1880.	\$20,355
1879.	\$18,448
Increase.	\$ 1,907

Seasonable Topics.

It is not drunkenness now, nor dipsomania which attracts these fellows who elevate the little finger too often. They now call it methomania.

Now is the time when the careful pattern-maker starts home from the market with a smile on his countenance and a flower-pot in his arms.

This farm for sale, subject to mortgages and covenants, is the way they now hang out signs in the southwest.

Mr. Vennor is going out of the prophet business. There is no profit in it.

Street corner loafers were numerous yesterday, and the police were kept busy saying "Now, here, move on, boys."

Those in want of horse bills can have their work executed the same day their orders are given at the INTELLIGENCER office. A number of suitable cuts for bills or cards to select from.

The experienced married man not only shakes the carpets, but he also "shakes" all other spring house-cleaning by going to a neighboring city for a week on "business."

The flowers of prevarication will soon bloom. We refer, of course, to the lilac.

A man once made an independent fortune by attending strictly to his own business. Try it.

An ingenious writer proposes to utilize balloons to cure whooping-cough, for, as change of air is said to be the best remedy, a monster balloon might be made to contain the children, and at night without any trouble, while a platform might be reserved for musicians, who would enliven the nursery and develop the musical faculties of the parents.

From our Marmora Correspondent.

Mr. Ira Cook expects to enter largely into the cheese manufacture during the ensuing summer, and is making extensive preparations for doing so.

As a youth named George Lake, about eighteen years of age, was, on the 21st of April, in a canoe on Deer River near the house of J. Acker, Lake Township, his craft capsized and he was drowned. His body has not yet been recovered up to last accounts.

Very little fall wheat has survived the winter, but, where, although injured, is still expected to recover if the weather is favorable.

Mr. Mackintosh is at present engaged in a tour of inspection to the schools in this township, and so far seems well satisfied with the progress which the pupils have made since his last visit.

A severe pugilistic battle was fought at Malone on the 23rd April, in which four parties were engaged, two of them being hurt pretty badly.

Mr. D. Stewart expects shortly to open a shaft on the farm now occupied by J. Corby.

Gold is still obtained in paying quantities from the Neil mine, although no ore from it has yet been crushed.

D. Moore and A. McInroy have taken a contract to draw iron ore from the Dufferin mine to the railway crossing near the house of J. Thompson, Madoc Township, at the rate of \$1.15 per ton and sub-letting it at \$1.00 per ton.

Capt. Mitchell is about to open a shaft for iron ore near the Feigl mine.

CHEESE NOTES.

The following is Messrs. Hodgson Bros. comparative report of the quantity and prices of cheese in Liverpool on March 31st for this year and the five years preceding:

Quantity	Price
1880.	\$3,124.
1879.	\$3,124.
1878.	\$3,124.
1877.	\$3,124.
1876.	\$3,124.
1875.	\$3,124.

SALE OF CHEESE.—Messrs. Hodgson Bros. have been busy amongst the factories during the last week, picking up all the cheese made up to 24th April, at 12c per lb.

The shipments for the week will amount to about 800 boxes.

Special Invitation.

Daily Intelligencer.

BELLEVILLE, FRIDAY, MAY 7.

City and Vicinity.

POLICE.—There was one tramp in the cells last night, and one drunken man who was arrested was liberated by order of the Mayor.

BARY OPERA.—Remember the first appearance of Baldwin's Baby Opera Company at the Metropolitan Hall, in "Pinafore." They will perform at a matinee to-morrow afternoon, and again in the evening. These matinees have been well received wherever they have appeared.

GRAND BLACK CHAPTER B. A.—The annual Council of the Grand Black Chapter of British America will be held in Toronto, commencing on Monday, the 31st of May, at 7 o'clock p. m. Arrangements have been made with the Railway Companies to carry members at reduced rates.

THE MCGANN MONUMENT.—Mr. R. Mathison, Sept. of the Deaf and Dumb Institute, acknowledges through the columns of the *Silent World*, the sum of \$40 contributed by a number of friends towards the erection of a monument to the memory of the late Mr. J. B. McGann.

SPRING PLANTING.—Large quantities of shade trees are being planted, the effect of which will be to add largely to the attractiveness of the streets. Fruit trees and shrubs have also been received in quantities, but not so many from the United States as before the N. P. That trade is now principally in the hands of Canadian dealers, whose goods are best suited to the climate hereabouts.

PIKAPOPO PERFORMANCE.—The Kingston *Wig* says: "There was a fearful jam at the Opera House yesterday afternoon when the Baby Pinafore Company gave a matinee. Every seat in parquette and dress circle was occupied, some of the chairs by two small persons. The playing was satisfactory. Sir Joseph and Hebe being specially petted." This company play here this evening.

DESERVED.—A man in St. Catharines has been fined ten dollars for each of four birds killed out of season, and six dollars of those. It is a heavy penalty, but those who know the value of insectivorous birds to the country will not say it is undeserved. A good many of the farming population need to be educated into an appreciation of the value of the birds. They need to be shown that it is not their grain, but the poisonous grubs and insects that feed upon it, that the birds come after when they alight upon their fields, and there should be vigilant officers in every neighborhood to attend to the protection of our feathered friends.

A MAELON TEMPLE.—The Masonic Fraternity of London, Ont., have determined to erect a magnificent Masonic Temple in this city, to cost \$100,000. The building will be 143 feet in depth in Richmond Street, by 110 feet on King Street, and be built in the French Renaissance style of architecture. A splendid Opera House is to be included in the building, and there will be eight stores facing on Richmond Street. The Masonic Hall itself will be a grand affair, having the most commodious lodge and ante-rooms in the West. The land has all been paid for, the necessary stock subscribed, and a goodly share paid up. Work on the building will be commenced about the first of July.

A LITTLE ROMANCE.—The *Silent World*, a journal published in the interest of the Deaf and Dumb, has for the following time romance in its last issue:—"A strange incident, slightly colored with romance, has occurred lately. Lizzie Beamish, one of the girls who has been at the Institute for the last eight years, and who was supposed to be an orphan, has found her father. Some years ago she was placed in the Girls' Home, Toronto, by a woman, who represented she had neither parents living. This woman paid a small sum for the child for two years, after which time she quietly disappeared off the scene, leaving the little girl to starve, but kind friends were raised up for her. Lizzie Beamish, who is now sixteen, and who is a favorite with her companions and teachers at the Institute, and who we hope her life in the future will be as happy as in the past eight years."

PASSENGER TRAFFIC.—The passenger traffic on the Grand Trunk continues brisk, the number of cars on each train averaging from ten to thirteen in number.

STEVEDORES' ASSOCIATION.—The laborers along the wharves here have formed an association for mutual benefit and protection. James Shevlin was chosen President, and Edward O'Rourke Secretary. No rate of wages has yet been struck.

THAT WRESTLING MATCH.—Mr. E. W. Johnston states that the wrestling match between himself and D. C. Ross will take place at Mill Point on Monday night, instead of at Pictou as previously stated. The articles, he says, were drawn stipulating that the match should occur at Pictou, but Ross persistently declined to wrestle there, so the change to Mill Point was made.

PRINCE EDWARD ASSIZES.—The Prince Edward Assizes opened at Pictou on the 6th inst. Mr. Justice Ouler presiding. There are five civil cases on the docket and one criminal, in which the Grand Jury have brought in "No bill." The first case, Baker v. Bird, an action for libel, was commenced and all the evidence taken and the case adjourned to-day. The letter was published in the *Daily Ontario*, and was signed by the defendant. It was headed "Dishonest Grain-buyers," and in this letter defendant stated that plaintiff had his weight scales so arranged that he defrauded the farmers out of ten per cent. of their grain. The defendant pleaded justification, his only witness being himself. Plaintiff called witnesses to prove that the weight scales were correct. The case will probably conclude to-day. The Assizes are not likely to last longer than three days.

POLICE COURT. (Before His Worship the Mayor and Ald. Dymally.)

FRIDAY, May 7th, 1880.

DRUNK AND DISORDERLY.—Peter Murray appeared on remand, and was discharged.

RESERVE.—James McCoy, for rescuing a cow from Inspector Maiden, was fined \$1.00 and costs.

LUNACY.—The case against James McGinnis was further remanded till Monday.

MARINE NOTES.

The schooner *Tranchemontagne*, light from Oswego, loading at Rathbun & Son's mill at Ferry Point.

A number of schooners, inwards and outwards passed here yesterday afternoon bound for various ports.

The schooner *Belle*, passed down this morning lumber laden, for Mill Point.

The schooner *Pioneer* left this morning light for Napanee.

The schooner *Gloucester* came in this morning with wood.

That most unfortunate of all unlucky vessels, the steamer *Arctica*, broke her propeller wheel at Black's dock, below Northport, yesterday, and was taken to Mill Point, where another and larger wheel was in readiness to be fitted to her. This makes fourteen vessels which this unlucky boat has broken, it is said, and the accident in question is the fifth which she has sustained this year already.

The excursion steamer *Transit*, which wintered at the red mill wharf, just outside the Corporation, was burned at about 3 o'clock this morning. The fire was so hot that the workmen were obliged to leave the vessel, and the boat was so badly damaged that it was abandoned. She was an old timer, being at one time a ferry from Toronto to the Island, and subsequently was taken to Hamilton, where she was placed between that city and the beach. Thence she was brought here last season by Mr. Melancthon Simpson, and ran as an excursion boat. The *Transit* was owned by Mr. James Lee, of Orono.

We have learned since the above was in type, that the dock at which the steamer was burnt, was so badly damaged that the lower part of the hull, though all the upper works were burned and the machinery damaged to a considerable extent. The pupils of the Institute for the Deaf and Dumb were turned out, and worked willingly in preventing the spread of the flames. The vessel, which was valued at \$25,000, was insured for \$25,000 in the North British and Mercantile, which policy would have expired in a few days.

The *Pictou Times* says:—"There is nothing which dignifies a harbor so much as old vessels sunken or dismantled. We are glad therefore that the hulks which have obstructed the port of Pictou for some years are one by one disappearing. Last week the schooner *Gaselle*, which all last season rested on the bottom near the old mill, was pumped out, and there were included facing on Richmond Street. The *Gaselle* had been in the harbor for her sale. The only old vessel now in the harbor is the *Mary Gurney*, and she is past redemption, however she lies well out of the way of the *Gaselle*, which is not any obstruction to navigation."

Seasonable Topics.

A Boston Irishman complains that the newspapers always wait till a man dies before they give him an obituary.

There seems to be a disposition on the part of the newspapers to ignore the potato bug out of existence this spring.

A newspaper poet sings: "In the nuptial bed lie die." And we don't suppose one person in five hundred thousand will interpose an objection, provided he selects the next nocturne that comes along.

When a woman is running after a street car, she is usually waving her handkerchief, the conductor knows that the wild waves are saying:

"Why did they dig my grave so deep?"

"Down in the clay so deep?"

"Why did they leave me here to weep?"

"Why did they dig my grave so deep?"

The only answer we can suggest to this conundrum is that they wanted to get her where she would be out of hearing of their song, the music of which is only excelled by the words.

THE BREAK IN THE CABLE.—The New York papers intimate that the break in the new French Cable was not an accident but that it was purposely done. The New York *Graphic* thinks it is significant that the Anglo American Company which advertised that they would reduce the rate to sixpence a word the moment the French Company opened, failed to make the reduction promised, and the Direct Cable Company also took no action. The Montreal *Witness* says the Montreal and Dominion Companies reduced the rate to fifty cents on Saturday, but put it back to seventy-five cents again on Monday, much to the disappointment of the public.

AQUARIUM.

At a meeting at 101 York on Saturday, it was decided to supplement the silver cup for the competition on May 24th, by two silver medals to be competed for by double-bullion on the same occasion. Entries for double and single cup races are to be made with Mr. A. Paxon, of Blackwood, Secretary.

The Canadian Association of Amateur Oarsmen have adopted the following definition of an amateur oarsman:—"One who has not entered in an open competition, for either a stake, public or admission money or entrance fee, or competed knowingly with or against a professional for any prize, since January 1st, 1876; who has never taught, pursued or assisted in the pursuit of athletic exercises as a means of livelihood; whose membership of any rowing or athletic club was not brought about by or understanding, whereby his becoming or continuing a member of such club would be of any pecuniary benefit to him whatever, direct or indirect, and who has never been employed in any occupation involving any use of the oar or paddle." Mr. R. R. Wood writes to the press suggesting that "this definition be adopted for all rowing clubs, whether belonging to the Association or not."

CHEESE NOTES.

75 per cent. is now an established price for Ordinary Fine Cheese, where such can be found. The week-long advance has been sold at about this figure, and the market is now almost entirely cleared of stock. The probability of our countrymen, that the high prices cannot be of very long duration. Owing to the scarcity of old cheese, there is little doubt that the early imports of new will find a ready sale. —*Holmes Bros. Liverpool Circular, April 24th.*

Commercial.

DETROIT THROAT & LUNG INSTITUTE.

THE undersigned begs to announce to his old customers that he has removed to the store lately occupied by W. Y. Mykle, where he is prepared to offer

Pure White and Choice Tints.

It saves the Loss of Time and Waste of Material common with the old mode of mixing to produce desirable tints. A jar of this Kalamine can be mixed in five minutes.

For sale by JAMES CLARKE & Co.

REMOVAL.

THE undersigned begs to announce to his old customers that he has removed to the store lately occupied by W. Y. Mykle, where he is prepared to offer

GROCERIES AND LIQUORS.

At the lowest cash prices.

STUART HOOBY.

Belleville, April 6, 1880.

No More Hard Times.

PRIVATE Money to loan at 8 1/2 per cent.

Company money to loan at 8 per cent.

Installment Loans at 5 1/2 per cent.

For any sum, and from 3 years up to 20; as per example—\$100 for 10 years, payable yearly, pays off a loan of \$1,000, principal and interest.

On really "gilt-edged" loans, money some, times secured at 7 per cent, and 7 1/2 per cent, payable yearly.

E. B. FRALOCK.

1755 No. 17, Campbell Street, Belleville.

Hastings Loan and Investment Society.

BELLEVILLE, ONT.

CAPITAL, \$250,000.

MONEY TO LOAN ON Farm or City Property, at rates as low as any other Company in Ontario, and for periods of from 2 to 20 years, either on STRAIGHT LOAN or on the INSTALLMENT SYSTEM.

Payments can be made to full due at any season of the year to suit borrowers. No delay in obtaining the money beyond the time necessarily employed in the investigation of titles.

SPECIAL FACILITIES OFFERED to the farming community.

MORTGAGES PURCHASED.

Savings Bank Department.

No six per cent interest allowed on Deposits. No notice required. Interest paid from date of Deposit to date of withdrawal.

Office—Front Street, between City Hall and Bridge Street.

J. P. C. PHILLIPS, Secretary.

JOHNSTON'S DRY SIZED KALSMINE.

CONFLICT AND VICTORY.

Oh! Refuge of men and women, With suffering and sin oft distressed, Ourselves to make our own, and our own to make of others, Thy peace as a dying request?

To thee we come the cry of sharp sorrow That rings through this pitiless world, And thou that knowest of the heart may be iron, To a deeper despair we are hurled.

For the dawn brings no light that can lead us, Nor does the night bring a gloom that can cheer, And the winter's gloom rings through the year.

We've felt strange kind our kindred and neighbors, Been lonely in thick haunts of men, Had to rest on a stone from our labors, And no vision to comfort us then.

We've been lured by the voice of the siren, And caught in her cruel embrace, And found that the heart may be iron, Thy beauty may shine in the face.

We are weary with burdening the shadows, And bearing our burdens of care, And we have no rest in the meadows, And no peace in the city's glare.

Yet, Saviour, on Thee in our anguish We'll pour our sore-stricken cry, For in sorrow of soul Thou dost vanquish The foes that fill life with such drear.

We have lived for ourselves' such of others, And sought to make our own our way, Held no cup to the lips of our brothers, Or with all gotten mingled our wine.

We bless Thee who can't dream in glory To suffer, to succor, to save, For who would give his life for his life's story And triumph o'er death and the grave.

We'll rest with the world then no longer; We'll bring to us nothing but bliss, We're lost in our heart only stronger, And rayless, and dark, and dim, and dim.

—Good Words.

AN OLD BOAT.

I passed a boat to-day on the shore, And will be launched on the sea no more.

Worn and battered—the straight keel bent, Her like a ruined rampart, rent;

Left alone, with no covering, For who could stave a useless thing?

It was shapely once, when the shipwright's hand Had laid it on its keel as the master planned;

And it danced for joy on the curling wave, When first the sea's broad breast it gave;

And it felt the pulse of the well-timed stroke, That rang on the thole-pin of tuncful oar.

And often, in summer days, it knew The laugh of a pleasure-seeking crew;

Or launched by night on the blinding waves, It has rescued a life from the sea's dark graves.

It is useless now, as it lies on the beach, Drawn high beyond the billows' reach;

And none of all it has served in stress Remember it now, in its loneliness.

Sunday Reading.

The Sermon.

Everything in the church should favor deep thought, devout feeling, Godward aspiration. The pulpit should never assume, and hardly stop to entertain, as for an ignorant mind, the utterance of a soul that is not a genuine one, and a hard argument.

It is useless now, as it lies on the beach, Drawn high beyond the billows' reach;

And none of all it has served in stress Remember it now, in its loneliness.

Head Wise Counsels.

It is all very well for the child of God to have an abiding trust in his Father's unfailing readiness to guide him aright; but it is equally important that he should have an unfailing readiness to be guided aright.

God proffers to his children a supply of wisdom and grace according to their need; but he gives to them the privilege of accepting or rejecting that supply, and they must take the consequences of their choice accordingly.

It is not for nothing that the Father's will is revealed in his Word, and that the Father's Word is the Father's will; and that the Father's will is the Father's Word.

It is not for nothing that the Father's will is revealed in his Word, and that the Father's Word is the Father's will; and that the Father's will is the Father's Word.

It is not for nothing that the Father's will is revealed in his Word, and that the Father's Word is the Father's will; and that the Father's will is the Father's Word.

It is not for nothing that the Father's will is revealed in his Word, and that the Father's Word is the Father's will; and that the Father's will is the Father's Word.

It is not for nothing that the Father's will is revealed in his Word, and that the Father's Word is the Father's will; and that the Father's will is the Father's Word.

It is not for nothing that the Father's will is revealed in his Word, and that the Father's Word is the Father's will; and that the Father's will is the Father's Word.

It is not for nothing that the Father's will is revealed in his Word, and that the Father's Word is the Father's will; and that the Father's will is the Father's Word.

It is not for nothing that the Father's will is revealed in his Word, and that the Father's Word is the Father's will; and that the Father's will is the Father's Word.

It is not for nothing that the Father's will is revealed in his Word, and that the Father's Word is the Father's will; and that the Father's will is the Father's Word.

It is not for nothing that the Father's will is revealed in his Word, and that the Father's Word is the Father's will; and that the Father's will is the Father's Word.

It is not for nothing that the Father's will is revealed in his Word, and that the Father's Word is the Father's will; and that the Father's will is the Father's Word.

It is not for nothing that the Father's will is revealed in his Word, and that the Father's Word is the Father's will; and that the Father's will is the Father's Word.

It is not for nothing that the Father's will is revealed in his Word, and that the Father's Word is the Father's will; and that the Father's will is the Father's Word.

It is not for nothing that the Father's will is revealed in his Word, and that the Father's Word is the Father's will; and that the Father's will is the Father's Word.

It is not for nothing that the Father's will is revealed in his Word, and that the Father's Word is the Father's will; and that the Father's will is the Father's Word.

It is not for nothing that the Father's will is revealed in his Word, and that the Father's Word is the Father's will; and that the Father's will is the Father's Word.

It is not for nothing that the Father's will is revealed in his Word, and that the Father's Word is the Father's will; and that the Father's will is the Father's Word.

It is not for nothing that the Father's will is revealed in his Word, and that the Father's Word is the Father's will; and that the Father's will is the Father's Word.

It is not for nothing that the Father's will is revealed in his Word, and that the Father's Word is the Father's will; and that the Father's will is the Father's Word.

It is not for nothing that the Father's will is revealed in his Word, and that the Father's Word is the Father's will; and that the Father's will is the Father's Word.

It is not for nothing that the Father's will is revealed in his Word, and that the Father's Word is the Father's will; and that the Father's will is the Father's Word.

It is not for nothing that the Father's will is revealed in his Word, and that the Father's Word is the Father's will; and that the Father's will is the Father's Word.

It is not for nothing that the Father's will is revealed in his Word, and that the Father's Word is the Father's will; and that the Father's will is the Father's Word.

It is not for nothing that the Father's will is revealed in his Word, and that the Father's Word is the Father's will; and that the Father's will is the Father's Word.

It is not for nothing that the Father's will is revealed in his Word, and that the Father's Word is the Father's will; and that the Father's will is the Father's Word.

It is not for nothing that the Father's will is revealed in his Word, and that the Father's Word is the Father's will; and that the Father's will is the Father's Word.

It is not for nothing that the Father's will is revealed in his Word, and that the Father's Word is the Father's will; and that the Father's will is the Father's Word.

Chat by the Way.

There is a true—nothing can be a lie, And, which needs it most, grows true there by.

Beauty is like an almanac: if it lasts a year it is well. But very much of the beauty of a thing is in the eye of the beholder, and the beholder's eye is in the eye of the beholder.

There is a true—nothing can be a lie, And, which needs it most, grows true there by.

Beauty is like an almanac: if it lasts a year it is well. But very much of the beauty of a thing is in the eye of the beholder, and the beholder's eye is in the eye of the beholder.

Daily Intelligencer.

Copies of the Evening INTELLIGENCER can be procured at the stores of Messrs. A. Robinson, J. O. Overall and M. O. Dempsey.

Weekly Intelligencer.

Copies of the WEEKLY INTELLIGENCER in wrappers ready for mailing can be had at the business office, corner of Front and Market Streets, every Thursday. Price 5 cents.

Our New Office.

To afford accommodation for the rapidly increasing business of the INTELLIGENCER, the business office has been removed from the front part of the building (ground floor) to that portion formerly occupied by Mr. John Easler, which has been fitted up with all the modern improvements. Entrance from Front Street.

The Daily Intelligencer.

TRAIN SERVICE.

Subscribers in the villages along the line of Railway will hereafter receive their Daily papers at the following places, instead of at the Post Office:
Barrie.—At the drug store of Dr. G. H. Boulter, M. P. P.
CANBERRA.—At the office of Mr. Thomas Oliver, who will also act as our agent for the Weekly Intelligencer.
HALLOWELL.—Of Mr. David Morrison, at the Post Office.
MADOC.—At the store of Mr. C. G. Williams.

Extra copies of each day's issue can be obtained at the above places.

J. H. HATES, NEWSPAPER ADVERTISING AGENT, 41 PARK ROW, (Times Building), New York.
 I am authorized to contract for advertisements in the DAILY and WEEKLY INTELLIGENCER at our best rates.

THE SUGAR TRADE.
 The Mail says: "The change wrought by the new tariff in our sugar importations is clearly seen by the light of a return submitted to Parliament the other day. During the six months ending the 31st December, 1878, 68,328,000 pounds were imported, of which 18,444,000 pounds came from Great Britain, 23,836,000 from the United States, 5,018,000 from the West Indies, and the rest from other points. In the corresponding period last year, 68,348,000 pounds were imported, of which 8,046,000 came from Great Britain, 2,293,000 from the United States, 4,275,000 from the West Indies, 8,320,000 from the Dutch East Indies, Brazil, and the Spanish possessions in the Pacific, and the rest from other points. Our West India trade is reviving."

Political Notes.

THE GLOBE AND THE N. P.
 The *Globe* is an interesting study these days. Says the *St. John (N. B.) Star*: "It has lately come out in a greatly enlarged and improved form, bearing the most undoubted evidence of the fact that the National Policy has, at least, not injured it. In the issue of the 17th inst., we find a notice of the Massey Manufacturing Co., which is doing a small business in a country village until after the advent of the N. P. Then the Company (in 1879) decided to enlarge its operations and remove to Toronto. The site of the new works comprises 'six acres,' 150 to 300 men are employed and the monthly pay sheet foots up \$8,000, the tradesmen employed being woodworkers, machinists, blacksmiths, millwrights and painters. Mowers, reapers and horse racks are made, and the *Globe* tells us that 'if this year's production were arranged in a straight line, the two ends of the line would be fifteen miles apart.' So much for that. In the other columns there is a notice of the 'Globe Lightning Rod Company,' of London, Ont., 'whose business has been steadily on the increase.' 'The Company's stock is more than double what it was this time last year, and the staff of travelling agents has been accordingly increased, this step being rendered imperative by the receipts of heavy orders from distant parts of the Dominion.' On another page of the same issue, we find it stated that 'every Canadian will be glad to learn that our salt makers are pushing to the front, notwithstanding the discouragements afforded to them by the Tilley Tariff,' etc., and that 'in the end salt makers will be all the better off for having been compelled to place reliance upon the superiority of their product instead of being induced to put faith in a transitory Tariff.' When we recall the vehemence with which the Grit press has been preaching the utter destruction of the 'Salt makers' industry, we can afford to smile at the gentleness with which our Grit friends are letting themselves down. The *Toronto Globe* being the judge, the N. P. is doing its perfect work in Ontario."

HON. GEO. BROWN.

A report which reached here by telegraph at an early hour this morning, stating that Hon. Mr. Brown had died at 4 a. m., caused a good deal of excitement. Later despatches, however, showed that the rumor was untrue, but unfortunately gave no hope of his recovery. The belief received during the day were as follows:
 Toronto, 7:30.—Hon. Mr. Brown is still alive, but there is no hope of his recovery.
 Toronto, 9:30 a. m.—The rumor that Mr. Brown was dead is incorrect. He is still living, but is very low and is sinking fast.
 Toronto, 2:30 p. m.—Mr. Brown is getting weaker, the doctors think he cannot last many hours.

North Hastings.

(From the *Madoc Review*).
 E. D. O'Flynn, Reeve, and Dr. Sutton have been appointed as a Board of Health for Madoc Village. This is a good move. Mr. Thomas Cross has resigned his position as Medical Commissioner for North Hastings.
 SONNAMBULISM.—Last night a gentleman named Robinson, from Belleville, while walking in his sleep, at Simmons' hotel, climbed out through a window in the rear of the third story and fell a distance of fifteen feet, landing on the roof of the kitchen. He was taken up insensible but was found to not be seriously injured.
 KICKED BY A HORSE.—On Friday last a young man named Edward McIlroy, son of Patrick McIlroy, Esq., of Elzevir, while unhooking his team was kicked in the abdomen by one of the horses, sustaining very severe though not fatal injuries. Dr. Daffoe, of this village, was immediately telegraphed for, and the patient has since been steadily recovering.

STILLING.
 The following is a list of the parties in the License District of North Hastings, to whom Tavern and Shop Licenses have been granted for the ensuing year:

MORNING DESPATCHES.
EUROPEAN.
 LONDON, May 8.—The *Times* reports the rumor that the cabinet is contemplating the issuance of a circular to the European powers inviting their co-operation in securing the neutral status of the North Atlantic.

AMERICAN.
 PORT WORTH, Tex., May 8.—Jeham Kapp, colored, was hanged yesterday for rape upon a white lady. On the scaffold he confessed his crime and said: "I was a soldier in the Union army for ten years, but bless God I am now a soldier of the cross! I am perfectly satisfied and willing to die, farewell all!"
 CHUCKEY, Texas, May 8.—The jail was set on fire from within by prisoners last evening John Walker, who was in the cell where the fire was set, was found dead.

These roads are operated by the Grand Trunk Railway Company.

Local Notices.

Notice under this head does not incur a fee.

After six months a fee of one cent.

Call at C. McDonald's, 276 Front Street, for Bell Canada cigars at 5c, or the stock of 1879 for 10c.

I have just received a stock of beautiful

transparencies suitable for putting on

Silk, Linen, etc. Call and examine them.

Albert L. Green.

FLOWER AND GARDEN SEED.—A fresh supply

of Perry & Co., Flower and Garden Seed

just received.—Albert L. Green.

Call at C. McDonald's, 276 Front Street, for

Bell Canada cigars at 5c, or the stock of

1879 for 10c.

Daily Intelligencer.

BELLEVILLE, MONDAY, MAY 10.

City and Vicinity.

FIREMEN'S PARADE.—The firemen will

make their usual parade on the anniversary

of Her Majesty's birthday.

THUNDER STORM.—A heavy thunder

storm passed to the southward of the city

this morning. Only a slight sprinkling of

rain fell at that time.

THE BABY OPERA COMPANY.—There

was a fair attendance at the Saturday

afternoon matinee, but the evening performance

was but poorly patronized.

RIFLE ASSOCIATION.—The annual meeting

of the Hastings Rifle Association will

be held at Hamby's to-morrow night, for

the election of officers and transaction of

other business.

SHIPMENT OF EGGS.—The first shipment

of eggs by steamer for this season took

place to-day. It consisted of ten cases for

Boston, via Ogdensburg, and was forwarded

by the steamer *Alexandra*.

APPOINTMENT.—The following appeared

in the *Canada Gazette* of Saturday: 49th

"Hastings" Battalion of Rifles.—To be

Quartermaster, William L. Hamilton, vice

Alexander Webster, deceased.

POLICE.—Several arrests were made by

the police between Saturday afternoon and

this morning. The report for last night

included mention of the fact that one gas

lamp had been left unlighted and that the

door of a store on Front Street was found

unlocked.

THE DESTRUCTIVE N. P.—Mill Point and

St. Thomas are, like Hamilton, Nanawau,

and other places, being destroyed by the

N. P. The population of Mill Point in-

creased by 100 during the past year, and

that of St. Thomas by 846. May there be

plenty more of such destruction.

THE BURNING ACCIDENT AT EUPHEMIA.—

The young girl Rebecca Wade who was

burned to death along with two children

in a house in the Township of Euphemia,

particulars of which were published in

Friday's issue, was the grand-niece of Mr.

Jonathan Stead, of this city.

SALE OF BOATS.—Tisdale Brothers on

Saturday disposed of a pleasure boat to

Mr. A. Matheson, Superintendent of the

Deaf and Dumb Institute, and also sold a

single small shell to Mr. Sutherland, of the

Stirling High School. The last named

will take part in the regatta at Iyrl Wild

on the 24th ult.

CITY HALL.—The improvements which

are now being made at the City Hall

include the cutting of doors from the

Council Chamber and from the Clerk's

office respectively into the room in the

tower formerly occupied by the License

Inspector. The floor of this apartment

has been raised to a level with the rest

of the building, and it will hereafter be used

as a private office by the City Clerk and

the Mayor.

CHURCH GROUND.—The members of the

Belleville Cricket Club have resolved to sit

up their grounds in first class style and will

thus be in possession of one of the finest

grounds in Canada. As the Lacrosse and

Athletic Clubs desire to use these

grounds, of which the Cricket Club have

obtained the entire control, it would be

well for all to unite and share the expenses

which will be incurred in fencing and other

wise.

GONE TO THE EAST.—Mr. William

McCall, one of the oldest members of the

Belleville Rifle Company, (now No. 1 Co.,

of the 49th Battalion Hastings Rifles) died

on Sunday morning. Mr. McCall was

one of the original members of this com-

pany when organized under the late

Major LeVesconte, and was on active

service with it at Amherstburg and Ault-

ville, where he lost his last filled being

that of Quartermaster Sergeant. He was

also an active member of the St. Andrew's

Society, in which he long filled the position

of Bard. A few years ago he was injured

at a fire which destroyed part of his prop-

erty and subsequently was stricken with

paralysis and so crippled as to be incapaci-

tated for work. He died as above stated

lamented by a wide circle of acquaintances.

The funeral was to take place this after-

noon with military honors.

ARRIVED OUT.—The Allan steamship

Peruvian arrived out on Sunday.

MARKET TOLLS.—The market tolls, other

than those arising from the rents for

butcher's stalls, are to be rented on Thursday,

20th inst. For particulars see the advertise-

ment.

APPOINTMENT.—The Ontario Gazette

of the 8th contains the following appoint-

ment: Edwin James, of Bridgewater, P. O.,

Esquire, to be clerk of the Eleventh Divi-

sion Court of the county of Hastings, in

the room and stead of James McE., Esquire,

deceased.

LARGE MONUMENT.—A limestone

monument, the work of Mr. Jacob Nicholson,

stone cutter, was lately to be seen at

his yard, West Belleville. The monument

is a large one and of the Scotch cottage

design, and it is to be erected to the memory

of his daughter, Miss Margaret Nicholson.

ARRIVED.—The steamship *Polycarpus*, from

Liverpool April 15th, arrived at Quebec

on Saturday evening, with 92 cabin, 47

intermediate, and 781 steerage. An address

was presented to the Captain, testifying to

the care and attention displayed by the

officers of the ship during their long and

perilous voyage.

VISIT OF MINISTERS.—The Peterborough

Review announces that Sir Charles Tupper,

Minister of Railways and Canals, proposes

to make a tour of the proposed line of the

Trent Valley Canal during the first week

of June, and that he will probably be ac-

companied by other Ministers. It is there-

fore likely that Sir Charles will also during

the same visit, look over the route for the

Murray Canal.

SERIOUSLY ILL.—A correspondent from

Trenton writes as follows:—T. D. Dean,

author, etc., is seriously ill at this place.

It has been apparent to his friends for

some time past that Mr. Dean's health was

gradually giving way to a small tumor on

his left eye, and while here he had it oper-

ated on by Dr. McCallan. Shortly after

the operation a low fever set in and at

present he is in a dangerous state. His

speaks well of his medical attendance and

is well looked after at the Commercial

Hotel.

SABBATH SCHOOL CENTENARY.—The

Stirling News-Appeal of the 7th inst. says:

"The Sabbath school Association of Canada

has appointed Rev. J. W. Savage as a dele-

gate from the county of Hastings, to pre-

cede to London (Eng.) to be present at the

international convention, held June 26th

to July 3rd inclusive, to celebrate the

centenary of the establishment of Sunday-

Schools in England by Robert Raikes. He

leaves Stirling on Tuesday, the 15th of June,

and sails from Quebec on the Saturday

following. Meantime he is desirous of

receiving from all Sunday-schools in the

county any information concerning growth,

present state, etc., which superintendents

and secretaries may be able to supply. By

observing this, and forwarding such infor-

mation to his address, Stirling, those

officers will be helping forward in the good

work. The official board of the Stirling

C. M. church on Monday last granted him

a three months' leave of absence."

Police Court.

(Before A. Diamond, P. M.)

MONDAY, MAY 10.

THE FISHING LAW.

E. F. Potts, charged with having trout

in his possession out of season, was acquit-

ted.

DUNKIN.

Charles Haigh was fined \$1 and costs and

Lewis Smith was allowed to go.

LARCENY.

A boy named Alexander Hart, charged

with stealing \$300 from Mrs. Youker, Thur-

low, was allowed to go on account of his

youth.

MARINE NOTES.

There was a lively breeze on the bay yester-

day and a number of vessels took advantage

Management of Cream.

Under the head of "Dairy Management"

the London Agricultural Gazette, places

some extracts from D. H. Milward's report

to the Royal Agricultural Society of Ireland.

Among them is the following: "I think it

much consequence to the making of good

cream butter that the milk should not be

allowed to turn sour before skimming; and

when it is not used we must be guided by

the temperature of the air as to the time

it should be left; but, even where possible

to do so, I do not advise that milk should

be left longer than thirty-six hours before

creaming, as by that time the greater part

of the cream, if not the whole, will have

thickened, if not become rancid in a very

slight degree, as none but the very poorest

globules will have been added to what has

been up, and by continued exposure very

important chemical changes will have occur-

red, which it is inadvisable should not be

followed till a future date. A very

considerable demand for sweet cream butter

has been developed, and this nearly all

from cream of the very best quality, and

churned as soon as possible after it is

made. The quantity produced

is small, the price must be high, and the

farmer, as well as the consumer, must pay

therefore it is not likely to be required ex-

cept in small quantities. Sour cream butter

is an article of produce which Irish farm-

ers are more interested, as they nearly all

make butter of that class. I think that

depends on the mode adopted in the

souring of cream, as what the results

shall be in the quality of the butter, I

cannot say. It is a stage in

the process of very vital consequences, and

one which the unit of quality very

much depends. I cannot do better

than to refer to the souring system described

in the article on Denmark, as giving full

instructions as to what I should recommend.

Where possible it will always be

more satisfactory, and productive of better

butter to churn the cream every day when

it has arrived at its proper stage of fermen-

tation or souring, rather than to leave it

to be done at long intervals, when the dif-

ferent lots of cream put into a churning

will be varying degrees of sourness. This can

not be done in small quantities, as it is very

important advantage that arises from the

use of large ones. When it is possible to

churn every day, much care will be required,

as in doing so, to keep back the

cream of the first lots of cream, and get the

Aquatics.

COURTESY GOES TO WASHINGTON.

Daily Intelligencer.

BELLVILLE, TUESDAY, MAY 11.

City and Vicinity

POLICE COURT.—No business in Court this morning.

NEW MILL.—Work has been commenced on Mr. Lee's new grist mill.

BOARD OF EDUCATION.—The Board will hold a regular meeting to-night.

ST. ANDREW'S SOCIETY.—A quarterly meeting of the above Society will be held in their Hall to-morrow night.

MEETING.—Members of the Hastings Rifle Association are reminded of the annual meeting to-night at Hambley's.

IN ENGLAND.—Amongst the Canadian visitors reported at the London office we notice the names of Dr. W. J. Palmer and Mr. C. G. Kelso of Belleville.

POLICE NOTE.—The police report two gas lamps unlighted at 10:30 last night. Only one tramp and no prisoners quartered in the cells.

BALED STRAW.—Mr. N. McCammon shipped two cars of baled straw for Boston last week, and will forward one car to the same destination this week.

LAW EXAMINATIONS.—Four law students from offices in this city will go to Toronto to take part in the coming examinations, which will be held at Osgoode Hall on Thursday.

SALMON.—A genuine salmon, which was caught by a fisherman in Lake Ontario at Wellington was sold here a few days ago. Its flesh was nearly as red as that of the sea salmon.

TO BE EXAMINED.—The County Gravel Roads Committee met this morning, and at the request of Mr. Pearce, Reeve of Mar-Mara, decided to examine the County Road which extends from Madoc to Mar-Mara. This road certainly needs attention.

THE RIFLE.—At the rifle competition at Picton on Saturday for a gold medal, presented by Mr. W. H. Orchard, Master W. A. Bag, a lad under seventeen years of age, proved the winner, making 83 points out of a possible 100; ranges 200, 300, 500 and 600 yards; five shots at each range.

RAY OF QUINTE CONFERENCE.—The Bay of Quinte Annual Conference of the Methodist Episcopal Church will assemble at Kingston on the 13th inst. The attendance of Ministers will number about eighty and Bishop Carman will preside. Deputations for the Ontario and Niagara Conferences will be present.

REPEATING THE DAMAGES.—For several days past a number of the workmen in Brown's foundry have been engaged, day and night, in the work of preparing a new cylinder for one of the engines in Rath-burn's saw mill at Mill Point. The cylinder is one of the best castings ever turned out anywhere, there not being viable even the smallest hole in either its interior or its exterior surface.

FUNERAL.—The remains of the late Wm. McAfee were conveyed to the grave yesterday afternoon, followed by Sergt. Major Blain and a firing party of the 49th Battalion, a large number of members of the St. Andrew's Society, and a numerous concourse of citizens, including many of his former fellow employees in Brown's foundry. The steamer Prince Edward carried the funeral party to the cemetery.

CANADIAN PORTRAIT GALLERY.—We have received the first number of the "Canadian Portrait Gallery," which is now being published in Toronto by John B. Magura. The portraits, of which there will be 100 are very fine specimens of Canadian art, and the letter-press is the handsomest specimen of typography we have seen from a Canadian press. The editor enjoys the fullest confidence of the leading men of all shades of opinion, and his staff comprises the oldest and best writers in this country. The sketches upon this account be more trustworthy than any that have yet appeared, and the public have a guarantee that they will be written with justice, and in the cause of public men, with entire freedom from political bias. We commend it to the hearty support of the people of this city.

FOURTEEN DAYS DESTROYED BY ICE.—The Montreal Witness of the 10th says:—"The long ice-bound entrants of the Polynesian arrived at the Tennessee Junction last night at 11 o'clock. The voyage occupied twenty-four days in consequence of the ice met with on this side of the Atlantic, some of the shoals being thirty feet thick. It was found impossible to get through the ice in the Gulf and after standing out several days the vessel, as reported, by telegram, put into Sydney to obtain provisions. Then several attempts were made to penetrate the ice, which resulted after two days in getting the ship wedged between the ice for several hours, one of her fore compartments being considerably damaged, necessitating outside planking, as calculated a hundred miles from Quebec was reached at last and the passengers, nine hundred and twenty in number, safely landed. Ninety-two of these were cabin passengers, forty-seven intermediates and seven hundred and eighty-one steerage." Mr. Thomas Watkins, of this city, chose buyer, was one of the passengers by this steamer, and reached home on Sunday morning.

Picturesque Canada.

The Art Publishing Company, of Toronto, have in contemplation the publication of a series of pictures, which, judging from the prospectus, will be the most interesting, attractive, and indisputably elegant work ever produced. It is the first of its class which has ever been attempted in the Dominion; a work which will be the fullest exposition of our country as it was and as it is—yet made, and a tribute to native art and native genius worthy of Canada, and of her people. It will be a pictorial descriptive and historical delineation, from pen and pencil, by the best writers and artists, of the Lakes, Rivers and Waterfalls, Mountains, Valleys and Plains, of this "Land of Forest and Stream," together with the Cities and Hamlets and other picturesque and historical features of the land we live in, embracing the most attractive scenes of points centering around the struggles of the early Indian, French and American wars, and such natural scenery as will best portray the character of the country—these embracing views from such localities as the Great Lakes, the Maritime Provinces and the Eastern Townships; the Saguenay, St. Lawrence, and Ottawa districts; Muskoka and the regions of the Great Lakes; the Prairie Provinces, the Great North-West, and the Pacific slope.

The Art Department of the work is under the special supervision of Mr. L. R. O'Brien, President of the Canadian Academy of Art, which fact is a sufficient guarantee of its ability and faithful execution, while the artists employed upon it embrace the highest ornament of the profession in Canada, and include such well-known names as Fraser, Sandham, Harris, Raphael, Crosswell, Miles, Fowler, Harris, etc. The engravers employed are the best to be procured in England or America, and as they will do their work here, it will be the means of introducing artistic workmen into Canada, and pave the way for the establishment of high-class engraving as a permanent profession. The literary portion of the work has been assigned to the best Canadian historical and descriptive writers, who accompany the artists.

The work itself will be published in parts, each part containing from twenty-four to thirty-two pages, of which about one-third will be engravings of the finest character, varying in size from full-page views to smaller plates liberally interspersed through the text, and every illustration, including letter-press, will be executed in the most elegant and artistic style, the greatest care being exercised to secure a thoroughly beautiful and complete work. Printed under the immediate direction of the publishers, at Toronto, on a pre-manufactured and imported specially for this work, the illustrations will be of the letter-press, will be wholly Canadian, and may well be offered as a beautiful specimen of Canadian art and workmanship.

The illustrations will be original, the drawings for the same being made expressly for this work, every department of which has been brought forth at a great expenditure of time, talent and capital, the actual cash outlay on the first edition being carefully computed at over \$10,000; the paramount object of the publishers being to carry out the most important project in such manner as will secure the hearty response of all Canadians to an enterprise national in its character, which will give to the world the best and very true delineation of our magnificent and varied scenery, together with pictorial renderings of the many phases of the everyday life of our people.

Following are extracts from some notices of the press of the forthcoming work:

"We have been afforded much pleasure by the inspection of the drawings now on exhibition at the show-rooms of Messrs. Notman & Fraser, which have been prepared by some of our best Canadian artists (with L. R. O'Brien, President of the Canadian Academy of Art, at their head), to illustrate the initial numbers of the new art series, 'Picturesque Canada.' These drawings (thirty or forty in number) are some of the best offerings of gentlemen well known to the public, and to the artists' profession. They are all very fine, some of them exceptionally so, and represent scenes which depict the true character of this 'Land of Forest and Stream,' as Canada has been aptly styled. It is understood that a number of them have been specially recommended by His Excellency and Her Royal Highness the Princess Louise, under whose special patronage the establishment of the Canadian Academy of Art, was instituted, in which this new enterprise may be looked upon as having originated; the artists engaged thereon being all prominently connected with the Academy. It is encouraging to see reflected in this exhibition a spirit of art and enterprise combined, which we feel sure will do much to cultivate a taste for the beautiful among our people, and pave the way for the artist's profession in Canada as one of the foremost and pre-eminent."

"The Daily Globe, April 24, 1880."

As an exhibition, this offering of Canadian artists is extremely interesting, and comprises some really first-class efforts from such well-known masters of the pencil as L. R. O'Brien, J. A. Fraser, E. Harris, H. Sandham, W. Raphael, W. N. Crosswell, H. Perre, A. Crosswell, C. Miles, etc. There are, in all, thirty-five or forty drawings, among which are noticeable such historical scenes as "Quebec," "Fort Chambly," "Old Block House on Block Street, Toronto," etc.; the latter a most interesting historical landmark, lately removed from near the spot where the late residence of Vice-Chancellor Blake now stands. There are some spirited fishing and hunting scenes, from the Bay Chaleurs and Muskoka; beautiful pastoral scenes, from the valley of the Grand River; grand "chase" scenes, from the Saguenay and the Great Manan, including the celebrated picture, "Northern Head," the original of which is in the possession of the Hon. Geo. Brown; and scenes of every day life from the neighborhood of Chateau Richer and Lake Memphrango.

The grandeur and attractiveness of our Canadian scenery have long since become proverbial, and an inspection of these drawings will convince the most sceptical of those who have heretofore complained of the scarcity of first-class Canadian works of art that we have in our midst men who can put into words and into pictures the things that what they are now aiming at, true and characteristic delineations of our country.—Daily Mail, April 26, 1880.

The following letters respecting the work are from some of the distinguished men of Canada:

Government House, Ottawa, April 30, 1880.

Sir,—I have much pleasure in informing you that His Excellency will take a copy of the 'Picturesque Canada' for the collection of the Art Publishing Company.

I am, Sir, your obedient servant, J. F. W. Dawson, Major Genl. Secy.

To Messrs. Notman & Fraser, Russell House.

Ottawa, April 10th, 1880.

Having had special opportunities of becoming acquainted with the plan of the proposed 'Picturesque Canada,' I am pleased to express my hearty approval of the project, and of the principal men to whom it is proposed to be entrusted. You will have time, much sickness and great expense if you will use one bottle of Hop Bitters. You will find it in this month. Don't wait. See another column.

The well-known reputation of the Artists engaged to furnish the designs, and the high standing in Canadian literary circles of the gentlemen who have been invited to describe the scenery, and to narrate the events of our past history, introductory to this endeavor to depict the glories of the Dominion in its physical aspects, afford an ample guarantee of the promise of the Prospectus will be fulfilled.

It is, moreover, a matter of congratulation, that at a time when Canada is striving to develop her vast internal resources, and to stimulate her manufacturing industry, a corresponding effort should be made to foster and elevate artistic talent. Heretofore there has been no attempt amongst us to unite the genius of the artist, the skill of the engraver, and the talent of the writer in union with the energy and activity of a reputable and successful Publishing Company, in the production of a work which is destined to the public, will necessarily reflect credit upon all concerned therein.

It is my hope that the appeal of the Publishers to the Canadian public for encouragement in their great undertaking will be cordially responded to, as it is only by such a response that such a laudable and successful project can be carried out in accordance with the plan and intentions of its projectors.

Librarian of Parliament, Canada.

Ottawa, April 19, 1880.

L. R. O'BRIEN, Esq.

27 Grenville, Toronto.

My dear Mr. O'Brien, I beg to acknowledge receipt of your favor of the 11th inst., introducing Mr. Beldun upon your recommendation. I was most happy to receive the proposed book of illustrations of Canada. I am convinced that this work cannot fail to prove a valuable addition to the literature of the Dominion, and I wish it all the success it is worthy of.

Very truly yours, G. BART, Minister of Inland Revenue.

Ottawa, April 26, 1880.

To Messrs. Art Publishing Co.

"Picturesque Canada" is an undertaking deserving the most hearty support of the Canadian public. The project is a noble one, and the material for the pencil of the artist, and there are many points of historic interest which the pen of the artist should not permit me to mention. The names associated with this work are a guarantee of its merit, and I only trust that their efforts to cultivate artistic talent, spread abroad the natural beauty of Canada, will receive the support of an appreciative public, and yield the reward to which such enterprise is entitled. Yours very truly, W. Ross, Inspector Public Schools.

ALBERT COLLEGE AND UNIVERSITY, Belleville, Ont., May 10, 1880.

To the Managers of the Art Pub. Co.

GENTLEMEN,—I have a very high estimate of the splendid plan of "Picturesque Canada." I could earnestly wish it were on the shelves of every Canadian family. The work will be an honor to our country and ought to be universally encouraged.

J. R. JACQUES.

Ottawa, April 23, 1880.

To the Art Publishing Co.

GENTLEMEN,—In regard to the proposed "Picturesque Canada," being personally acquainted with the members of your firm and also with some of the artists who are contributing to the work, I feel quite sanguine of the ultimate success of the enterprise, and I am sure that the work will be carried out in such a manner as will reflect great credit upon the publisher and artist, and yield the reward to which such enterprise is entitled. Please enter my name upon your subscription list. Yours truly, JAMES TAYLOR, Ontario Bank, Toronto, 34 May 1880.

To the Managers Art Pub. Co.

GENTLEMEN,—Having become acquainted with the plan of the new work "Picturesque Canada" now in contemplation by you, I am much pleased to see some of the kind projected, and as the desirability of such a work has long been widely admitted. It is a further pleasure to know that the enterprise is being undertaken by you, as an intimate knowledge of your experience, facilities, and energy, leads me to believe that such a work satisfies me that it will fully carry out the journal intended by your prospectus, and will be a noble, elegant and complete Canadian work of art.

Yours truly, A. FISHER, An agent of the Art Publishing Company.

An agent of the Art Publishing Company will canvass the city of Belleville at once for subscribers, and also the towns and villages in the County. Before the publishers commit themselves completely to the publication of the work they must see their way clear, therefore the success of the enterprise depends wholly upon the encouragement received from the public. If the present number of subscribers is not sufficient to carry through the project the first number will be issued in one year, and it is not the result the enterprise will be abandoned. We do not think that there will be any difficulty in securing the required patronage for the work in an intellectual country like Canada, but to insure its success all our citizens should find a place in every household.

Treating the wrong Disease.

Many times women call upon their family physician, one with dyspepsia, one with palpitation, one with trouble of the stomach, another with a pain here and there, and in this way they all present alike to themselves the same favorite prescription, "Dr. Williams' Pink Pills for Pale People," which is a separate and distinct disease, for which he prescribes his pills and potions, assuming them to be such, when in reality they are all symptoms caused by some internal disorder, and while they are thus only able perhaps to palliate for a time, they are ignorant of the cause and encourage their practice until their bills are made, when the suffering patients are no better in the end, but probably worse, and which a proper medicine directed to the cause would have entirely removed, thereby insuring health and comfort instead of prolonged illness.

SIADIA, Athens Co., Ohio.

Dr. R. V. Pierce, Buffalo, N. Y.

Your favorite prescription, "Dr. Williams' Pink Pills for Pale People," which I have been using for over two years.

ORINDA E. ST. CLAIR.

YORKVILLE, Ontario, Oct. 18, 1879.

Y. Pierce, M. D.

Dear Sir—I write you of a very remarkable cure of a lady friend of mine, Mrs. R. R. Rathbun, who was afflicted with dyspepsia, and who had tried the most eminent physicians of this city, but to no avail. She told me she would like to undergo your treatment, and I, being afraid of this, was induced by reading your Medicine Advertiser to take your Favorite Pink Pills. She used them for a few bottles, as a result she has entirely recovered her health and is the happy mother of a healthy babe.

Very truly yours, Mrs. J. McLELLY.

Bucklen's Arnica Salve.

The Best Salve in the world for Cuts, Bruises, Scalds, Ulcers, Itch, Tetter, Chapped Hands, Chilblains, Corns, and all kinds of Skin Eruptions. This salve is guaranteed to give relief in all cases of skin disease or money refunded. Price 25c per box. For sale by Jas. Clarke & Co.

Workedmen.

Before you begin your heavy spring work after a winter of relaxation, your system needs cleansing and strengthening to prevent, as at Camp Ague, Bilious or Spring Fever, or some other spring ailment that will unfit you for a season's work. You will save time, much sickness and great expense if you will use one bottle of Hop Bitters. You will find it in this month. Don't wait. See another column.

Special Invitation.

Call at our Drug Store and get a trial bottle of Dr. King's New Discovery, free of charge, if you are suffering with a Cough, Cold, Asthma, Whooping Cough, Hay Fever, Consumption, loss of voice, tickling in the throat, or any affection of the Throat or Lungs. This is the great remedy that is causing so much excitement by its many wonderful cures, curing thousands of hopeless cases. Over one million bottles of Dr. King's New Discovery have been used within the last year, and have given perfect satisfaction in every instance. We can confidently say that this is really the only cure for throat and lung affections, and can cheerfully recommend it to all. Call and get a trial bottle free of charge, or a regular size for \$1.00. For sale by JAMES CLARKE & Co., Belleville.

CAST ON THE WORLD.

OR,
The Border Marriage.
A STORY OF THE GREAT GLASGOW BANK ROBBERY.

CONTINUED.

"I have waited till you were done," she said slowly and sadly, and she looked at him with a sad, steady gaze. "I have waited till you were done," she said slowly and sadly, and she looked at him with a sad, steady gaze. "I have waited till you were done," she said slowly and sadly, and she looked at him with a sad, steady gaze.

His anger came and went, as with majestic mien, and in accents of withering scorn, she gave utterance to these scathing words, and it was plainly with a great effort, and by biting his lip till the blood came, that he kept himself from striking her.

"What course is it possible to follow but one?" she quickly answered. "Let us proclaim the truth that Charles Ravensworth is our son, and restore him openly to his place in our home."

"In facing sacred duty there can be no regard to consequences," she cried. "Whatever these may be, they cannot weigh against a parent's joy any more than a father can weigh against a mountain."

"Indeed!" he turned with a sneer. "So much for clearness of vision in the midst of sentimental heroism. Fortunately, I am able to judge and reflect more coolly, and with your leave I shall state these same consequences which you make so light of."

"Then the only means of avoiding it is to declare our previous private marriage on the border."

"You are right."

"Which marriage, my uncle's death, and a barrier to my life, and my mad passion, which would then have fallen to my cousin Philip. Now, mark the result. The moment it is found that we were married previous to that event, Philip not only loses the estate, but he has it in his power to pursue me for fraud."

"It is a power he will never use," cried her ladyship.

"He will use it. I know Philip Ravensworth better than you do. Philip, now that you have heard the results placed in their order—beggary, disgrace, punishment. What do you think of them? Are they still the feather against the mountain?"

"Yes," she unhesitatingly returned. "I feel you have greatly magnified them; but even were they all that you describe, they are temporal evils, which cannot weigh against the indestructible moral evil at the cost of which you would prevent them."

"And what are they, may I enquire?"

"The reputation of our offspring, dooming him to consider himself and to be considered by others the son of a desperate criminal who died upon the scaffold, depriving him of his rights as the lawful heir to your title, and heaping on your own soul the odium and guilt of the crime the most unnatural and inhuman."

"Pray, madam, who is magnifying now?" he ironically observed. "But enough of all this. It is time this long conversation was terminated. I am resolved, and no power on earth shall move me. If you are incapable of estimating the crisis, and deciding on the course it demands, the greater need that I should be firm and explicit. Once for all, then, it shall be as I say, and let me hear of no opposition from you."

"Lord Eagleheart," burst forth her ladyship passionately. "Do you suppose for a moment that you shall force this either by command or menace? Never! I tell you never! I loved that boy—loved him as I know he was my own, and now that I have learned that I am his mother, shall I keep him from my heart and do him and myself this unutterable wrong? No, my lord, a thousand times no! I shall breathe the sacred secret in his ear. I shall be reconciled in his strong arms of love. I shall lay my head upon his noble breast and hear him call me by the endearing name of mother."

"Charles," she roared, "are you mad that you threaten to brave me thus?"

"No, I am not mad. I would read if I were brave enough to do as you desire, but I spurn the proposal with indignant horror, and to-morrow I shall be married. He strode up to where she stood, and looked at her for some moments with bloodshot eyes and compressed lips.

"This is your resolution," he sternly said. "My fixed, my unalterable resolution."

tion, and she violently shuddered. He read her feelings and her fear, and inwardly triumphed over his victory.

"Charles, this is dreadful," she gasped. "You do not—not mean it?"

"I have sworn it. Now make your choice do you still resolve to reveal yourself to the youth?"

"She was silent, and trembled excessively."

"Charles, Charles," she wildly cried, "let truth and justice and goodness prevail. Return to your better nature; have grace, courage to do what is right; confess all and throw yourself on your cousin's generosity, and I am sure he will not—"

"It is vain to urge me," he said in peremptory interruption. "My mind is made up, and you must know by this time that I always mean what I say. Once more, which is it to be—your husband, or your son?"

"God help me!" she wailed. "Was ever wife and mother so cruelly placed? Wait till to-morrow night's reflection may cause you to change your dreadful, your sinful purpose."

"You have chosen, I see," he gloomily rejoined. "You prefer your shaggy dog to your son to your husband and his life. Be it so. Farewell, Charlotte, this is our last interview. When to-morrow comes you will have no choice to make."

"No, no, no!" she vehemently exclaimed. "I have not chosen as you think. I dare not—dare not. You shall not die, Charles. Come what will, you shall not die!"

"You promise to keep the secret, then?"

"Yes, God forgive me, yes. Oh my noble, handsome boy, do you forgive me too! Oh, my heart will break, my heart will break!"

She threw herself into a library chair, and gave way to uncontrollable emotion. Lord Eagleheart, while looking on her grief was not unmoved, but the sight of it caused no relenting in his mind. He had received her promise, and was satisfied, for he knew she would not break her word.

TO BE CONTINUED.

A Good Housewife.

The good housewife, when she is giving her house its spring renovating, should have in mind that the dear inmates of her house are more precious than many houses, and that their systems need cleaning by purifying the mind, regulating the stomach, and bowels to prevent and cure the diseases arising from spring malice and miasma, and the most perfect there is nothing that will do so perfectly and surely as Hop Bitters, the purest and best of medicines. See other column.

AUGUST FLOWER.

The immense sale and great popularity of Green's August Flower in this town and will attest to the fact that it has caused many imitators to adopt similar names, expecting to reap a harvest for themselves at the expense of the afflicted. This medicine was introduced in 1868, and for the cure of Dyspepsia and Liver Complaint, with their effects, such as Sour Stomach, Costiveness, Sick Stomach, Sick Headache, Indigestion, Palpitation of the Heart, vertigo, etc., it never fails to relieve any case of Dyspepsia. Two million bottles sold last year. Price 75 cents. Samples 10 cents.

The Hunter!

A hunter's life is one of patience and hardihood. Game into outlying and unvisited regions, he must walk and resort to solitude to secure his prey. But his life is one of great excitement. He usually carries a very fine gun, and he is always ready to start at a moment's notice. Sometimes his camp is enveloped by the presence of an enthusiastic sportsman, who is allured and every possible adjunct to comfort is provided. Old "Shank Eys," the leader, knows the best spots for hunting, and he is always ready to start at a moment's notice. Sometimes his camp is enveloped by the presence of an enthusiastic sportsman, who is allured and every possible adjunct to comfort is provided.

LeComte & Perkins Mfg. Co., Limited, Philadelphia & New York, 22, 1877.

Mr. M. GILES, Esq.—Dear Sir: Your favor of Jan. 20th, 1877, just received, and I thank you for the information therein. I have been giving the matter a long and careful consideration, and I am now in a position to give you a definite answer. I am very sorry to hear that you are suffering from the trouble which you describe, and I am very glad to hear that you are now in a position to give you a definite answer.

P. S.—If the mare gets all right, you will hear from me—G. K. C. Sold by all druggists. Send for pamphlet. Dr. Gray.

SCOTT'S EMULSION.

IS A FACT ATTESTED BY THE HIGHEST MEDICAL AUTHORITIES IN THE WORLD.

A careful observation of the laws of health, and the systematic and persistent use of SCOTT'S EMULSION of PURE COD LIVER OIL with HYPOPHOSPHITES of LIME and SODA will accomplish this result. This preparation has all the virtues of the pure oil, and is made in a form perfectly palatable, and acceptable to the most delicate stomach, and we make the use of it prescribed by many physicians for Consumption, and the diseases leading to it, such as Cough, Bronchitis, Scrophulous, Anemia, General Debility and the Wasting Disorders of children, than any other remedy known to medical science. The rapidity with which patients improve on this food medicine diet, is truly marvellous.

SEE WHAT PHYSICIANS AND THE PEOPLE SAY ABOUT IT. GENTS.—I have frequently prescribed SCOTT'S EMULSION of PURE COD LIVER OIL with HYPOPHOSPHITES of LIME and SODA, and report it as a valuable preparation in scrophulous and consumptive cases, palatable and efficacious. MESSRS. SCOTT & BOWNE.—Within the last year I have used in my own family, and in my private practice, very extensively SCOTT'S EMULSION of PURE COD LIVER OIL with HYPOPHOSPHITES and found it a most valuable preparation, especially in diseases of children. It is agreeable to the most delicate stomach, and renders it a very valuable agent as a nutritive food in consumptive and scrophulous cases. Yours respectfully, A. H. SEXTON, M. D., Baltimore.

MESSRS. SCOTT & BOWNE.—Within the last two months I have fairly tried SCOTT'S EMULSION of PURE COD LIVER OIL with HYPOPHOSPHITES and found it a most valuable preparation, especially in diseases of children. It is agreeable to the most delicate stomach, and renders it a very valuable agent as a nutritive food in consumptive and scrophulous cases. Yours truly, J. SIMONAUD, M. D., New Orleans, La.

MESSRS. SCOTT & BOWNE.—In September, 1876, my health began to fail, and my physician pronounced it spinal trouble. Under his care I got some relief from pain, but my general health did not improve. I commenced the use of my bed, and my life was in danger. In May last I was taken with a violent bleeding which brought me to my bed, and my life was in danger. Political Notes.

THE FRANKING CONTRACT.

The Irish Canadian says:—"But we turn now from the Reform to the Tory side of the House. No member on that side said a word in derogation of Mr. Boyle's right to the contract. The National sympathy which cropped out in his support in the rear of the Treasury benches is a gratifying offset to the narrow and vicious discrimination made by the Globe in its attempt to hold Mr. Boyle up as a scapegoat for offenders who are Scotch. That Mr. Patterson of Essex should have come to the rescue of an Irishman made the victim of a foul wrong was to be expected from a man like him whose National sympathy is so broad and earnest that it disdains to consider whether the Irishman is Protestant or Catholic. Indeed, we consider it a matter of course to find Mr. Patterson arrayed fearlessly for fair play. But what we say in expression of the cordial gratification in which we observe Mr. Patterson's demand for even-handed justice to an Irish Catholic despoiled of his Irish feeling and genuine liberality characteristic of the man, by the ex-Grand Master of the Orangemen of Eastern Ontario, Mr. John White? Black Knight of Ireland, and all that sort of thing, though he is, there is not in all this fair Province of Ontario, an Irishman more faithful, a citizen more upright, a religionist more thoroughly tolerant than John White of Hastings!"

AS BROAD AS IT IS LONG.

Says the Toronto Telegram:—"The coal tax is a nuisance. Every one agrees to that, excepting the mine owners and coal dealers who make money through its imposition. But then every tax is a nuisance and if people could get out of paying taxes they would be very glad to do so. But this is impossible, for money must be raised somewhere to carry on the Government of the country. We may as well pay taxes on coal as anything else. A certain amount of revenue is required each year; if coal were made free the revenue now obtained by taxing it would have to be raised by taxing some other commodity; so that by taking the money the same thing in the end. The object in levying a duty on imported coal is first, to raise revenue, and second, to keep out a proportion of foreign coal, and thus force the development of native mines. Revenue has to be raised by some means, and it can be raised in such a way as to help native industry at the same time so much the better. If the firms came back to power, and took the tax off coal they would have to put it on some other commodity, so that the thing is as broad as it is long."

A SENSELESS ROW.

The Hamilton Times raises a great howl because the Great Western Railway Company during last year paid somewhere about \$28,000 in the shape of taxes on coal. And yet this very Company did a larger and more prosperous business last year than for many years previous! Why, in the name of common sense, should these large corporations, whose stock is principally owned in England, be exempt from contributing towards the revenue of the country? We think people generally will fail to see any cause why they should.

SITTING BULL AND THE INDIANS.—In a private letter received from Wood Mountain, by a gentleman in Winnipeg, from a most reliable party, the writer states:—"Sitting Bull is here, and to-day (5th March) personally told me that he intended to go to Winnipeg this spring to visit the Lieutenant-Governor of the Province." The letter also states that the Sioux in that locality are starving, but continue peaceable and well disposed in spite of their sufferings and privation.

The Interest Bill.

The following is the full text of the Act relating to interest on monies secured by mortgage of real estate, actually passed by Parliament.

An Act relating to interest on monies secured by mortgage of real estate.

Whereas it is expedient to make certain provisions concerning interest on monies secured by mortgage of real estate; Therefore Enacted by the Senate and House of Commons of Canada, enacts as follows:

1. Whenever any principal money or interest secured by mortgage of real estate is paid, or on any plan which involves an allowance of interest on unpaid principal money, no interest whatever shall be chargeable, payable or recoverable, on any part of the principal money advanced, unless the mortgage contains a statement showing the amount of such principal money, and the rate of interest chargeable thereon, calculated yearly or half-yearly, not in advance.

2. Whenever the rate of interest shown in the statement referred to in the preceding section is less than the rate of interest which would be chargeable by virtue of any other provision, calculation or stipulation in the mortgage, no greater rate of interest shall be chargeable, payable or recoverable on the principal money advanced than the rate shown in the said statement.

3. No fine or penalty or rate of interest shall be exacted for or by the mortgagee on any account of principal or interest, which shall have the effect of increasing the charge on the principal money beyond the rate of interest payable on principal money not in arrears.

4. In case any sum is paid on account of any interest, fine or penalty not chargeable, payable or recoverable under the foregoing sections, such sum may be recovered back or deducted from any other interest, fine or penalty chargeable, payable or recoverable on the principal money advanced under the mortgage.

5. Whenever any principal money or interest secured by mortgage of real estate is not, under the terms of the mortgage, payable at any time more than six months after the date of the mortgage, then in case at any time after the expiration of such five years, any person liable to or entitled to redeem the mortgage, tenders or pays to the person entitled to receive the money, the amount due for principal money, and interest to the time of payment as calculated under the foregoing sections, together with three months' further interest in lieu of notice, no further interest shall be chargeable, payable or recoverable at any time thereafter on the principal money or interest due under the mortgage.

6. This Act shall apply to all monies secured by mortgage of real estate executed after the first day of July, in the year of our Lord one thousand eight hundred and eighty.

The Old Story.

FLEECED OF \$80.
It is strange that with so many examples of people being fleeced by sharpers that men are to be found who will allow themselves to be victimized by these "confidence men." The following narrative from the Montreal Star of last evening shows that "innocents" are not all dead yet:—"While Oliver Roudon, from Iroquois, was on his way to this city by late evening's Express, he got chatting with a passenger whom he considered to be a very pleasant gentleman, who informed him all about the city he was approaching. Gradually getting into the good books of the simple-minded stranger, the smooth-tongued confidence man began his little story about being short of money, and finally induced the rustic to loan him some, and all he had was locked up in his trunk in the baggage car. Roudon, taking eight dollars of hard earned money, all he had, from his pocket, handed it to his new friend (friend?) who shortly after left the car to go, as he said and get his trunk, which he did, as was found later on, and left the train at a way station. Poor Roudon, failing to find his money or supposed friend on arriving in the city, went with a forlorn look and told his story to the police. Detective Murphy searched long and earnestly for the man with the eighty dollars, but he was not est. And now never can truly sing with the poet of this 'useful dodger'!"

"If I had money and a friend, As once I had before, I'd keep my money and my friend, And play the fool no more."

Will nothing warn people against insinuating strangers?

Hon. George Brown.

The funeral procession of the late Hon. Geo. Brown was composed of such a large number of people that although the hour appointed was 3 o'clock, it was almost impossible to form the line until before four o'clock. Business was almost entirely suspended, hundreds of flags were flying at half-mast, and the whole city seemed to be in mourning.

Among the chief mourners were George Mackenzie Brown, the only son of the deceased, Mr. Gordon Brown, brother, Mr. George Mackenzie, of New York, brother-in-law; the Rev. Mr. Ball, of Guelph, a brother-in-law, and Mr. Thomas Henning. The pall-bearers were Sir A. D. Dorion and Hon. Alex. Mackenzie, Sir Alex. Campbell, Hon. E. Blake, Hon. Wm. McMaster, Hon. George Allan, Hon. M. Christie, Hon. J. C. Morrison, Sir Richard Cartwright, Hon. L. S. Huntington, Professor Daniel Wilson, Mayor Greig.

The route of procession was crowded with people who had come in from all parts of the Dominion to pay the last sad respects to the deceased statesman.

The Quebec Labor Difficulties.

A BRUTAL ATTACK.
May 12.—Another serious row occurred this afternoon on the Cove Field. A number of the Union Canadian Society who returned from Cap Sante this morning, some of whom are residents of Cap Sante, which is the extreme end of the Cove, were returning by way of the Cove Field for a short cut, and when nearing the Cove they were met by members of the old society, who rushed on them, shooting and beating whoever came in their way. Several have been seriously wounded, one in particular, named Du, and was rescued in a bleeding state by the police. Further trouble is expected.

—35,000 operatives are thrown out of employment at Blackburn, England, on account of the strike.

MORNING DESPATCHES.

AMERICAN.

GREAT FIRE IN PROGRESS.

THE INDIAN WAR.

A CONTESTED WILL.

AN OLD SWINDLER.

A CURIOUS SUIT.

POKESBURG, N. Y., May 13.—A destructive fire is raging at Stayestown, on the Hudson River railroad. The foundry and railway buildings, large ice house, stores, &c., are burning. The railway track is blocked and the rails are warped. The trains have stopped and the wires are down.

DENVER, May 13.—A telegram from New Mexico reports that the Apaches avoided the pursuing soldi and killed six more people in Pecos Valley.

BALTIMORE, May 13.—Four weeks ago Mrs. Ballard, wife of a coach maker, gave birth to a female child of unusual size. The fact was established that a second child was present.

On Tuesday an operation of the castrator section was performed at a large boy taken from among vicars. Both children are living. The mother is doing well. The case will attract great attention throughout the medical world.

The executors of the will of the late Albert Weber, piano manufacturer, have been sued by Mrs. Josephine Weber, who claims to be the illegitimate daughter of Albert Weber senior, and demands \$30,000 for her support.

John Hough, a wealthy contractor, was stabbed in the back by Girard Wright, member of the City Council, during a quarrel at Hough's residence on Tuesday night. Wound serious.

NEW YORK, May 13.—Washington special. The Herald says that Christianity's application for a divorce on account of his wife's infidelity conduct.

The World says a special session of the Nicaragua Congress has been called to ratify the proposed annexation of the new Nicaraguan Canal Company. Grant if not not, instead may be offered the Presidency of this Company.

5,000 emigrants arrived yesterday. During an altercation last night Wm. Jan knocked Chas. Barth down. In falling Barth's head struck a stone and he is probably fatally hurt.

W. Hall, a notorious old man who in 1878 walked out of a broker's office in this city appropriating \$30,000 worth of Government bonds, is now charged with violating a law in Philadelphia which he induced to give him \$5,000 in Government bonds on the promise that he would exchange them for better securities. He has disappeared with the bonds.

Wm. Dalzell, who shot Van Houten at Patterson, causing the recent riot, has been indicted merely for manslaughter. Much indignation is felt.

Mr. Griffith sues a pork dealer named Figg for \$20,000 damages sustained by her from eating infected ham purchased from him. Four other suits are pending on the ground that the ham contained trichinae.

A fire in Vincennes yesterday threatened destruction to the entire town. In the absence of an efficient fire department, the ladies belonging to some of the wealthiest families formed lines, and passed buckets of water from hand to hand. Loss, \$10,000.

Arrived, Adirondack from London.

BRADFORD, Pa., May 12.—To-day fire again started in the timber land at the head of the Fether Brook Falls. That section is thickly studded with derricks and saws. A gale blowing the fire swept over the ridge consuming everything like reeds and down the train below, a prolific portion of the oil field, burning rigs, small tanks, and buildings. Of Centre and Meddoughville, with the exception of one or two houses, are entirely destroyed.

To-night the 25,000 barrel iron tank of Mt. Chili's Tank is in flames. At the Baker terrace, on the Kendall and Eldred Railroad, a 5,000 barrel tank is burning, preventing the trains from running.

The Canadian Parliamentary Commission.—The issue for 1880 of this publication's *year book* has been received, and shows that a large amount of labor has been expended upon it by the able compiler, Mr. C. H. Mackintosh, editor of the Ottawa Citizen. The work occupies nearly 500 pages, and this year a great improvement has been made in the addition of a concise summary of the proceedings of Parliament during the session of 1879, and a list of members of the British House of Commons, together with the personnel of the Imperial Government. The editor in his introduction says that "extra diligence has been exercised in preparing the present volume, and nothing was too useful and done that would add to its usefulness and reliability," a statement fully borne out by a glance at the interesting matter laid before the reader. In addition to biographical sketches of members of the House of Commons and Senate, there are interesting sketches on Parliamentary procedure; a synopsis of Speaker's decisions; judicial decisions in contested election cases; changes in the Dominion Cabinet from 1867 to 1878; list of Governors, &c. Copies of the work may be had through any bookseller or by addressing Mr. Mackintosh at Ottawa.

A \$4,000,000 LOAN.—The Government of Quebec has succeeded in negotiating a loan of \$4,000,000 from Messrs. Cohen & J. de Paris, France, with the option of placing an additional \$2,000,000 at any time within a year. The rate at which the loan, which bears 5 per cent interest, has been placed is 90 cent. This loan, become necessary in order to wipe out the liabilities contracted with public works undertaken by the Government, will be applied to railways for which it is liable.

Marine Notes.

The ship, *Fabiola* has cleared for Oswego with lumber.

The str. *Armenia* is again on her route, arriving at 10 a.m.

The str. *N. P. Downey* went aground on the west bank of the west channel last night. She was got off and is now loading rye for Oswego at Downey & Preston's.

FOILED.—The action of the Government in sending volunteers to Long Point has prevented the pugilistic fight which was to take place yesterday on Canadian soil. A number of tags with the pugilists and their friends stemmed out from Buffalo and made for Long Point where the volunteers were stationed. Some of the party went ashore, but they were firmly told the fight would not be allowed on Canadian soil. They then steamed up the lake and tried to effect a landing some miles further west on the Canada side. They had not gone far, however, when they found that the *Arctic* and the volunteers were after them. The party were thus compelled to go back to Buffalo, having been completely foiled through the prompt efforts of the military authorities.

HALF TIME IN SCHOOL.—Galt is about to try the half-time system in his public school by which it is expected \$1,000 will be saved in teacher's salaries. The plan is to have the divisions from the senior third upwards work as at present, but those below are to be divided into two drafts one of which will study from 9 to 10:30, and then pass to the play room, when the others come in to work till 12, and similarly in the afternoon. One teacher (or possibly two may yet be required) take charge in the play-room and teaches singing, calisthenics and light gymnastics.

A NEW CANAL.—It is proposed to connect Lake Michigan with the Mississippi River by a canal capable of accommodating vessels of from 2,500 to 3,000 tons burthen. The route will be from the present canal from Chicago to Joliet, which will be enlarged, and the Desplaines and Illinois Rivers. The distance will be 317 miles, and the canal will require 17 locks, and 20 dams, costing \$18,100,000. When finished it will open an inland water communication between the Gulf of Mexico and the Gulf of St. Lawrence, and place Chicago in an improved commercial position.

Splendid Chance.

Local Notices.

NOTES ON THE ABOVE. A fine case of *Belleville* is now on hand. *Belleville* is now on hand. *Belleville* is now on hand.

Daily Intelligencer.

Belleville, Friday, May 14.

City and Vicinity.

POLICE.—All was quiet last night. Two tramps were given shelter.

FOR THE WEST.—A train load of Norwegian immigrants passed west last night.

CHURCH PARADE.—The city companies of the 40th Battalion will on Sunday morning attend divine worship at Christ Church. The Rev. Dr. Clarke will officiate.

BOOKS AT THE CONFERENCE.—The Methodist book concern will be represented at the sitting of the Toronto Conference in this city by Mr. A. G. Watson.

CALLED TO HAMILTON.—Rev. C. H. Mordick, formerly of Madoc and now of Toronto, has accepted a call from the Christ Church Cathedral, Hamilton.

CRICKET GROUND.—Work on the fitting up of the cricket ground is proceeding apace. The grounds will be fenced, and then be the best in this part of Ontario.

MR. PUSEY.—The many friends of Mr. Chas. J. Pusey will regret to learn by a despatch just received from Kilmount, that he was not so well this morning, but he is not considered dangerous. No further particulars were received.

FISHING.—The boys are daily having good sport in capturing mud-cats, which are thronging up the river in large numbers, intent on the business of spawning and of eating the spawn of pickerel and other fish.

PERSONAL.—At the second intermediate examination held at Toronto yesterday, of sixty-three candidates thirty-three passed. Amongst the successful candidates were Messrs. W. H. Hastings of G. D. Dickson's office; S. Masson of Denmark & Northrup; and Geo. Sherry of Flint & Jellott's. Mr. Hastings stood fourth on the list of successful candidates.

A HINT.—"Be brief, be brief, be brief," should be the motto of correspondents. There are several reasons for communications being brief. In the first place, newspaper space is valuable. The modern newspaper is never troubled with the old-time complaint of needing "something to fill up." The editor's scalpel is constantly reeking from the slaughter of live news matter and interesting miscellany. Short communications are much more likely to find readers than long ones, and unless they are to be read it is much better not to publish them.

MISSION BOARD.—The annual meeting of the Mission Board in connection with the Church of England for this diocese, was held in Kingston, on the 12th inst. Rev. J. W. Burke was present from Belleville. The receipts for the past year were \$11,861, and expenditure \$10,368. In the classification of the various Missions and the amounts apportioned to each, Marmora and Rosin are to receive \$150 each; Sharnville and Stirling \$200 each; and Madoc \$300. Owing to the scarcity of funds a reduction of ten per cent was made on these amounts.

WIDE TRAILS.—Now that the corporation are getting the streets into order, would it not be well that those engaged in teaming heavy loads should be compelled to adopt wide tires on their wheels? It is contended that more harm is done to the streets with narrow tires than twice the amount of teaming would occasion were the streets broad. The Council has it in its power to compel the adoption of wide tires, if it sees fit, and if we remember correctly a By-law to that effect is in existence and ought to be enforced.

RAY OF QUINTE CONFERENCE.—The annual session of the Bay of Quinte Conference of the Methodist Episcopal Church commenced at Kingston, on the 12th inst. About sixty members were present. Bishop German presided, and in his opening speech said that in the other Conferences there was a decided increase of membership, notwithstanding wonderful drawbacks by removals. In Niagara Conference the increase was 151, while in Ontario there was an increase of 82. The Council was very numerous, over 1,000 persons, representing from Niagara alone, Rev. W. Blair was chosen Secretary. The afternoon session was chiefly taken up in the appointment of Committees.

DISSEMINATION OF THE DISEASE.

The Synod of the Church of England for the Diocese of Ontario is to meet in Kingston on Tuesday the 16th of June next.

FIRE ALARM.—An alarm of fire was sounded this morning, but the cause was only the burning of the seat in a chimney of the frame house on Hotel Street, adjoining that of Dr. Bardett, and occupied by Mr. Gibson, carter.

FIRST OPEN AIR CONCERT.—The 12th Battalion Band will play on the Hospital Hill, weather permitting, to night under the charge of Mr. F. Cline. The following are the programme:

1. Grand March—Baker, Pasha, Williams.
2. Overture—Cassidy, Metcalfe.
3. Selection—Norman, Bellini.
4. Valse—Queen of the South—Metcalfe.
5. Quickstep—John Newton—Metcalfe.
6. Selection—Norman, Bellini.
7. Galop—May Blumens—Mayer.

(GOD SAVE THE QUEEN.)

CATCH.—The *Pictorial Times* says:—"On Sunday night the yacht *Emma* was stolen from Mr. H. Stanton, who was in charge of her, started in pursuit on the *Hudding*. A few miles from town the missing yacht was found on the Marysburgh shore, and on landing, two men who gave their names as Wilcox and Fields, from Colborne, were found concealed in the woods. They were arrested and brought before Messrs. Plummer and Wright, J.P.s, and committed to Pictorial goal to stand their trial. If guilty we trust a salutary example will be made of them."

News Condensed.

—Mr. Hammond has gone to his home in Connecticut.

—Hon. J. H. Pope and Hon. Mr. Langevin will visit Manitoba this week.

—Tom Hughes is coming to America this month.

—The Mononies of Manitoba have yielded on the municipal question.

FIRE.

NARROW ESCAPE.

FARLINGTON, Ont., May 14.—The dwelling house of John Halliday, a farmer on the concession of Barvelay was totally consumed this morning about four o'clock, together with the furniture and clothing of the family, who had a narrow escape, having to jump from the burning windows, one of them being badly burned on the foot and hands; supposed to be the work of an incendiary, as there had not been any fire in the part of the premises where the fire started. The building is insured for a small amount.

MARINE NOTES.

The new steamer *Perona* arrived here last evening and proceeded to Trenton, where she will be furnished and fully equipped. The boat is said to be a beauty and is very fast.

Seven barges and two schooners are loading lumber at Gilmour's mill, Trenton.

The *Sea Bird*, *Florence* and *Baltic* came along this morning, the first and last named for Trenton and the *Florence* for this port.

A number of vessels are reported in the reach.

The corporation bond was swung this morning at the mouth of the harbour.

The *sch. Morning Star* is discharging coal at Rathbun's coal yard.

The *sch. Geo. Stiefel* has been thoroughly repaired at Mill Point, and classes A 2.

Lumber rates to Oswego: From Toronto, to \$10.00; Port Hope, 90c; Mill Point, 55c; Brockville, 90c. Coal rates from Oswego to Toledo and Detroit, 50c gross net ton; to Toronto, 25c; to Hamilton, 25c.

The rate on lumber from Belleville to Oswego is 75c; and grain has been here to Oswego at 1½c. These are starvation rates, or very little better, still they equal or rather exceed those of last year.

The Toronto Sailing Union is understood to agree at the rate of \$20 per month.

The traffic by the mail boats thus far this season has been very large.

The *Kingston Whig* says several vessels which left here have secured crews at \$1 per day. The Union men hold out for \$1.25. The captains contend that at present freights they cannot give more than \$1.

The *Kingston News* says:—"The following charters are reported: Bangalore and Hyderabad, iron ore for Chicago, at \$1 per ton; also the *Manzanillo*, phosphate for Chicago, \$1.25 per ton free of Oliver Moraw, iron ore for Cleveland, 75c free.

AFTERNOON DISPATCHES.

New York, May 14.—Arrived, the *Utopia* from London, Pa., May 14.—Terrible forest fires continue. Over 3,000,000 feet of lumber, besides a vast amount of valuable timber, has been destroyed. Several houses and barns burned. 6,000 acres are still smoldering. The damage is incalculable. Considerable game killed. The fires are nearly all incendiary.

Lightning now falling.

Chowesay, May 14.—Rains contemplated. The great iron clad, *Peter the Great*, heading the great iron clad, *Peter the Great*, to the Pacific. Four other men-of-war for the Pacific are fitting out here.

London, May 14.—James Caird, an eminent agricultural authority, says nothing like the present depression in the agricultural interest has been seen since the repeal of the corn laws. In England there have been seven defective harvests. In England the bulk of the wheat crop is grown, there has been lost in these years a fourth more than the whole year's crop—loss to wheat growers of more than 230,000,000 sterling, with no compensation in higher prices. The introduction of foreign meat and cereals is of immense benefit to the consuming classes. The American statesmen believe they are rapidly gaining control of this trade and to maintain it at lower prices. It must be met by the production here of articles which will not bear long storage or carriage such as milk, fresh butter, early meat, vegetables, hay, straw, potatoes and sugar beet. All interests in land whether of owner, occupier or laborer must be disentangled. The sale of land must be removed, and the control and transfer of land simplified. The lumbered states will then be broken up into small properties. The drain of agricultural labor and capital to the United States and Canada will alter the existing conditions of agricultural property in England. Our agriculture must adapt itself to the change, freely accepting the good and shunning the evil. The advantage which greater proximity to the best market must always command.

New York, May 14.—The body of Frank Maguire night watchman was found in a lumber yard at the foot of east 11th street. Maguire has been missing since the 12th inst. Supposed to be murdered.

Buffalo, N. Y., May 14.—Carl Canke was executed here this morning for the murder of John Atkinson Elmer, on April 2nd, 1879.

Norway, Mich., May 14.—On Wednesday night No. 2 shaft in the Lumberman mining Co., Ludington iron mine caved in. Three men killed.

New York, May 14.—Arrived, the *Sejante* from Hull.

WEATHER REPORTS.

Toronto, May 14.—Probabilities for the next twenty-four hours: For the lower lakes, fresh to brisk north easterly to south easterly winds, clear to partly cloudy weather, stationary or slightly lighter temperature.

WASHINGTON, May 14.—Indications: lower lakes, cooler, veering to warmer; clear, followed by partly cloudy weather.

CAUTION TO THE PUBLIC.—As I have been repeatedly informed that certain parties have been attempting to sell furniture (I have been and am now making use of my name) for the purpose of obtaining money, I hereby declare that I have no such intention, and that any person who attempts to do so, will be held responsible for the consequences.

JOHN G. FROST.

Belleville, April 20, 1880.

Grateful Women.

None receive so much benefit and none are so profoundly grateful and show such an interest in recommending Hop Bitters as women. It is the only remedy perfectly adapted to the many ills the sex is almost universally subject to. Chills and fever, indigestion or deranged liver, constipation or periodical neuralgic headaches, weakness in the back or kidneys, pain in the shoulders and different parts of the body a feeling of lassitude and depression, are all readily removed by these Bitters.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, free of charge. This great remedy was discovered by a missionary in South

J. H. BATES, NEWSPAPER ADVERTISING AGENT, 41 PARK ROW, (Times Building) NEW YORK.

Our Manufactures.

THEIR CONDITION AND PROSPECTS

Some Improvement and a Hopeful Outlook.

Belleville, although possessed of many capabilities and apparent advantages, has not as yet become a great seat of manufacturing industry. Whilst other cities, towns and villages recently not so well adapted for the purpose, have become manufacturing centres, Belleville has made but little progress in that direction of late years, still there is good ground for hoping that the flattering belief of former times will yet be realized and that our fair city, which, by the aid of the iron industry, for which it presents unrivalled facilities, attain to a prominent position among the asterhood of cities in Ontario. What are the causes of the present state of things is not the present purpose to inquire. Suffice it to say that, despite the depression of the past five or six years and all other untoward causes, a considerable number of manufacturing factories still survive; that some new ones have been added during the past twelve months; and that the prospects are regarded by the manufacturers themselves as being favorable. These conclusions have been arrived at from visits paid within the past few days to nearly all the manufacturing establishments of any prominence in the city, the detailed results of which are given herewith.

THE FOUNDRY BUSINESS.

Messrs. J. M. Walker & Co. employ from 30 to 35 men, or about the same number as last year at this time, but report business hardly so brisk as it was twelve months ago, though during the year they did an average amount of business. They manufacture principally agricultural implements for the home trade, and also turn out mill work, of which they had on hand two very large water-wheels for Messrs. Ford & Co.'s paper mill, near Trenton. Prices in their line had not increased.

Messrs. G. & J. Brown have 31 hands,

about the same number as last year, and are very busy, work having commenced earlier than usual. They manufacture all kinds of work, and report business good and increasing, with prospects encouraging. Prices had appreciated a little, owing to the recent rise in iron, but are coming back to their former level. They have done a very large trade in seed drills, of which their stock is exhausted, although the demand has not yet been satisfied.

Martin Brothers did a fair business up

to last month, but now find matters dull. They have built a number of small steam engines, and attribute the present dullness to the fact that the lumber trade has passed into the hands of a few firms, so that those who do not get jobs from these manufacturers suffer. At present they are engaged in jobbing work.

THE FURNITURE TRADE.

Mr. G. S. Tickell reports trade brisk and prospects favorable. He now employs 27 hands against 16 at date last year. Mr. Tickell states that he has found encouragement in the manufacture of first-class furniture, such as sofa frames, &c., which used to be imported from the United States. He is perfectly satisfied with the tariff, for although the extra duty raises the price of the furniture, this increase is more than counterbalanced by the extra sales. The N. P. is considered a very decided advantage to his business, although as a Reformer he was at first doubtful of its effects. Some articles, he stated, used to cost more when imported under the old tariff than he can manufacture them for now. The spring trade has been fair, and his sales by wholesale have extended from Halifax to St. John's, whilst many persons who reside at Colborne, Brighton and other places along the lake shore now buy here instead of importing from the United States. Mr. Tickell's factory is a very busy place, and as he keeps up with the latest styles and conducts his business with energy he is bound to succeed.

Rosenick & Cummings have 10 men em-

ployed, or about twice the force they had last year, and state that business has of late been improving a good deal. Mr. Cummings thinks protection will be a good thing after a time, but he does not think his business, which is chiefly wheeling in the district about here, has reaped much advantage from it yet. Prices are rather better than a year ago, and market improving.

Mr. Frederick Frost has eight hands em-

ployed in the manufacture of furniture of various kinds, which is disposed of at wholesale and retail.

THE AXE FACTORY.

Mr. E. Burrell, whose brand of axes is favorably known all over the Dominion, employs 50 hands, or 18 more than at date last year. Four hundred and seventy-five axes are turned out daily against 350 last year, and in addition he manufactures broad axes, picks, mattocks and grub hoes. His sales extend over the whole country, and he has felt no effect from the duty on iron. No American axes now come into the country, although they were sold in Canada up to three years ago.

THE POTTERY.

Hart Brothers & Lutz, who opened the pottery here in November last, are making an excellent class of stoneware from New Jersey clay. They employ 7 hands. Prices remain without change, although the increased duty has put out competition from the United States, the larger market thereby secured equalizing matters. In

some lines prices are now lower than across the lake, was one of the advantages given by Mr. Hart, who is himself a citizen of the United States and still interested in a pottery in that country.

Drifting with the Tide.

ONCE AGAIN UP THE BAY.

(From our Special Reporter.)

Friday, May 14, 1880.

A cool, even, chilly atmosphere, a want of light and sunshine—however a wish for it—a breeze that seemed to come from some unfriendly corner, were the atmospheric presentations that manipulated themselves on the occasion of my trip to Trenton to-day—and it wasn't the nicest kind of a day either. Dispiriting influences are the lot of those who would undertake a reportorial trip under such auspices, but as the average reader is invariably desirous of something fresh, stirring and new, the opportunity for presenting a light variety of reading matter afforded itself in the manner hereunder described.

Leaving the dock, the ruffled surface of the water first attracts attention, and thoughts (nautical) are given expression to as sail boats pass by, skipping through the water like things of life.

Once beyond the harbor the sight of sail-free to the breeze, manifest themselves and attract the interested attention of all who take notice of marine matters. The schr. Florence comes bowling along with full sails, as does also the Sea Bird, the former bound for the Eagle Mill and the latter for Trenton. A halt is made at Ferry Point, and brief thought is it—exhibits of bay life show themselves in the hum of the saw-mill and the loud thud of the falling lumber.

Off from shore the Kallie Eklie is laden with straw and bolts, beating eastward with all sails set.

As our craft passes along the usual scenes incidental to the sight of the traveler unroll themselves and vary the monotony of the traveler's ride. What but a few weeks ago was dry and parched is now rich with spring verdure "and the green grass grows all round, all round." The farms along the bay look grand in their initial season attire, and here and there the horny hand is seen at work in his usual avocation. The shores—or rather the farms—here along appear bright in nature's verdure and betoken the incoming of the natal period of the year.

Baker's Island is reached and there the B. W. Folger is seen loading ice. On, on to Trenton, and ere that lively place is reached the sounds of general business life show themselves. At Gilmour & Co.'s mills the saw Glaspoe and the schooners O'orman and Sea Bird are being supplied with cargoes of lumber and the fall of each board on the pile testifies that once more there "life in the land," and that the lumber boom continues to show activity.

Coming in at the Trenton dock the new steamer *Ferris* is the first to attract attention, and beyond her are the *Paragon* and *Trade Wind*, which are loading ice for Erie, Pennsylvania. The ice harvest at this place was a large one, but on account of its having been improperly housed the owners have lost thereby.

The sound of the trowel and stone hammer first greets the ear of the visitor, but over and above that there is but little to vary the monotony of the usual quiet business day (Friday). Everything is quiet, dull and placid—as on such days, the rule is invariably so in almost every place—and life seems to die away. Merchants, however, report a favorable season's trade thus far, and anticipate a good business further on.

The steam yacht *Stephen* has been launched, and now sits on the water as a thing of life. She is a splendid exhibit of marine architecture, and is said to be very fast.

The large yacht *Blondine* is ready for launching, and as soon as her spars have been supplied she will be placed in her native element.

Good progress is being made in the construction of the new standing keel yacht, and it is now considered that she will be ready for launching by the 25th of this month.

The new mill of the Gilmour & Co. firm is not yet ready for work, but it is expected to be in operation in about two weeks.

Nothing more presents itself on the way to the city, and thus does this chronicle close.

THE HANLAN COUNTRY RACE.—The

Globe's special from Washington says Courtney is the favorite in sporting circles at Washington, and odds are given on him, but Hanlan's supporters seem confident.

LADY HINCKES DEAD.—The death of Lady

Hinckes, wife of Sir Francis Hinckes, is announced as having taken place at Montreal on the 14th inst. She was born in India, in 1811, and was first wedged to Mr. Justice Sullivan, who died in 1853. Her remains will be interred in Toronto.

SEVERAL NOT COUNTED.—The general

military orders for the year 1880, which have been received at the Brigade Office, Montreal, state that Sunday will not be regarded as a day during the annual drill for the year, but that the number of days must be made up exclusive of Sundays. This is an act of the Government, which will be highly commended by the country.

—Five of a prospecting party attempted,

on the 24th April, to cross the swollen Sorel River, and their boat was swamped, two were drowned outright, and a third, Ed. Donnelly, of Palmerston, Ont., was so chilled and exhausted that he died a few minutes after being drawn from the water. Another of the victims was Frank McPhie, of Shelburne, N. B. The name of the third has not been learned.

THE OYSTER TRADE.—Among the food

exports of America, which have attained so remarkable a growth during the past half dozen years, oysters hold an honorable place. In 1875 a few vessels of them were sent to England as an experiment, the following year, upward of forty thousand barrels; in 1878, nearly eighty thousand; in 1879, ninety thousand; while the present year will probably show an export of a hundred thousand barrels, worth half a million dollars.

Pork Stolen.

TWENTY, May 15.—Some parties entered Gilmour & Co.'s storehouse here last night and stole two barrels of pork.

MORNING DESPATCHES.

AMERICAN.

THE FIRE FIEND.

600 BUILDINGS BURNED.

SEVERAL LIVES LOST.

Kearney Declies as a Kitten.

GRANT'S PROSPECTS.

THE CHRISTIANITY DIVORCE SCANDAL.

A PANTHER ESCAPES.

STARVED TO DEATH.

MILTON, Pa., May 15.—The churches burned yesterday were Presbyterian, Baptist, Catholic, Episcopal, Methodist, Lutheran, Methodist, Evangelical, and Congregational. The hotels were United States, Hoff House and Broadway, worth \$60,000. Most costly buildings destroyed were the car works and Reber's tannery, valued at \$200,000. About 600 buildings, two thirds of the town, are burned. Losses, about \$800,000. Only three business houses of a hundred are standing. Casualties so far reported are three women, and two or three children burned to death.

NEW YORK, May 15.—The *Sun's* Chicago special says that Gen. Grant is living quietly at Galena. The feeling among his neighbors is that he will be a candidate.

The *Harvard's* Boston special says that Kearney's release it could be had legitimately, as now nobody but a few of his personal friends care for him. Kearney has well earned and is as good as a kitten.

The Times Philadelphia special states that Cameron says that every Pennsylvania delegate pledged himself yesterday to stand by the null rule and vote for Grant.

The Times Chicago special says Grant will have the Illinois convention, aside from Cook Co. by at least 120 majority.

Washington special.

The Times says Christianity's bill against his wife charges specific acts of adultery. Mrs. Christianity's bill will allege cruelty. It is charged that Mrs. Christianity, with a well known public official, visited a disreputable house in Washington in the day time. The defence claims that Mrs. Christianity went to the house in company with the wife of the official named, who had a brother ruined by a woman who keeps the house and who wished to see this woman and asked Mrs. Christianity to go with her. The father of Mrs. Christianity is the recipient of many letters from the minister.

Some indicate that the ex-Senator is upon the verge of a divorce. Letters filled with threats and charges against his wife, coupled with remarks that he hoped never to see her again, for if he did he feared he would forgive everything.

NEW YORK, May 15.—It is rumored that the wild cat or panther which escaped from a circus in Connecticut three weeks ago is ravaging in the northern part of Westchester County. A hunting party has been organized.

The Department of buildings served on Vanderbilt yesterday a formal notice condemning the Madison Square Garden, and ordering that the structure be razed. Before action is taken a thorough survey by a board of experts must be had.

Archduke Charles Stephen, of Austria, brother of the Queen of Spain, is a cadet on an Austrian corvette lying in the harbor.

Mary Bentley, aged seventy-five, was found starving to death in a hotel on Roosevelt Street yesterday. She soon after died in the hospital.

In the suit against the Brooklyn porkpacker for \$20,000 damages, caused by selling in facted ham, a verdict for defendant was rendered.

The general traffic manager of the New York Central in an interview published in the *Times*, declares that the 3rd section of the pending bill to prohibit discrimination in railway charges will paralyze the road against its competitors. He says the New York Central can be operated if the bill becomes law.

The World reports Russell Sage and Jay Gould endeavoring to secure the control of the Pacific mail in the interest of the Union Pacific Railroad.

NEW YORK, May 15.—Arrived, the "Bristol" from Bristol, "Daniel Steinmann" from Antwerp, "Saler" from Bremen, "Mosel" from Bremen, "Patagonia" from Liverpool.

JAMESTOWN, N. Y., May 15.—The *Evening Journal* says that Rev. Dr. George A. Peltz, a prominent Sunday School worker, one of the editors of the *Sunday School Times*, one of the last summer's Sunday School Assembly at Montreat, Col., formerly of Philadelphia, and for two and a half years pastor of the Baptist Church here, has been forced to resign his pastorate because reports of immoral practices have been circulated against him. On being confronted he confessed his guilt. He did not particularly in what his guilt consisted, but said he had sinned and was penitent. He left town on Saturday, and his letter of resignation was read on Sunday and accepted. Mr. Peltz is said to have gone east.

THE EXODUS FROM GREAT BRITAIN continues very heavy. According to advices, the steamship companies, volume of emigration for May promises to exceed that of April, during which month 29,000 passengers were left Liverpool, of whom 25,000 went to the United States. The Cunard Steamship Company will this week send out nearly 4,000 passengers. Several lines have found it necessary to put on extra steamers. The demand for accommodation at Queenstown greatly exceeds the supply. The companies which sold tickets in advance are compelled to pay detention money to emigrants awaiting their turns.

INSPECTION OF CANAL.—Sir Charles Tupper,

Minister of Railways and Canals, is expected to reach Peterboro' on the 27th inst., on a tour of inspection over the route of the proposed Trent Valley canal. Arrangements are being made at Peterboro' for his reception.

Seasonable Topics.

Mosquitoes have arrived on their spring foraging tour.

If you would have your business thrive, you must advertise, and if you want to reach the largest number of people, for the least amount of money, advertise in the *Intelligencer*.

A circus man never runs too long for spectators, but let a sermon run over forty minutes and a congregation can't sit still.

Says Talmage: "When I hear that four angels are doing all the singing for Heaven, I'll permit four people to do all the singing for my congregation."

The New York Tribune says oleomargarine is pronounced oleomargaron, with the g hard. Nearly all of the papers we have seen pronounce oleomargarine have pronounced it a fraud. And perhaps this is the best way, as it requires fewer letters, and is much more easily pronounced.

The printer's new job office is supplied with choice styles of type, caps, ink, and fast presses, and under the personal supervision of a first-class foreman, any class of printing will be turned out in a manner to give satisfaction as to price and quality.

Everything in nature indulges in amusement. The lightning plays, the wind whistles, the thunder rolls, the snow flies, the waves leap and the fields smile. Even the birds hop and the rivers and streams run.

"When I die," said a weary husband, "I want to go where there are no more flies to make." "Perhaps you may," said his good wife.

The house fly, if in good health, can lay 20,000 eggs in a season. The Danbury News thinks it a pity a fly can't be grafted on a hen.

Mr. Vanner is discouraging. He writes as follows: "In response to some inquiries, permit me to say that my impressions of the summer weather remain the same, viz., hot spells and frost relapses up to midsummer. The summer will not be favorable to crops."

CARD OF THANKS.

T. S. BURROWS, Esq., Gen'l Agent of the ONTARIO MUTUAL Life Assurance Company.

I beg to acknowledge the receipt of the Company's cheque for \$1,000, in settlement of my claim under Policy No. 3,768 on the life of my husband, who died on the 11th day of April last, and to express my thanks for the promptness of the Company in the payment of this claim.

Mortgage Sale

VALUABLE FARM PROPERTY.

IN pursuance of the power of sale contained in a certain mortgage which will be produced at the time of sale, there will be sold by Public Auction, on

Saturday, the 22nd day of May, A. D. 1880,

at the hour of 12 o'clock, noon, at the Court House in the City of Belleville, by Charles Wilkins, Auctioneer, that valuable parcel of land being the East half of Lot number 13, in the 10th concession of the Township of Rawdon, in the County of Hastings, containing 991 acres of land, more or less.

The premises are situated on the Gravel Road running from the Township of Hastings, in the immediate vicinity of the School House, Store, blacksmith shop, and the post office of Springfield.

About 60 acres are cleared, the remainder is timbered with hard wood. The lot is well watered. On it are erected a frame dwelling house, barn, and shed.

Terms made known at time of sale, or in the meantime on application to Messrs. BELL & PONTON, Vendor's Solicitors, Belleville, April 29, 1880. 6d&wtwd

MORTGAGE SALE

VALUABLE FARM PROPERTY.

UNDER and by virtue of the power of sale contained in a certain mortgage which will be produced at the time of sale, there will be sold by Public Auction, on

Saturday, the 29th day of May next, at 12 o'clock, noon, by Charles Wilkins, Auctioneer, at the Court House in the City of Belleville, the following valuable freehold property:

The west three quarters of Lot number 3, in the 12th concession of the Township of Hastings, containing 150 acres, more or less. 100 acres of the same land are cleared and under cultivation. The soil is clay loam. On the premises are a frame house 24x30, a frame barn 30x50, two sheds 20x30, and a drive-house 12x12. The place is well watered. It lies about 15 miles from Belleville. The whole will be sold at a bargain.

Terms and conditions made known at time of sale, or in the meantime on application to Messrs. BELL & PONTON, Vendor's Solicitors, Belleville, April 27, 1880. 6d&wtwd

MORTGAGE SALE

VALUABLE FARM PROPERTY.

IN PURSUANCE of the power of sale contained in a certain mortgage, which will be produced at the time of sale, there will be sold by Public Auction, on

Saturday, the 5th day of June, A. D. 1880,

at the Court House in the City of Belleville, by Charles Wilkins, Auctioneer, the following valuable farm lands:

PARCEL 1.—Being composed of the west half of the south half of lot number 13 in the 6th concession of the Township of Tyndal, and County of Hastings.

PARCEL 2.—Being the east half of the north half of lot number 15, in the 5th concession of the Township of Tyndal, and County of Hastings.

Each lot contains 40 acres.

Parcel one has about 5 acres under cultivation, the remainder being wood land, all cedar.

Parcel 2 is entirely under cultivation, and on it there is a good frame house 24x36, with a kitchen attached, about half the land is prepared for spring crop.

The land is a clay loam, near a Church, Post Office and School House. It is situated 9 miles from Shawanago and 18 miles from Belleville.

Title indisputable. For further particulars, and for terms and conditions of sale apply to Messrs. BELL & PONTON, Vendor's Solicitors, Belleville, April 30, 1880. 6d&wtwd

MANHOOD: HOW LOST, HOW RESTORED.
We have recently published a new edition of Dr. Culverwell's Celebrated Essay on the radical and permanent cure, (without the use of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, etc., resulting from excess.)
Price, in a sealed envelope, only 6 cents, or two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty successful practice, that alarming consequences may be radically cured without the use of any medicine or the application of the knife; pointing out a mode of cure at once simple, certain and effectual, the means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.
This Lecture is given in the hands of every youth and every man in the land.
Address
THE CULVERWELL MEDICAL CO.,
Post Office Box 4586, 601V
SEND 25c. to ROWELL & CO. New York for Pamphlet of 100 pages, containing full particulars of the cure, and a list of 3000 names of cured persons.

Wholesale and Retail Agents,
100 Grand Street,
DETROIT, MICH.
are authorized to contract for advertising in the "Intelligencer" and "Advertiser" at the lowest rates, and to receive all advertising matter by mail to applicants.

MANHOOD: HOW LOST, HOW RESTORED.
We have recently published a new edition of Dr. Culverwell's Celebrated Essay on the radical and permanent cure, (without the use of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, etc., resulting from excess.)
Price, in a sealed envelope, only 6 cents, or two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty successful practice, that alarming consequences may be radically cured without the use of any medicine or the application of the knife; pointing out a mode of cure at once simple, certain and effectual, the means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.
This Lecture is given in the hands of every youth and every man in the land.
Address
THE CULVERWELL MEDICAL CO.,
Post Office Box 4586, 601V
SEND 25c. to ROWELL & CO. New York for Pamphlet of 100 pages, containing full particulars of the cure, and a list of 3000 names of cured persons.
\$5 to \$20 per day at home. Sample sent by mail.
\$10 WEEKLY. \$12 a day at home easily made. Costly Outfit free. Address

RELEVILLE, MONDAY, MAY 17.

ADU-N P.

Here is the latest anti-N. P. item which the ingenuity of the Pictorial Times has discovered:

"Only eight men are employed at the Gatling mine and the company is about to suspend operations."

Simple Simon himself or Handy Andy might well stand aghast at the simplicity and stupidity of such an assertion as the above. The Gatling Company, as the Times might have learned from our columns, have refused an offer from New York of \$100,000 for their property, also a conditional offer from a Boston party of \$200,000, and are not "about to suspend operations," but have determined to carry on the work on a large scale on their own account. This valuable property lay idle during the five years of G. P. mine, and so its recent development and future operation ought, following out the Times' argument to its logical conclusion, to be credited to the N. P. But that would be absurd, as the Times does not affect the gold mining industry in the slightest degree, and consequently exercises neither a favorable nor an unfavorable influence. If the G. P. writers who scribble against the commercial policy of the Government would but inform themselves upon topics on which they profess to teach the public, they would not so frequently make themselves ridiculous.

Our Manufactures.

THEIR CONDITION AND PROSPECTS

Some Improvement and a Hopeful Outlook.

(Continued.)

THE CARRIAGE BUSINESS.

Alderman James St. Charles (formerly Brown & St. Charles) reports business good and increasing. Prices remain unchanged, although some kinds of stock imported from the United States are rather scarce of duties and account of the increase in iron in the United States. The St. Charles lately turned out a very handsome omnibus for parties in Galt, and further he says he has never had so many orders as he has had this spring. Mr. St. Charles employs 6 hands, or fully as many as last year, and wages remain unchanged, he having a superior class of workmen whose wages he did not cut down during the depression because desirous of keeping them together.

Mr. P. Finnegan employs 6 hands, or 1 more than last year, and states that business has been much better this spring than heretofore, whilst prices of his manufactures have not advanced.

Mr. W. J. Baker, who has 5 hands at work, reports business dull and that he employs 1 men fewer than last year. Prices for work unchanged. He thinks that the N. P. has been beneficial, and that there are certain articles used in his business which ought to be and can be made as cheaply here as in the United States, whence they were formerly imported.

Mr. G. A. Brown (formerly of Brown & St. Charles) has 15 men employed in the manufacture of carriages of all kinds, wagons and carriage work, such as bodies, gearing, &c. This latter branch of manufacture was entered into by Mr. Brown about one year ago. The class of goods which it comprises was formerly manufactured in the United States, but they have been shut out by the increase in duties, consequently this part of Mr. Brown's business is to be credited to the N. P. Mr. Brown states that he has found customers as far east as Montreal and as far west as Toronto. His business, he says, is getting nicely established, and his prices are about the same as those paid for American goods before the alteration in the tariff.

Alderman Henry McInnis employs 5 hands, and is anxious to secure one more blacksmith, business being much better now than it was at this time last year. He now employs 1 hand more than he did twelve months ago. Prices remain without change.

James A. Young, who has been in business since last fall, has four men engaged on light carriage work, and has plenty to do. No alteration in prices of work.

THE WOOLLEN INDUSTRY.

Mr. John Lazier has 12 men employed, although this is not the busy season. Trade is much better than last year. The N. P. having benefited it greatly; and Mr. Lazier has just commenced wholesaling, in business in which he has not heretofore engaged. The capacity of the mill is to be largely increased, as it is to be converted into a two-set mill, one set running for market and the other on local work. Prospects are good, and the business may be said to be better than ever before.

Mr. John Lazier also reports that the N. P. will help his business materially, and he is adding a quantity of new and improved machinery. He manufactures yarn and rolls, and is principally engaged on custom work. Nine hands are employed in this manufactory. Mr. Lazier is going at once to enlarge his factory and manufactory for market.

GRIST MILL.

Mr. W. Linham's mill, which has 3 run of stone, is running day and night to supply the local trade. Six hands are employed against 4 last year. Business has very much improved, and the N. P. is a

large benefit, because flour from the United States has been shut out. Mr. Linham thinks, however, that either the duty on wheat should be reduced to 10c per bushel or that on flour increased to 75c per bbl, as he contends that the present duty favors United States millers to the extent of 25c per bushel.

Mr. Cooper has fitted up the Diamond mill in first class style, and is doing a good business in custom work.

Mr. John Lazier's grist mill is also running on custom work, and is doing a fair amount of business.

SAW FACTORIES.

The tariff does not directly affect this business, further than that it tends to keep machinery, which was formerly imported from the United States is now procurable in Canada cheaper than and nearly as good as was formerly supplied by our neighbors.

Messrs. Harris & Walton employ 7 hands. They state that business has been better than last year, though within a few days it has slackened down considerably. Mr. A. N. Pringle employs 8 hands and reports an average season's business, though owing to the slackness in the building trade it is rather dull at present.

H. A. Thompson has 10 men at work, and states that business is about as usual. Flint & Holton now employ 27 men in their saw mill and saw factory against 30 last year. The lumber business is much improved, but in the saw factory the report is not so favorable.

Northcott & Alford have 10 hands in their factory, or rather fewer than last year, when they had a large contract on hand, namely that for Robertson Block. On this account their force of men engaged on outside work has been decreased.

Prices in this line of business are very low, and the manufacturers contend they ought to be higher because of the enhanced value of lumber, caused by the demand from the United States.

TO BE CONTINUED.

News Condensed.

The cabmen of Ottawa are still on strike. Oak extract has been placed on the free list.

A large portion of the fall wheat in the Ottawa district has been killed.

Mr. E. A. McDowell and his troupe have arrived in Winnipeg, Manitoba.

The total strength of the German army is \$2,000,000.

The fire at Bradford, Pa., destroyed 315 oil wells and 85,000 barrels of oil.

Louis Berthiaume was carried over the Chaudiere Falls on the 15th and drowned.

The value of Canadian fish exported to the United States in 1879, was over \$700,000.

Immense quantities of wheat are shipped from the Province of Quebec to the South Sea States.

Mr. J. Rainey, lot 1 Sarnia township, got a 60 barrel oil well on the 15th inst, at a depth of 450 feet.

The witness says: Telephone service is advancing in Montreal. The rate has risen from \$30 to \$50 a year.

On Thursday evening a boy named Lantz, aged 13 years, was killed in London, Ont., as the result of the bursting of a rifle.

A lot of glass and cutlery, which some parties were smuggling into Brockville, was seized by the Customs officers on the 15th.

Mr. L. Vanhook, Ottawa, Indian Commissioner, has been appointed Deputy of the Superintendent General of Indian Affairs.

Laborers in the McLean saw mill, Ottawa, who were getting \$1 per day, have struck for \$1.25 a day. The mill is shut down.

All the volunteer companies within seventy miles of London will go into camp in that city on the 25th June.

By a boiler explosion at Walsall, Eng., on Saturday afternoon, persons were killed and a number of men fatally injured.

The receipts of the Great Western Railway for the week ending May 7th, show an increase of \$12,696 over the corresponding week of last year.

The printers' strike at London continues. The offices are being supplied with fresh hands, and the proprietors of the papers refuse to treat with the union men.

The Canada Gazette contains the formal announcement of the appointment of Sir A. Galt as Canadian representative Agent in Great Britain.

The receipts of the Northern and North-Western Railway Co. for the week ending May 7th, showed an increase of \$11,189 over the corresponding week of 1879.

Since the 7th of January to 10th May the increase of receipts over the Midland Railway have been \$24,957 over the corresponding period of 1879.

An Ottawa report says it is said that the Hon. Sydney Smith of Cobourg is likely to take the Secretaryship made vacant by the death of the Hon. Geo. Brown.

The betting on the Hanlan-Courtney race in Washington on Saturday was \$100 to \$100 in favor of Hanlan. In New York it was \$100 to \$70.

The Canadian team of cricketers who sailed from Portland on 30th April arrived in Glasgow on Friday. Their first match will be played next Friday.

William Lewis, found guilty of manslaughter at the Norfolk Assizes, has been sentenced to five years' confinement in the penitentiary for killing Mike Donnelly.

R. W. Hunter, Clerk with John McLean & Co., Montreal, who accidentally shot himself while hunting, died on the 15th instant, from the effects of the wound.

Mr. Wm. Barnard, of Toronto, has shipped to Victoria, British Columbia, eleven Concord spring barges and thirteen sets of harness. Mr. Barnard states that a article of Ontario manufacture are greatly in demand in British Columbia.

By the lock-out at Blackburn 30,000 operatives are rendered idle. With four exceptions the masters were unanimous in closing their mills, and it is declared that they will not re-open until the strikers are willing to resume work.

The surveying party in charge of Mr. MacLennan and who have been engaged in locating a line for the Canada Pacific Railway on the North Shore of Lake Superior and east of the Prince Arthur's Landing have returned to Ottawa after a trip of two hundred miles.

On the 14th inst., an old man named Wm. Plavins deliberately committed suicide by plunging his head on the track of the Cobourg and Peterborough Railway, about six miles from Hawkesbury, so that the train could run over him. He had tried to kill himself several times previously.

THE REMOVED CABINET CHANGERS.—The Ottawa Office referring to the rumored cabinet changes, says there is no present intention to make any changes in the cabinet.

Sunday Services.

SERMON TO THE MILITARY AT CHRIST CHURCH.

Rev. Dr. Mitchell on Hon. George Brown's Career.

CHURCH PARADE.

The City Company and the 6th Battalion, attended by their band, marched out to church yesterday morning.

The marching and appearance of the men were very creditable, and the officers and men are to be congratulated on the improvement made in their drill.

After the usual church preliminary service, the Rev. Dr. Clarke addressed the soldiers and congregation, taking as the subject of his remarks the 6th chap. Ephesians, 10th and following verses.

He said that in the present condition of things we are living in a state of material and moral antagonism. The boy has to contend with the mysteries of the alphabet in order that he may become learned and develop a useful life, the same with the mechanic who has to learn and become acquainted with the art in order that he may himself design and construct successfully; and so the necessity of a preparation is implied in order to achieve the greatest success and happiness in life. In speaking of our duty as a nation, he said we may not expect every nation to do its whole duty, but it is too much to expect that we will submit to insolence, persecution and encroachment upon our rights. It is therefore required of us that we exercise eternal vigilance in peace, in order to enjoy our liberty. He said there are soldiers as on the defensive, and fighting against evil, and others as on the offensive, and seductive enemies, training our selves to a liberty of thinking and weighing actions and acting. He said that St. Paul selected the character of a soldier to show that there can be no antagonism between the character of a soldier and a Christian; a good Christian must be a good soldier; he gave a picture of a soldier prepared for war, how that all his armor was to shield him from attack in front, never expecting that he should relinquish the fight and turn back, retreat is no part of a Christian's discipline; our duty is to advance under the guidance of our conscience, evil whether it be lust of sin, passion, appetite or false inclination. The promise to faithful soldiers is a reward of eternal life, and further for the Christian soldier is reserved a crown of glory. Be faithful to God, your Saviour, remember that while you are soldiers of the Queen that you are soldiers of Christ.

The Band of the Battalion took part in the musical services of the Church, and the choir rendered the singing very nicely.

JOHN STREET CHURCH.

At evening service the Rev. Dr. Mitchell, the pastor, preached to a very large congregation, the subject of his discourse being the life, labors and character of the late Hon. George Brown.

The Rev. Dr. Mitchell took as the subject of his remarks the 7th verse of the last chapter of Deuteronomy. "Moses was 120 years old when he died, his eye was not dim, nor his natural force abated."

These words being before our view to-night a distinguished citizen who has passed away to his eternal rest, and they are true in this case. He is called away in a mysterious providence. When the little one in our home, a bright and interesting little gem, is called away; when the young man just reaching his maturity is called away, and those who were young were moving in active life, it is a mystery. He cannot leave a place which he has made his home, and he has predicted that such a tragedy would take place, would believe it possible? It might occur in other days, because law and order were not the peculiar characteristics of the nations in that time. In those days such deeds were common, but to think of such in our day, with law and order everywhere manifesting themselves, and in a city too, where we have every form of Christianity, and to a citizen to have an occurrence like this in broad daylight, when all were employed in their various avocations, is something which takes us by surprise.

Without prejudging the prisoner in any particular, for it becomes the pulpit to be cautious, there is in the United States a disregard for human life, I cannot imagine a man in a city like our own carrying firearms. If in ancient state of things he was dwelling in a place where the population were warlike and murderous, and he was in our country, where such a means of defence. In our country, where such is not the case, we cannot see the need of it, and we should not do anything which would encourage such a state of things. It should be seen in us that we have a profound respect for our fellow creatures; and should not be thus taught in our homes? What seems to me the feature of all, is the little importance that is made of such occurrences as this. Oh that we had more sympathy in our hearts, telling us that we are to look upon the life of each man as sacred in the sight of God; and if this does not put an end to such things as this, it will stamp them as contrary to the laws of God and our intellect.

This pistol shot, if the result of some spite, some little offence, has worked out the death of our fellow man. He told of a young man educated and trained, beginning life with out any money of his own, rising day by day to determination, till providence at length crowns his energy, putting him on an eminence above other men. This sort of thing is regarded by people now as a thing of the past. Young men think there is an easier course in which they can follow the talents with which God has blessed them, associating themselves with dishonest young men and by and by being caught in the awful act of stealing from another. Some man who is rolling in wealth and who is pointed as the example of success in our time, will only too soon hear the truth. Depend upon it the child of God is the only person who can stand the test.

He said he never would take his pulpit to assist any particular political principle, he was speaking to be strictly neutral. So he was trying to speak words which would be strictly honest.

He said this gentleman was always generally in earnest regarding the interests of his own country. We see him as he leaves his old country, the land of his birth, his home. With some purpose in view, he makes a fortune in a new and strange land, but in him we find a man whose patriotism for his country stirred with the song of his country's triumph, and who, when he plants his foot upon the soil of a new country, dedicates his energies to the building up of that land.

In speaking on the subject we have before us, we have a distinguished character. There was a union of many valuable qualities in this man. He spoke of the beautiful state of our own press in comparison to that of other lands, and said that the gate of the pulpit's

power had not altogether passed away. Give us a man with his heart rooted to ambition as a moral and religious teacher and along side of him I place the power of the press. Next to the pulpit is the press. I cannot but feel that in this as well as other nations there is too much party spirit. In the career that has just closed, close there has been much political strife. We have seen a man in a high position, and yet not thinking that he was lowering his manhood by confining with Peter, My Son, My God, I regard the life of our young men as teaching our young men a lesson. He wanted young men to take for their example that of a Christian life. He wished success in this world. What a friend we have in Jesus when we come to die. He spoke tenderly of the scene of the scene of the gentlemen, whose dying request was "Sing Rock of Ages Glast for Me."

Let it be our prayer to die the death of the righteous.

BURGLARY.

Small Plunder for the Hobbers.

On opening his store this morning, Mr. Isaac Frost, dealer in leather and finders, discovered that his premises had, between Saturday night and Monday morning, been entered by burglars. A shutter which closed a window in rear of the store had been bored with an auger or brace and bit, a piece taken out and the fastenings thus opened. The thieves got a very little booty, the only articles missing being a few copper coins which were extracted from the till. The police were informed and are at work on the case.

THE ATTEMPTED PRIOR FIGHT.—The authorities of Norfolk county have arranged to give the American flag fighters a hot reception should they attempt to land in that quarter on the 18th inst. A New York despatch says that the party will be a small one, and that they expect to have the fight over before the authorities know anything about it.

MORNING DESPATCHES.

EUROPEAN.

BERLIN, May 17.—Bismarck is accused by Baron Vandenput of conspiring with the Jews of Hamburg. The Minister immediately left Bismarck's palace, and left for letters of recall, which the King of Bavaria has not yet granted, but the Baron will leave Berlin in a few days.

BALTIMORE, May 17.—The woman who recently submitted to the Cesarean operation is dead. Her first baby is dead, but the one recently born by the operation lives.

DENVER, May 17th.—Navajos have driven the settlers from that portion of the San Juan valley which they claim has been added to the reservation, and are now in the possession of houses left by the settlers, who have petitioned the Government for redress.

Agent Eastman has attempted to forbid the Indians from swearing on Sunday; the Indians refused to obey, broke into the Government's warehouse, stole property, tore down the dam, destroyed the school and threatened the female teachers of the Indian school.

Eastman left and with him went the white ladies. Navajos have also been co-operating with the Apache.

Arrived, Rosend Castle from Newcastle.

ICE! ICE! ICE!!

THE subscribers are prepared to deliver ice to any part of the city at the lowest possible rate. Orders for the City Hotel, Front Street, or Grant & Potter's will be promptly attended to.

For TRENTON, Daily, at 3 p. m.

For PICTOU, Daily, at 4 p. m.

The stages arrive in Belleville about noon each day.

Daily Intelligencer.

BELLEVILLE, MONDAY, MAY 17.

City and Vicinity.

COUNCIL.—The City Council will hold a regular meeting to-night.

NOTICE.—Those interested are referred to the advertisement of the executors of the estate of the late Richard Osborne.

ANNUAL ASSEMBLY.—No. 2, Hose Com-

pany intend having their annual assembly in the City Hall, on the evening of the Queen's Birthday. The 10th Battalion Quadrille Band will furnish music.

PERSONALS.—The Minister of Customs

arrived from Ottawa on Saturday evening. Mr. and Mrs. Charles Corby, of St. John, New Brunswick, arrived here on Saturday night on a brief visit to their parents. Prof. Macoun arrived from Ottawa on Saturday morning.

CHEESE MARKET.—The meeting of

daymen which is to be held in the City Hall here on Friday next ought to be largely attended, as the establishment of a cheese market will require the united action and hearty co-operation of all interested.

PERSONAL.—Mr. C. G. L. Kelso, of

Belleville, has purchased a large tract of land in northern Minnesota, which he has called the Kelso farm, and intends cultivating it on a large scale. Mr. Kelso leaves for the west this evening, and his many friends wish him every success in his new home.

BOAT BUILDING.—Mr. F. Andrews has

built a single scull lateport, a large skiff for three pairs of oars, and is now busy on another single scull lateport. The material and workmanship in all these craft are excellent, and Mr. Andrews has now a good lot of boats for hire.

THE RITEL.—A despatch from Pictou on

the 15th says: "The second competition for Orchard's gold medal took place to-day. It was again won by W. A. Bog by a score of 73 points. The day was less favorable for shooting than last week. The final competition for this medal takes place next Saturday."

YACHTING NOTES.—The Gracie was

launched on Saturday afternoon and fitted out before night. The yacht Countess of Dufferin is at Cobourg, extensively repaired and refitted, and is being handsomely repainted. She will be taken to Kingston, where her bottom will be caulked and she will then return to Cobourg.

THE GRAND JUNCTION.—The Peterboro

Review says: "The Grand Junction Railway Company are pushing on work rapidly. They have commenced operations on the bridge at Hastings and have one pier sunk and a number of others almost ready. About 140 men are employed in grading the road towards Peterborough; they are now working about two miles this side of Hastings."

FAREWELL CONCERT.—It will be seen by

advertisement that Mr. and Mrs. Arthur Graham will give a farewell concert in the Metropolitan Hall this evening, when will be produced the charming operatic triad entitled High Life, together with a miscellaneous concert and a series of beautiful tableaux. Mr. and Mrs. Graham have during their stay in Belleville contributed very much to the enjoyment of the lovers of music, and as they are about taking their departure for Toronto, it is to be hoped they will receive a liberal patronage on the occasion of their farewell concert.

THE CEMETERY.—The beautifully situated

"city of the dead," on the shores of the bay, is rapidly becoming thickly populated, and not a few handsome and well appointed graves have been erected. Workmen have lately been busy to the numerous monuments which dot its surface. Work on the improvement of lots by leveling and sodding and planting of trees and shrubbery goes on steadily, and within the next two weeks the beauties of the place will be enhanced very largely by the placing on and near graves of many window and greenhouse plants, for which the weather has as yet been too cold. Many visitors were present yesterday despite the strong breeze and blinding dust.

REMEMBER.—Members of the 40th Bat-

talion Rifle Club are reminded of the meeting to be held at Hamby's to-night.

This Evening.—Remember the entertainment

this evening in the Workingmen's Temperance Hall in aid of the B.C. Ladies' Aid Society.

POLICE NOTES.—But one arrest has been

made since Saturday. The men are suffering from the heat, their summer clothing not having been supplied as yet. Officer Newton has had the great misfortune to lose his eldest child—an interesting little girl, just over three years of age—of scarlet fever.

POLICE COURT.

(Before A. Diamond, P. M.)

MONDAY, May 17.

VAQUANCY.

John Underwood, an old man, was re-

manded for a week.

WHAT A SHOT GUN DID.

Murder Near Conesecon.

(By Our Special Reporter.)

CONSECON, May 17th, 1880.

The record of crime, as far as the County of Price Edward is concerned, has almost invariably been a light one and its criminal calendar has seldom been marked with one of the ordinary crimes of the criminal catalogue.

A change, however, in its character, has

now disturbed the good will and peace which have so long existed in this county, and an execution has taken place in this county, and that occurred nearly twenty-five years ago.

Since then serious cases have arisen, but none of the character of the one I will now describe.

Pleasant Bay is a quiet looking locality

about two miles south-west of the village of Conesecon, in the Township of Miller. In the above named place a tragedy occurred on Sunday morning, which will forever be remembered in that section of the country, in which it was committed. A seemingly deliberate murder has occurred and brought with it its concomitant surroundings. The story, as far as I have been enabled to procure is by conversation with interested parties, is as follows: A man named James Pierson resides at Pleasant Bay and is reputed to be wealthy. In his household is a young woman, and it is she on whose account this tragedy is said to have occurred. On Sunday morning, the Pierson household was awakened by the tapping on a window and

a knock at the door. James Pierson, who was

awakened by the tapping on a window and

a knock at the door, went to the window and

opened it. He saw a man standing outside

the house, and he called out to him. The

man replied that he was a stranger, and that

he had come to the house on business. He

asked to see the owner of the house, and

Pierson called for his wife. She went to the

door and opened it. The man came in, and

Pierson went to the window and looked out.

He saw the man standing outside, and he

called out to him. The man replied that he

was a stranger, and that he had come to the

house on business. He asked to see the

owner of the house, and Pierson called for

his wife. She went to the door and opened

it. The man came in, and Pierson went to

the window and looked out. He saw the

man standing outside, and he called out to

him. The man replied that he was a stranger,

and that he had come to the house on

business. He asked to see the owner of the

house, and Pierson called for his wife. She

Correspondence.

Whilst correspondents will be accorded space

for the expression of their views on topics of

public interest, it must be in all cases understood

that the views are those of the correspondents themselves.

Woman's Christian Association.

A very important meeting of the Women's

Christian Association will be held on Tuesday

evening, the 18th inst., at three o'clock in the

Council Chamber, to complete the necessary

arrangements for procuring a charter for the

"Home." All the ladies interested in the "Home"

are urged to be present whether members of the Association or not.

ELIZA J. FLINT, Secretary.

MARINE NOTES.

The str. Alexander arrived on Saturday

afternoon with a good cargo of general merchandise (from Montreal). She proceeded to

Trenton, returned the morning, and took a

quantity of freight for Ogdensburg and Montreal.

The tug *Albion* S. *Sumner* arrived at Ogdensburg at 4 p. m. on Friday. She was from

New York via Montreal, and will this season

be on the Detroit river.

The str. *Florence* has cleared for Ogdensburg with lumber, and the *Tranquilline* has

cleared for the Eagle Mills.

The str. *N. P. Downey* is loading rice for

Ogdensburg at Downey & Preston's.

THE PAPER SEIZURE.—Regarding the

paper seizure in Chicago a day or two ago,

it appears that the Dominion Paper Company

of Montreal had a contract for 100 tons

of tinted paper with Messrs. Meade, Clarke, Friend, Fox & Co., bookbinders,

Chicago, and had been shipping their goods

for some time. On Tuesday last a carload

of ten tons was seized in Chicago by the

American Customs authorities, who allege

that it should have been valued at a price

higher than that which it was actually

valued at. The goods were made out of

between eight and ten cents per pound, and

had been shipped to Chicago by the Dominion

Paper Company. The goods were made out of

Is authorized to contract for advertisements in the DAILY and WEEKLY INTELLIGENCERS at our best rates.

WANTED. An apprentice to the Printing Business. Apply at the office of the INTELLIGENCER.

Daily Intelligencer.

RELEVILLE, THURSDAY, MAY 20.

For the last few days home politics of which the public had a surfeit since the early part of January, what with the proceedings in the Ontario Legislature and the Dominion Parliament—have engaged but little of public attention, the interest being for the time centered in the preparations for the coming of the scullion race between Edward Hanlan, the champion, and Charles E. Courtney, of Union Springs, New York, for the \$6,000 prize offered by the Hop Bitters Manufacturing Company of Rochester. The daily doing of the men, their condition, sentiments, and everything pertaining to them in the slightest degree, have been minutely recorded, and the probabilities as to the result of the race have formed the sensation of the hour.

The failure of Courtney to meet Hanlan on Chautauque Lake for this same prize in October last—the general belief in Canada that the cutting of his boat was a cowardly desire to avoid a contest—the fact that Hanlan had according to sporting law fairly won the prize, although payment of the amount to him was refused—these and other incidents of the race, have been the subject of much comment, and the master in order to bring about a race—the providing by the donors of the purse of another first-class oarsman to take Courtney's place in case he again tunked at the last moment, so that a race would be assured—all these were circumstances which caused a degree of interest in the matter which otherwise would not have been attained.

Well, the great race has come off, and Courtney, who faced the starter and apparently put forth his utmost power over two-fifths of the course, was so badly beaten that he did not finish, but rowed to his boat house after four and a half miles had been covered. This result will be, it is to be hoped, the means of clearing off the unfounded suspicion as to the race at Lachine between the same men, and to convince our neighbors beyond our border that Edward Hanlan is the premier oarsman of the American continent as well as of England. The champion's victory is, it may be added, purely a Canadian one, as he shall receive the built in Canada of Canadian cedar, whilst his oars were of Canadian spruce and also made in Canada.

Professional oarsmanship is worthy of public favor as the highest development of an exceedingly useful art, but by the corrupt practices of the professional betting fraternity it has fallen into disrepute, because it has been impossible in many cases to ascertain whether the men rowed on their merits. It is very much to the credit of Edward Hanlan that he has in all seasons rowed to win and has failed on only three occasions—once by breaking an oar, once by a foul in which he was not to blame, and thirdly by rowing when out of condition at Barrie last year, making a dead heat with Riley. Having always kept fairly with the public, he is the only man who takes lively interest in every contest in which he engages, and long may such relations continue between our champion oarsman and his fellow countrymen.

Our Railways.

The lease of the Grand Junction and Belleville and North Hastings Railway Company, held by the Grand Trunk Railway Company, expires on the first of June, and we understand the contractors have arranged to run these roads on their own account after that date, at least until the Grand Junction is completed to Peterboro, when we presume the Grand Junction and Belleville and North Hastings Railway Companies will assume and operate the roads.

Mr. Bickford has secured some of the rolling stock required, including four engines and four passenger cars, from the United States Rolling Stock Company, and yesterday concluded a contract with Messrs. Jas. Crossen, & Co. of the Cobourg Car Works, for box cars and ore cars, which firm have agreed to turn out four cars per day until the number required have been supplied. These cars will be painted brown and have the name of the Grand Junction Railway Company painted thereon.

The business of both roads has assumed such proportions that it will be necessary in the public interests as well as for the convenience of the parties operating the roads to have better facilities for loading and unloading freight, and the present station being altogether insufficient for that purpose. A central site ought to be secured where sidings can be constructed and a freight shed built, where business men can take and receive freight, and we presume the contractors will make arrangements to provide this accommodation, without delay.

Considerable progress is being made on the extension to Peterboro. Nearly all the piers of the bridge at Hastings are in position, large force of men are engaged in grading and preparing the road for the iron, and it is expected the road to Peterboro will be in operation by the first of October. Arrangements, we understand, have been made by the Midland Railway Company by which the cars will run into their station at Peterboro.

No change in the running of trains is contemplated at present, but the question of putting on a morning train to Madoc is being under consideration, and when the road is open to Peterboro we presume the train will be doubled on the Grand Junction Railway.

Political Notes.

The *Guelph Herald* says:—"The people who are in the habit of attributing the alleged exodus from Canada to the N. Y. P. will please tell us what caused the unprecedented exodus from free trade Britain."

THE SENATE.
Newmarket, Ont.: The Senate of Canada is a beautiful institution; they veto the bill providing for marriage of a brother-in-law with a deceased wife's sister, and forthwith they are denounced as a set of "noddies"—a lot of "old ladies"—perfect nobodies and responsible to no one. On the other hand they veto an amendment to the Scott Act which proposed that sufficient electors in each county should vote for said bill to guarantee the proper enforcement of its provisions, and to some 100,000 noddies which previously poured down upon them wrath and indignation upon the devoted heads of Senators, now regard them as paragons of wisdom and every other amiable quality. Wonderful transformation: "You pay your money and take your choice."

MR. BLAKE.
Kingston News: Although Mr. Blake is placed by his new found admirers in a most enviable position. To appear as a Kansas emigrant agent in Canada is not what Mr. Blake would desire, but that he has been made to serve that purpose is a fact which, however disagreeable, cannot now be denied.

SHIPBUILDING.
The tonnage built throughout the Dominion last year amounted to 103,551 tons against 106,976 in 1878. An increase is shown by every province except Quebec and P. E. Island. Nova Scotia built 50,975 tons against 47,639 tons in 1878, and New Brunswick 32,138 tons as compared with 26,300 in the previous year.

KNIGHTS' TEMPLAR.

TRIENNIAL CONCLAVE OF THE GRAND ENCAMPMENT.

The Triennial Conclave of the Grand Encampment of Knights Templars of the United States will be held in Chicago, commencing on Monday, August 16, and will continue through the week. On Tuesday, one of the most imposing processions of the order ever witnessed in this country, try perhaps in the world, will be formed. Every State in the Union, it is believed, will be represented. Two hundred commanderies, represented by thirty thousand finely drilled Knights, will take part in this parade. Arrangements have been made whereby representatives are expected to be present from Canada, England, and other European countries, the Sandwich Islands, Mexico, and, in fact, from almost every civilized and half civilized country in the world where this organization has a commandery. As a civic display it will be worth a trip to Chicago from any part of the country to see. The estimate has been made that the line of march will be five and one-third miles long. The men on foot will march twenty-four abreast, two files deep, with only twenty-five feet between the ranks, to shorten the procession. This line will include a countermarch in one place, in order that each man can see the whole procession. Not less than 120 brass bands, the most perfect in America, numbering from twenty to seventy pieces each, will furnish the music for this great demonstration.

News Condensed.

—Salmon are reported as very scarce this season in Halifax.

—The prospects of an abundant fruit crop this year, are everywhere excellent.

—The Mayor of Toronto recommends the city to pay for that city.

—Mr. H. H. Neill, of Gifford, was killed by lightning on the 20th.

—Lt.-Gov. McDonald and family have taken up their residence in Montreal.

—The Wimbledon Team will sail for England on the 19th of June.

—The Kingston people are making arrangements to have a grand celebration on Dominion Day.

—The next session of the Bay of Quinte Conference of the M. E. Church is to be held at Morrisburg, in May, 1881.

—Consumers of ice in Hamilton will have to pay at the rate of \$15 for the season this year against \$8 last year.

—The French pay their minister to London \$40,000 a year, and their minister to Washington \$16,000 a year.

—The troops are being kept under arms at Rheims, France, in case of emergencies arising from the labor troubles.

—A young girl in Indianapolis has had both of her legs amputated in consequence of excessive pore jumping.

—Bass, the English brewer, uses 2,000 acres of hops, and makes a million barrels of beer yearly.

—Steel rails laid on the Baltimore and Ohio road for 40 miles, 17 years since, now show no signs of wear.

—English railway contractors are having surveys made for a railway from the coast of Morocco to the interior of Spain.

—It is said Mr. Bunker, M.P. for Vancouver is to be appointed Inspector of Customs in British Columbia.

—Several American and experienced miners have arrived in Quebec, with the intention of exploring the Chaudiere mines.

—A telegram from Chamon, Newfoundland, states that the vessel struck in the ice near Cape Ray, are now free.

—An Ottawa man, giving his name as White, has been detected in passing counterfeit coins in Whitley. He deals in half-dollar silver pieces and \$20 gold notes.

—Mr. Augustin St. Hilaire, of Quebec, completed his 103rd year last week. He saw and split the wood for the daily use of his house.

—The By-law to issue \$20,000 debentures for water works purposes, was voted upon by the electors of Toronto, on the 19th inst., and rejected by a majority of 144.

—Frederick Turner, while being placed under the influence of chloroform previous to a surgical operation at Buffalo, jumped to his feet and expired, in the presence of ten or twelve attending physicians.

—Considerable progress is being made on the extension to Peterboro. Nearly all the piers of the bridge at Hastings are in position, large force of men are engaged in grading and preparing the road for the iron, and it is expected the road to Peterboro will be in operation by the first of October. Arrangements, we understand, have been made by the Midland Railway Company by which the cars will run into their station at Peterboro.

No change in the running of trains is contemplated at present, but the question of putting on a morning train to Madoc is being under consideration, and when the road is open to Peterboro we presume the train will be doubled on the Grand Junction Railway.

—The business of both roads has assumed such proportions that it will be necessary in the public interests as well as for the convenience of the parties operating the roads to have better facilities for loading and unloading freight, and the present station being altogether insufficient for that purpose. A central site ought to be secured where sidings can be constructed and a freight shed built, where business men can take and receive freight, and we presume the contractors will make arrangements to provide this accommodation, without delay.

The Great Boat Race.

Hanlan Wins as he Likes.

COURTNEY ROWS TWO MILES AND RETIRES.

(From the Mail.)

WASHINGTON, May 19.

The men having taken their stations, the referee gave the usual instructions, signalled for the starting gun to fire, and they are off. Both stroke the water simultaneously, and their frail craft sprang forward like greyhounds, and the long talk of race has actually commenced. Hanlan has got the out, ward or Virginia shore, thus securing the advantage, the boys have been placed diagonally from the shore. Courtney being on the inside or the Washington shore, consequently appears to have a length the best of it at the start.

Before fifty yards have travelled, his opponent is even tiring. Going off at 32, Hanlan seeing his rival apparently ahead, quickened to 35, and with a few powerful strokes was alongside. Courtney, rowing at a 34 pull, encouraged by the shouts of his countrymen, made an effort, but it is futile. Courtney is a mile and a half, and at an eighth of a mile, opposite the first grand stand, he is clear of the Yankee.

Vainly do the people shout themselves hoarse and urge Courtney to quicken his stroke. The Toronto boy still goes ahead, and at a quarter of a mile, he is still ahead, his boat is a good length and a half to the good. Thus early in the race it was apparent the struggle was over, Hanlan having dropped his mile to 20.

At three eighths of a mile, in rounding the bend, which is caused by the point of Annapolis Island, Hanlan does some foul steering, and nearly collides with the flags marking the third furlong. Courtney turns round in the nick of time to get his own course, and, seeing his antagonist in difficulty, makes an inspiring effort. It is ghastly in the nature of the effort, but it is clear that Courtney is gathering himself together, and quickening the very slightest, shoots off once more. It is all over, and the procession begins.

Courtney stops of the gas-work, five-eighths of a mile having been accomplished, and for a moment seems to hesitate whether to quit right there and then, or pursue his reluctant Canadian who is fast adding length to length in the distance separating them. A sense of his position seems to come over him, and once more he plies his oars, but the life has gone out of them. It is true he pulls twenty-eight long strokes to the minute, but there must be a lack of strength, for the man in the little white cedar boat in front there is only working his blades at twenty-six, but see how they carry him along past the mile flag.

The Canadian is leading by six lengths at a mile and an eighth. Opposite the entrance to the cemetery on the Virginia shore, on Genl Lee's old estate, he had added a couple more, making eight good lengths which he has to spare. Courtney looks round despairingly once more, casts a wistful glance at his receding competitor, and bends yet again to his hopeless task.

They continue in this style till the State Department, two miles on the way, Hanlan rowing as he likes, and yet ever adding to his advantage. A little further on and the wanted Union Spruce sculler for the last time takes the situation in his hand, and, at the sight of the hopeless gap, he bows his head, slowly turns his craft and sadly rows homeward, without going to his buoy by nearly three furlongs. Hanlan pulls on alone.

Riley, who started to row over the course, about a quarter of a mile ahead of the contestants, is in front of him, and he therefore does not hurry, but content himself with rowing the buoy in something like seventeen minutes from the start. Riley rows on in the van, inviting his countrymen to witness his showy style, which says as plainly as actions can speak, "See how I would have done." The said countrymen on the Speedwell duly appreciate the situation, and echo Riley's thoughts say one after the other, "I wish Riley had started, he at least would have made a race; some occasionally varying with, 'I think he could beat them both.' But a stopper is rapidly put on that, for a gentleman present offers to back Hanlan there and then for any amount from \$1,000 up to \$10,000 to be rowed either on Saturday or the following week.

While this is passing, the Canadian has pursued the even tenor of his way, now rising to thirty, now dropping to twenty-four, and finishing with a spurt at the rate of forty to the minute, having covered the five miles in the time of 36:40, as announced by the referees, and won \$6,000, in doing so, or \$1,200 a mile.

DEFEATED.

As the gun was fired, signifying that Hanlan has crossed the line, the unfortunate Courtney, who had but just got out of his boat, was seen, unaided and unattended, watching his aching head. The ladies watching him say nothing, but look the sympathy they do some take in the man who has been so completely and humbly vanquished. Courtney disappears in the boat house and the door closed on him.

THE NORTH-WEST.—In a letter to the *Mark Lane Express*, Mr. Thomas Connolly, well known to many of our readers, as the correspondent of the London Times, gives an impartial account of the lands at the disposal of the Dominion. He says, "On no part of this continent have so many good lands been had on easier terms than in the vast northwestern territory of the Dominion. As for the climate, the inconvenience of that to settlers has been greatly exaggerated, he thinks that the rain interferes quite as much with outdoor work in Great Britain as the cold does in Manitoba and the adjacent regions. The variations of the season he considers opportune for the laborer of the farmer. He points out the exceeding fertility of the soil, showing the high average of production for all kinds of vegetables, and gives a large list of valuable statistics, as to the cost of tillage and its proportion to the results, the field for stock raising, the fertility of the grasses, &c. The correspondence just now, when the tide of immigration is setting in strongly, cannot but be attended with good results.

Profit, 1,200.

"To sum it up, six long years of bedridden illness, costing \$200 per year, total \$1,200—all this expense was stopped by the loss of Hop Bitters taken by my wife. She has done her own housework for a year since, and out the loss of a day, and want anybody to know it for their benefit."

MORNING DESPATCHES.

EUROPEAN.

BERLIN, May 20.—News from St. Petersburg confirms the report that the sentence of Chung Hwa has been issued to recall her Charge d'Affaires from Peking and place her subjects in China under the protection of the United States.

PARIS, May 20.—Paul DeMussit, dramatist, is dead, aged 76.

AMERICAN.

SAN ANTONIO, TEXAS, May 20.—On Sunday seven Mexicans crossed the border, robbed Bishop's store in Starr County, killed Bishop, outraged the servant and hanged. The Mexican authorities have arrested five of the outlaws.

NEW YORK, May 20.—The *Herald's* cables say Gladstone's letter denouncing the appointment of the Roman Catholic Lord Ripon as Viceroy of India is considered in Conservative circles to be prejudicial to non-conformity, but in the eyes of the world is the most statesmanlike document he has issued.

The trial of Nihilists at St. Petersburg commenced on Monday.

Washington special: The *Sun* says that attempts are being made to get up a joint race between Hanlan, Courtney and Riley. The latter declares he will have nothing to do with Courtney until after he has settled with Hanlan.

The *World* says Hanlan expressed surprise and delight on receiving notice of Trickett's challenge.

NEW YORK, May 20.—Small-pox was found in the baggage of the steamer *Orford* on Tuesday. The steamer was quarantined until over 1,200 emigrants were vaccinated.

The stakeholder in the Goss-Ryan fight will name on Friday the time and place for the contest. Both men have agreed to this.

A steamer yesterday took out rails and tools for the construction of a railway from the Mexican capital to the American frontier.

Mrs. Louise Rich, aged 55, who was arrested for intoxication, hanged herself in a cell last night. She had been partly crazed by the loss of a child and taken to drink.

Recher last evening lectured in Brooklyn for the benefit of the family of Policeman Steine, who was killed by rowdies recently. \$6,000 was realized.

Important Auction Sale

HOUSEHOLD FURNITURE.

THE undersigned is instructed by Mr. A. Christie, who is leaving town, to offer by PUBLIC AUCTION, at his residence near the East and Third Streets, the household of his Household Furniture, &c., &c., on

MANHOOD.

HOW LOST, HOW RESTORED

We have recently published a new edition of Dr. Oliver's "Cure for Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, etc., resulting from excess." Price, in a sealed envelope, only 6 cents, or two postage stamps.

The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' successful practice, that alarming consequences may be readily cured without the dangerous use of internal medicine or the application of the knife, pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

This Lecture should be in the hands of every youth and every man in the land.

BELLEVILLE, FRIDAY, MAY 21.
What the N. P. has done for
Belleville.

The shallowness of the loyalty of the
Grit press in its anxiety that England will
not suffer by the protective policy of the
present Government is made apparent by
its efforts to belittle the country we live in,
in the vain hope of convincing the public
that the N. P. is not beneficial to Canada.

Our Grit contemporary, in an article
under the above heading, on many other
occasions, makes an effort to belittle our city
in the hope of assisting to place its party in
power.

It says that Belleville "possesses un-
surpassed manufacturing and shipping facili-
ties," and "no one would like better than
ourselves to see those facilities utilized to
their utmost extent; but the policy of the
Mackenzie Government unfortunately closed
some of our factories, and that so effectually
that the manufacturing influence of the
N. P. has been unable to restore them.

It is true, it says, that "during the
greater part of the Mackenzie regime there
were eight lumber mills in and near our
harbor," but it forgets to state that, before
that regime came to a close, there were
nearly as many bankrupt lumber manufac-
turers, the principal part of whose "limbs"
went into the hands of manufacturers at a
distance, so that the mass of the logs which
came down our river in large cargoes to other
places to be manufactured, thereby losing to
us the benefits that would result from their
manufacture in our midst, and as Belleville is
a city whose rise has principally been the
result of the lumber business, it cannot but
feel the evil effects of the withdrawal of our
lumber interests to other parts.

However, matters have taken a "great
turn for the better, and the lumber trade
is again booming, which state of things is
as truly to be attributed to the beneficial
effects of the N. P. as was the closing of
three or four of the mills under the Mac-
kenzie-Cardwell revenue tariff, to that
portion of the policy of the late Govern-
ment. The organ makes an absurd refer-
ence to the idleness of some of the mills,
three of which, it might learn on inquiry,
will be in busy operation as soon as material
in the shape of saw-logs is received. If it
desired to extend the comparison
beyond our own city, it would find that
Rathbun's and Gilman's mills are doing a
much greater amount of work than last
year, and that the Baker's Island mill,
which was closed under the revenue tariff
of Mr. Mackenzie, is to be reopened under
the N. P.

So with the furniture trade, two instead
of one, as it falsely asserts, of the three
manufacturers in Belleville reporting a
large increase in the number of men em-
ployed, whilst the third, having become
insolvent from the effects of the anti-N. P.
depression, has again entered into business,
which he certainly would not do unless the
present tariff gave him a better chance of
succeeding than under the former tariff.

The writer goes on to say that the con-
sumer pays under the N. P. "more for his
necessaries and for the fuel he burns," upon
which comment is unnecessary, as the in-
creased cost of fuel the past winter, over
former years, is an unfortunate argument
to use against the N. P. and not in its
favor.

Some time since a few Christian women,
one of whom has since her husband away,
with that kindness of heart and energy
which has made the women of Canada her
glory, inaugurated a home for the friendless
as a refuge for the helpless poor, which
fact has been taken advantage of by our
Grit contemporary, who says the "Home"
is one of the benefits of the N. P. If
such be the facts, many poor will be able
to read that, live at a distance, and may
not be acquainted with the object for which
the Home was established, how much the
class of inmates owe to the infirmities to
the "increased depression," it is only
necessary to state that the Home is oc-
cupied by five old women, two of whom are
bed-ridden, one consumptive woman, de-
serted by her husband, one blind woman,
two old men, and two "deaf and dumb"
children. Finally, it claims its anxiety to belittle
the city of its adoption, if not of its birth,
that landlords cannot get enough to pay
for ordinary "wear and tear." As the
"Innkeepers" are tenants, who says after this
that the N. P. is not beneficial to the mas-
sae? "Free rent!" Houses to be had for
keeping in repair! The realization of
Oatridge's great ambition to make
Canada a cheap country to live in.

Would the writer kindly inform us as to
the exact locality in Belleville where houses
can be had for keeping in repair, as the
landlord is unreasonable enough to still de-
mand his rent regularly!

A MARVELLOUS LIGHT.—An Ottawa report
says: "Col. Parlane of the Public Works
Department, has patented a new light for
marine purposes, which on the shore of
economy throws Edison's electric light into
the shade. Through some chemical pro-
cess he produces an "everlasting light,"
which shines as many hours as it is ex-
posed to the light in day time. One charge
of the "Everlasting Light" will be placed
in a buoy or a ship's mast and will
furnish light. He claims that it will last
for ages, provided it is properly sealed,
without recharging.

The people of Toronto intend to erect a
statue of the late Hon. Geo. Brown in Queen's
Park.

Reaction in Great Britain.

Signal as was the triumph won by the
Liberals in the recent general election in
Great Britain, it does not seem to be of a
lasting character. In fact, the tide of popu-
lar favor seems to have turned, and to be
flowing strongly in favor of the Conserva-
tive party. The first indication of this
change in public opinion was given by the
defeat of a prominent Minister and very
able man, namely Sir William Vernon Har-
court, Home Secretary, who, after accept-
ing office and offering himself for re-election
in the city of Oxford, was defeated by a
majority of 80, although having recently
defeated the same antagonist by 112. This
significant event was made light of by the
press supporting the Gladstone administra-
tion, it being charged that the Conserva-
tives had resorted to bribery, and other
corrupt practices, on an extensive scale;
but so far as we have been able to learn
from English advices there was little if any
foundation for such assertions, which are
not infrequently resorted to by beaten can-
didates and their friends, in order to lessen
the bitterness of defeat. However, another
member of the administration has fared
equally as badly at the hands of his con-
stituents as did Sir Wm. Harcourt, namely
Lord Advocate McLaren, who has been
displaced in the Wigton boroughs by Mr.
Mark Stewart, a Conservative. At Sand-
wich, also, where a vacancy was created by
the elevation of Mr. Knatchbull-Hugessen
(Liberal) to the peerage, the seat was won
by a Conservative, Mr. George Roberts.
Occurring in constituencies far apart, and
these Conservative victories, they are of great
significance as showing that a strong reaction
has already set in, which is likely to result
in disaster to the Liberal Government. The
principal cause of this apparent fickleness of
popular sentiment seems beyond question
to be the Premier's undignified conduct
with regard to Austria. The people of the
British Islands, led the moment to place
their confidence in the Liberal party, have
found that they were to a large extent
mistaken, and at the first opportunity they
have shown that they will not submit to be
humiliated. The warning which they have
thus given to Mr. Gladstone and his col-
leagues is a plain one, and must not be dis-
regarded, otherwise their tenure of office will
be but a brief description, despite the
great majority which they have at their
command in the House of Commons.

The Imperial Parliament.

The Imperial Parliament re-assembled on
the 19th inst., and after formally receiv-
ing the Speech from the Throne. Reference is
made in it to the cordial relations of the
country with the other powers of Europe, and
to the necessity of carrying out the provisions
of the Treaty of Berlin in respect to effectual
reforms and equal laws in Turkey, and the
settlement of territorial questions. Regret
is expressed that the war with Afghanistan
has not yet been concluded, but it is
promised that the efforts of the Government
will be directed towards the pacification of
that country, and the establishment of insti-
tutions to secure the independence of its
people and to restore their friendly relations
with India. The confederation of the South
African Colonies is alluded to, and the de-
sire is expressed that while provision may be
made for the security of the native races, in-
stitutions based on liberal principles of self-
government may be extended to the European
settlers. The state of British finances is
not yet very hopeful, although the im-
ports and exports of the country indicate a
revival of trade. In alluding to the programme
of the session the Speech declares that it is
not the Government's intention to remove the
Paper Preservation Act for Ireland, which
expires on the 1st of June, but rather to
rely upon the loyalty and good sense of
the Irish people for the maintenance of peace and order. The pro-
visions recently enacted for mitigation of the
distress in that country have been serviceable
to that end, and the sufficiency of the advances
authorized is under consideration. It is pro-
posed to renew the Ballot Act to settle the
controversies in respect to burial in church-
yards and cemeteries, to determine the liabil-
ities of employers for accidents sustained by
workmen, and to extend the system of
borough franchise in Ireland.

In the debate on the Address, Sir Stafford
Northcote dwelt upon the heavy responsibility
of allowing the Peace Preservation Act to
lapse, but, on the whole, approved of the
spirit of the Speech.

Meeting of Dairymen.

A meeting of the dairymen of the Counties
of Hastings, Prince Edward and
Northumberland was commenced to-day at
11 a. m. in the City Hall, for the purpose of
considering the propriety of establishing a
regular cheese market for the district.
There were present Messrs. Hugh Strong,
Hilton; John Potter, Mountain View;
T. Walker, Rawdon; John Sprague,
Ameliasburg; Robert Gordon, Tweed; John
B. Fox, Ivanhoe; Alex. Harvey, Ivanhoe;
James Hargreaves, West Huntingdon;
Charles Hudson, R. R. Road; Patrick
Murphy, Stoo; Hartford Ashley, Foxboro;
Francis Brenton, Canifon; Thomas Gra-
ham; Tweed; H. Caniff, Belleville; G.
Graham, Sidney; S. T. Wilmot, Sidney;
T. Hume, Seymour; W. S. Yates, Sidney;
D. B. Solmes, Northport; E. B. Hazard,
Pictou; John Oakley, Madoc; R. Cam-
pion, Marmora; W. Hilton, Marmora;
Morden Bird, Wallbridge; J. S. Knox,
Sidney; Jacob Barrager, Holloway; Alex.
McLaren, Melrose; Geo. Conley, Rawdon;
Donald Auzon, Melrose; D. Douglas,
Warkworth; and B. H. Vandervoort, Sid-
ney.

On motion of Mr. K. Graham, Mr.
Barford Ashley, Warden, was called to the
chair.

Mr. Ashley, on taking the chair, stated
the well understood object of the establish-
ment of a cheese market. He had failed
to attend the meeting called here by the
dairymen of Campbellford earlier in the
season, having forgotten about it until too
late, and he was for them to determine
whether to organize or not. He then read
the rules of the Ingersoll market. The
object of the market was to make rates
public and to keep posted as to cab rates.
Buyers were very quick to discover a fall in
cable, but slow to find out a rise, but by
establishing a market they would have a
secondary on the spot, which would answer
the inquiries of members by telegraph, and

they would be able to get special rates for
their messages and so keep fully informed
as to cable rates, daily if desired. As a
further advantage they had the official
bulletin weekly, which was a great advan-
tage.

Mr. Graham moved that Mr. D. B.
Solmes be appointed to act as Secretary of
the meeting.—Carried.

Mr. Sprague asked how the goods are
represented at the weekly sales?
Mr. Graham responded a resolution ap-
proving the idea of the establishment of a
cheese market in this city, and requesting
the formation of a Committee to carry out
the arrangements.

MORNING DESPATCHES. EUROPEAN.

PARIS, May 21.—The banking house here
offered a large sum to Turkey upon condition
that it should receive the privilege of opening
a canal at Constantinople similar to that at
Suez.

In Aix a man named Cassel and his mistress
were charged with the murder of a young
man's husband and brother-in-law. The
accused woman openly boasts that the whole
male population of the town are her lovers,
and has a number of them among her
witnesses.

DAYTON, O., May 21.—Nixon's paper bag
factory was closed to-day, losing \$40,000.

SARATOGA, N. Y., May 21.—A party of
Drunk Navajo Indians attacked a buck-
board near Bluewater and cut the mail sacks.
The party of a hundred or more broke out
of the Navajo, encouraged by the
success of "Victor's" band. These Indians
are now being whipped by a small number of
troops in the territory and if reinforced by
Navajo 10,000 troops will hardly be able to
subdue them. The two hundred men at-
tributed to them by the military agent whose
removal has been requested.

BALTIMORE, May 21.—Geo. Trust, who
was nearly shot a negro on the street in Nov.
because the latter was a Republican, was
found guilty of manslaughter. Insanity is
pleaded.

NEW YORK, May 21.—Arrived, Celtic from
Liverpool.

At a banquet of the original founders of the
United States Club last night, colored
preacher, Henry Hyland Garner, said that
he occupied a place between General Baily
Smith and Peter Cooper.

A fire at the locomotive works, Paterson,
yesterday caused \$20,000 damage and created
a panic among the mill hands in the neigh-
borhood.

John Leroy Beaumont, claiming to be a son
of Gen. Beaumont, attempted suicide with
landmines last night. This is the fifth at-
tempt.

The inquest in the case of Mary Maher, at
Peekskill, yesterday, resulted in the arrest of
Dr. Vincent Haight, husband of the deceased.
Dr. Mason and Mrs. Gailard, who are charged
with malpractice.

Several new cases of small-pox are re-
ported at Ottawa.

The rate of taxation in St. Catharines
has been fixed at 17 mills on the dollar.

The City of Montreal proposes to tax the
telephone companies at that city \$400 each.

The Edison patent for extracting gold
from mine "tailings" issued to work admirably.

A London township farmer named Alex-
ander McDougall committed suicide by hang-
ing yesterday afternoon.

Rev. A. M. Lennan, Presbyterian Minister,
Amherst Island, died suddenly on the 18th
inst.

The death of Jas. Barber, Sen., of George-
town, paper maker, is announced. He was 69
years of age.

A daughter of Alfred Sawyer, of Lefroy,
Ont., aged three years, fell into a cistern on
the 19th and was drowned.

19,797 tons of coal had been imported
into Toronto up to yesterday, against 7,966
for corresponding period last year.

Warner, one of the prisoners accused of
the theft of the \$15,000 from Mr. McNamee's
Montreal, died on the 20th of black smallpox.

Several boats and sheds in rear of the
Frontenac Hotel, Kingston, were burned on
the 20th inst. A cow and horse were burned.
Loss \$4,000.

Mr. Gorman, a Prince Edward Island
journalist, who sat in the Commons gallery
last session, has received a position in the
Marine and Fisheries Department.

The Montreal volunteer regiments are mak-
ing preparations for the muster at Quebec on
the 24th. The corps that are going are the 1st
Prince of Wales, the 3rd Victoria, the Royal
Scots, the 4th Buffs and the 68th.

Ten carloads of material for making pack-
ing-boxes, technically known as "box-shocks,"
and shipped per Grand Trunk Railway from
Quebec a few days ago for New York, were
detained on the 20th inst., at Route's Point by
the United States customs authorities for
alleged under-valuation. The value of the
detained property has not been ascertained,
but the under-valuation is said to be about 30
per cent.

SAD ACCIDENT.—An accident of pecu-
liar sadness occurred on the evening of
the 20th inst. at the yard of the City Pas-
enger Railway Co. Montreal. A little
girl thirteen years of age, the daughter of
one of the drivers, was sent about a quar-
ter past nine o'clock with her father's sup-
per. The child was driving was moving
fast. She was too near the car and called
to her. "Take care of yourself," but
it was too late, for leaning over to him, she
was just in time to see his daughter drawn
under the last wheel of the car, suffering
fatal injuries from the effect of which she
died in a few hours after.

IN CHANCERY.

RUSSELL V. KENNEDY.
PURSUANT to the Decree made in this
cause, bearing date the 21st day of May,
1880, there will be sold by Public Auction,

MORTGAGE SALE

OR
VALUABLE FARM PROPERTY.

PURSUANT to the power of sale contained
in a certain mortgage which will be pro-
duced at the time of sale, there will be sold
by Public Auction, on
Saturday, the 22nd day of May,
A. D. 1880, at 12 o'clock, noon, at the Court
House in the City of Belleville, by Charles
Wilkins, Auctioneer, all and singular the
south-east quarter of Lot No. 17, in the 6th
concession, in the Township of Hastings,
in the County of Hastings, containing 50 acres,
more or less, and the east half of the south-
west quarter of lot No. 18, in the 7th con-
cession of the said Township, reserving three
acres of the north end of the said last men-
tioned parcel of land, running the full width,
leaving in the said last mentioned parcel
twenty-two acres, more or less.

The above premises are situated about three
miles back of the village of Thornashurst, in
a well settled neighborhood.

There are 50 acres cleared and under cul-
tivation. The remainder is covered with mixed
hard and soft timber, and some cedar. On
the premises there are a frame house and barn,
also good water and a fine fence.

Terms:—One-half down, the balance on
terms to suit the purchaser.
For further particulars enquire of J. G. Van-
duzen, Esq., or the Auctioneer, or to
Messrs. BELL & PONTON,
Vendor's Solicitors, Belleville.

WELLESVILLE, SATURDAY, MAY 21.

Grand Trunk Railway.

The report presented by President Tyler of the Grand Trunk Railway Company at the half-yearly meeting in London, held a few days ago, must have been exceedingly gratifying to the English shareholders, as it is indeed to every Canadian. There is no doubt that a wonderful advance has taken place in the fortunes and prospects of this Railway, and there is also no doubt that this increased prosperity is largely owing to the excellent management of Mr. Hickson, assisted by an able staff of officers. During the six months ending Dec. 31st, 1879, the Railway had earned \$24,168 more than it earned during the corresponding months of 1878, and this notwithstanding the fact that the River du Loup branch, which in the former period had earned \$19,550, had been sold.

The principal increase was owing to freight traffic, and upon this traffic the running expenses are by far the heaviest, yet instead of increasing, the total average of running expenses has been actually reduced to 72.87 per cent. for the present half year against 76.70 per cent. for the corresponding six months of 1878. To show how this favorable result is attributable to the good management of Mr. Hickson, it may be stated that in 1872 the average capacity of the cars was 6.69 tons, while in 1879 it had risen to 6.87 tons, that is, the weight of the load weight, that is, the weight of the cars themselves to the paying freight, was reduced from 1.98 tons per one ton of freight to 1.46 in 1879. This the weight has been materially reduced, while at the same time the carrying capacity of the cars has been increased, and this in addition to rendering them even more safe and more durable.

Passenger traffic shows but little increase during the last six months. In 1879, 2,000,000 passengers were carried one mile, being about the same as the years 1874 and 1876, and about 4,000,000 more than in 1872.

A few years ago the work of relaying the whole line with steel rails was commenced. At present there are 1,131 miles of steel rails, and from thirty to forty miles are added each year, thus reducing the expense of maintenance, which is much less on a steel line.

The western bound freight business is increasing, and as the great North-West keeps filling up with the people of this country and of the old world, there will be greater demands upon the carrying capacity of the Railway, and as a consequence west-bound freights will rapidly increase. During the year 1876, the total number of tons of western freight carried one mile was 66,000,000, and in 1879 it was nearly double, being 120,000,000. The rates obtained by the Company for through freights are much better now than for some years previous.

It was to be expected that the President would refer in encouraging terms to the advantages which the Chicago connection would give the Company, and proper credit is given to Mr. Hickson, who so cleverly conducted this arrangement which led to the control of the Chicago line, from the possession of which the Company very naturally expect to reap large returns.

In view of the important advantages which result from the obtaining of the controlling interest in the Grand Trunk and Chicago line, the large and increasing business of the road, its economical management and its large profits, it is very natural that the value of the stocks of the Grand Trunk Railway Company should have risen greatly. A year ago the value per \$100 share of Grand Trunk Railway stock was \$6.75 to \$6.75 for ordinary, and \$29 to \$30 for first preference. In the last week of last month the former had risen to \$25 and the latter to \$28 or \$29. Or as the President put it, the proprietors of the line are five and a half millions of pounds sterling richer now than they were this time last year.

The traffic receipts for the three months ending March 30th, which the President was able to announce, were even more favorable than those of the preceding half year. The gross receipts for those three months were \$496,000, against \$434,000 for the corresponding three months of 1879, while the working expenses show a decrease in favor of 1880 of \$1,000. The net profit for these three months was \$143,000, against \$80,000 in 1879, or an increase of \$63,000.

At this satisfactory state of things is continuing, we have the weekly traffic statements, which show a large increase in the business. The report for the week ending May 15th, shows that the receipts amounted to no less than \$108,643, as against \$149,454 the corresponding period last year, an increase of \$49,154, and deducting from last year the Riviere du Loup receipts, which are not included this year, the increase is no less than \$63,350. About \$6,000 of this comes under the head of passengers, mails and express, while the remainder is under the head of freight and live stock. The aggregate increase for twenty weeks has been \$587,874.

INDIAN STARVING.—News comes from Winnipeg to the effect that a great number of the North-West Indians are in a state verging on starvation. The principal sufferers are the Blood Indians, the proudest on the plains, who formerly despatched "dog eating" tribes; but now, indeed, the dogs have vanished from their own camps. Many of the Blood tribe are said to have starved to death in the last winter, and strangers for food. It is thought probable that those starving tribes will league themselves with the Sioux, in which case there will be trouble, and that the Indians will be directed against the American settlements.

The Queen's Birthday.

On Monday next, the 60th anniversary of the birthday of Her Majesty Queen Victoria will occur, and will be duly and joyfully celebrated as a public holiday by the residents of the city.

The freemen will hold their annual parade in the morning, when, accompanied by bands, they will turn out in their smartest uniforms, and after being reviewed by the Mayor and City Council on the market square, will have a march through the principal streets.

The chief attraction in the afternoon will be the athletic sports and games at the Agricultural grounds, in which the classes taught in Belleville and Picton respectively by Mr. E. W. Johnston will compete against each other, which part of the programme will doubtless create much interest. There will be competitions open to all amateurs, in which the local youth will find themselves fitted against the competitors from distant places, and the contest between noted professionals for the general championship in athletics will also be productive of a fine display. This programme, which will occupy the entire afternoon, will certainly attract a very large attendance, both from the city and the country.

Excursion trains will be run over the local railways, and the bay steamers will also lower their fares for the occasion, so that it is certain that there will be a large influx of strangers, whose arrival will be timed so that they can be able to witness all the events of the day.

The military will also turn out and make their usual display, so that on the whole the holiday will have plenty of attractions.

The day's proceedings will be wound up by the annual assembly of Independent Home Company No. 2, which will be held in the City Hall. These annual reunions are of the most pleasant character, and due preparation will be made for the reception and entertainment of guests, of whom there will doubtless be a goodly number present.

News Condensed.

The vice-regal party arrived at Quebec on the 20th.

Mrs. Scott-Siddons sails for England on the 26th.

Mrs. Wood, of Huntington, also sails on the 10th.

Ex-Queen Isabella of Spain is to visit England.

Sitting Bull is on his way from Wood Mountain to Winnipeg.

A farmer named Donald Ross hanged himself at Riverside, Ont.

A man named Brown was poisoned by Paris green at London, Ont.

It is said that Mr. C. J. Brydges will take up his residence in Winnipeg.

On the 20th the wooden mills of Mr. Paradis, Laprairie, Quebec, were burned.

Several vessels have been lost in the ice in the Gulf of St. Lawrence.

Three immigrant trains arrived at Montreal on the 20th with 800 passengers.

The train from Montreal to Canada, spent last year in charitable purposes \$10,936.

It is proposed to construct an elevated railway in Montreal, between Hochelaga and St. Henri.

The ship laborers employed by the Allan steamship company, 336 in number, are still on strike.

Mr. John Gray has been appointed a North-west immigrant agent by the Dominion Government.

100 emigrants, principally Scotch and English agriculturists, went west on the 20th en route to Manitoba.

Joseph Flint, a boy aged 11 years, was drowned in Toronto harbor on the 20th by falling off a log.

The death of Mr. John Henderson, for about twenty years a bookseller and stationer of Kingston, took place on the 20th.

Wm. Kelly, a retired hotel keeper of Carleton Place, has sued the Canada Central Railway for \$10,000 for the loss of a hat.

A temperance officer, in drawing attention to an article against ardent spirits in one of his papers, says: "For the effect of intemperance on the body, see our index."

Sir A. T. Galt, Canadian High Commissioner, was one of the speakers at the recent annual meeting of the British Wesleyan Missionary Society, held in Exeter Hall, London.

The Customs officials at Prescott have sold by auction about two hundred yards of fine black silk, and a quantity of cottons and prints which they seized some weeks ago for an infraction of the Customs laws.

The Montreal South-west Colonization railway, having made satisfactory arrangements with an English syndicate for the disposal of their bonds, contemplate beginning active operations in July, 20 miles of the road will be built this season.

The Montreal Post says: "We remember at this time of the year in 1876 that a procession of the unemployed, paraded the streets of Montreal with the red flag, while at present we see a strike for higher wages. Facts are stubborn things."

The Edison Patent, it is reported here, has been found to be substantially the moving gold from the ore at the Bruce Mines, and arrangements are being made to have it used for that purpose. A large number of American speculators from Boston and New York are in Quebec in connection with future mining movements.

To be KNIGHTED.—It is said that several Canadian statesmen will be knighted at Quebec on Monday next, the Queen's birthday. Among the number to be knighted is the name of Hon. Mr. Langens in mentioned, and in this case all parties are agreed that the honor has been fairly earned.

NOVEL GOLD DISCOVERY.—Every day fresh discoveries are being made which go to prove that as a mineral country Canada will soon take the front rank. In the North-West the past year's prospecting has led to the discovery of rich mines of lead, iron and silver, and now comes the news that gold has been found at Fort McLeod, not by the mineral rod of the prospector, but in an entirely novel manner. It seems that a settler, while engaged in killing a cow, found some black gravel and sand in her stomach, which after being washed yielded five dollars worth of gold dust. Great excitement was created among the settlers, who have started out in large bodies to find the gold bearing cow-range, arguing that if a cow can drink in five dollars worth of gold a man ought to make some improvement on it.

Meeting of Dairymen.

(CONTINUED.)

Mr. Ashley said it was not necessary that the cheese be brought to the market, as the dealers would meet on market day and state what cheese they have to sell. The rules do not prohibit selling at any time during the year. According to the last market report of the Ingersoll market on Tuesday, the cable report was not favorable, so that cheese would sell as well as it did after, when the cable was firmer.

Mr. Wilnot said that foreign buyers would not have the advantage of inspecting the cheese before market day.

Mr. Graham moved, seconded by Mr. Wilnot, that in the interest of the dairymen of this section of Eastern Ontario it is exceedingly desirable that a cheese board be organized in the city of Belleville, and that a Committee be appointed by this meeting to carry the arrangements into effect. In speaking to the resolution Mr. Graham read an extract from the *Journal of Commerce* to show the importance of a cheese board to the dairymen of the city of Belleville, and that a Committee be appointed by this meeting to carry the arrangements into effect. In speaking to the resolution Mr. Graham read an extract from the *Journal of Commerce* to show the importance of a cheese board to the dairymen of the city of Belleville, and that a Committee be appointed by this meeting to carry the arrangements into effect.

In speaking to the resolution Mr. Graham read an extract from the *Journal of Commerce* to show the importance of a cheese board to the dairymen of the city of Belleville, and that a Committee be appointed by this meeting to carry the arrangements into effect.

Mr. Graham moved, seconded by Mr. Wilnot, that in the interest of the dairymen of this section of Eastern Ontario it is exceedingly desirable that a cheese board be organized in the city of Belleville, and that a Committee be appointed by this meeting to carry the arrangements into effect. In speaking to the resolution Mr. Graham read an extract from the *Journal of Commerce* to show the importance of a cheese board to the dairymen of the city of Belleville, and that a Committee be appointed by this meeting to carry the arrangements into effect.

MORNING DESPATCHES.

EUROPEAN.

LONDON, May 21.—Bradlaugh, on appearing today to take the oath, Wolff (Conservative) opposed it amid cries of "order." The Speaker said the opposition was unprecedented, but Wolff said he would not be deterred by the cries of "order." Wolff said his opposition was because Bradlaugh is an atheist, and infringed the terms of the oath by his book entitled "Impeachment of the House of Brunswick." Mr. Gladstone moved to refer to a Select Committee the question whether or not a member to take the oath. The debate on the motion was adjourned after a protracted and warm debate.

AMERICAN.

NEW YORK, May 22.—The *Tribune's* Washington special says that Sen. Foraker, at half past 10 last night received from the acting Governor of Nebraska a requisition on the President for troops to quell the Omaha riot. After consultation with the Atty General troops were ordered to Omaha from a force near that city.

NEW YORK, May 22.—Kennedy, who fatally shot Mr. Stokes, of whom he was enamored, May 1st, has recovered from his self-inflicted wound, and held by the grand jury yesterday.

Wm. Lawton, a wealthy man, was convicted of manslaughter yesterday for causing the death of a laborer by running over him with a wagon while furiously driving.

An investigation is demanded in the case of an infant named Johnson, aged 7 months, who died on Thursday from erysipelas, the result of vaccination with bovine matter from the Board of Health.

The new time and place for the Goss-Ryan fight was secretly named by the referee yesterday as New York's place for completing the Brooklyn bridge.

The Sun says Thos. Kinsella, of Brooklyn, was married in Washington on Monday to the daughter of a School Superintendent of Brooklyn. Field some years ago received \$15,000 damages from Kinsella for a criminal conversation with Mrs. Field, which led to the divorce. Field left the \$15,000 in the hands of trustees for the benefit of his divorced wife. Kinsella recently obtained a divorce from his wife in another state.

Margaret McKenn, an aged spinster, who died recently, left an estate of \$13,000. Several bequests of from \$50 to \$100 to Catholic clergymen and institutions.

The body of an unknown man was found in the river on Thursday and was identified last night as that of John J. O'Connell, a native of this city who failed and threatened suicide. Three thousand emigrants arrived yesterday.

A Philadelphia despatch says the Reading Railroad and the Coal and Iron Co. for some time past paid for all the supplies etc., with cable quotations as at present, the latter taken up by eight drafts on the 20th of every month. On Thursday, the usual eight drafts were issued, and the amount, with some other indebtedness, precipitated matters. The total floating indebtedness is about \$5,000,000. First among losers are stock and bond holders. The Reading Company recently issued, which tided the Company over some bad places last winter, and after that the merchants of whom the Company purchased supplies. It is probable that in the reorganization of the Reading and the Coal and Iron Companies will be separated. If the Reading Company now goes to work on full time instead of the about three days a week there will be a bad break in the coal market.

Gowan's predecessor says the primary cause of the collapse is found in the purchase of coal. The result of the failure will cause widespread trouble in the coal fields. Losses by the New York banks are said to be \$1,000,000.

Arrived, Vanderland from Antwerp.

Marine Notes.

Passed down—Schr. Sea Bird, from Trenton for Oswego, with lumber.

Several schooners passed up for Trenton last night.

The sloop *Trio*, stone laden, is water-logged and rests on the bottom at the Grand Junction wharf.

The *Oswego Palladium* says:—"The schooner *David Andrews*, which is being rebuilt by Mitchell & Callagher, will have about \$2,000 expended upon her and her owners will save no necessary expense to make her a good A 2 vessel. She will be an American schooner."

The schr. *Mary Foster* has arrived from Sudas with coal for Rathbun & Son.

The schr. *Trichmontague* has arrived from Oswego, light, and is loading lumber at the Eagle mill.

A Full Assortment at Lowest Prices.

LET THERE BE HARMONY IN THINGS ESSENTIAL—LIBERTY IN THINGS NOT ESSENTIAL—CHARITY IN ALL.

VOL. 14.

BELLEVILLE ONTARIO, TUESDAY, MAY 25, 1880.

NO. 20.

MANHOOD:

HOW LOST, HOW RESTORED

Dr. C. Culverwell's celebrated Essay on the radical and permanent cure of Nervous Debility, Mental and Physical Incapacity, Impotency to Marry, etc., resulting from excess.

Price, in a neat envelope, only 6 cents, or two postage stamps.

The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' successful practice, that alarming disease can be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

This Lecture should be in the hands of every youth and every man in the land.

Address: THE CULVERWELL MEDICAL CO., 41 Ann St., New York.

Post Office box 4556 101v

Daily Intelligencer.

A Canadian Goose.

HISTORY REPEATING ITSELF.

In 1838 a rebellion broke out in Canada, and two battalions of the Coldstream Guards were sent thither to assist in quelling it. Both corps occupied the Island of Quebec, and in their turn supplied the guards that were ordered to be mounted in different parts of the town and neighborhood. Near one of these guards was a farm yard which had suffered much from the ravages of foxes—animals that were at that period a great pest to the colonies. One day the sentry whose duty it was to watch the farm entrance had his attention attracted by an unusual noise, and on looking towards the spot whence it proceeded, he beheld a fine goose fleeing towards him closely pursued by a fox. His first impulse was to have a shot at the latter; but this would have alarmed the guard and brought down punishment on himself for giving a false alarm. He was compelled, therefore, to remain a silent spectator of the scene, while every step brought the coyote nearer to his prey. In the height of its despair the poor bird ran its head and neck between the legs of the soldier in its frantic endeavour to reach the refuge which the sentry-box could afford, and at the same moment the wily fox made a desperate grab at the goose, but too late, for he could not get his head and jaws between the ready bayonet of the sentinel had passed through his body. The poor goose, by way of showing its gratitude to its rescuer, rubbed its head against his legs, and made other equally curious demonstrations of joy; nor could it ever be persuaded to quit the sentry-box, but walked up and down the day after day with each successive sentry that was placed there until the battalion left Canada, when the goose was brought home by the soldier who rescued it to England. The most remarkable thing in connection with the story is that the goose in turn actually saved its rescuer's life. Whether the former knew that the sentry was the same man or not, must, of course, for ever remain a problem; but it so happened that he was on that particular spot again about two months afterwards, when a desperate attempt was made to surprise and kill the unwary sentinel. It was winter time, and although it was a bright, moonlight night, the moon was hidden ever and anon by the sudden clouds that hurried to presage an approaching storm. In these moments of darkness a sharp observer might have noticed the shadows of several tall, dark, and somewhat ungainly figures, who were endeavouring stealthily to approach the post where he stood. Suddenly, he heard, or thought he heard, a strange rustling sound, and flinging his eyes to his shoulder, he saw a dark, scaly figure, who was endeavouring to reach the sentry-box. "Who goes there?" No sound, save the echo of his own voice in the distance, and the sighing of the winter wind among the branches of the trees without the deserted farm-yard, resounded through the night.

Some minutes elapsed, during

Daily Intelligencer.

BELLEVILLE, TUESDAY, MAY 25.

AMERICAN CATTLE TRADE.—The English cattle raisers naturally dislike the introduction of American cattle into their markets. But the facts reported by the Veterinary Department of Great Britain seem to justify the orders in council prohibiting, for the present, the slaughter there of American cattle, sheep, and pigs. Last year the importations of American diseased cattle and sheep as reported to have numbered 207, and those of swine 974. These are small figures in proportion to the total importations, but larger than they ought to be. America's export trade in cattle is already great and growing. The shipments from New York on Wednesday were 3,280 head, the largest in one day ever known.

IMPRESSING MASONIC CEREMONY.—One of the most impressive masonic ceremonies that ever took place was the laying last week the foundation stone of Trinity Cathedral by the Prince of Wales. The ceremony was unusually splendid. The chief features were the grand Masonic rites—the Prince being Grand Master of England—the princely state, the religious rites, which with almost barbaric pomp and glitter marked every phase of the proceedings. Brilliant water added lustre to the scene. Trinity was decorated with flags and triumphal arches with Masonic and loyal mottoes. The Prince, wearing his Masonic robes of purple, heavy with gold embroidery, was received at the Royal pavilion by the Bishop and clergy, clad in their white surplices and scarlet Academic hoods. Members of the Grand Lodge, in their Masonic dresses of crimson, blue, green, and purple, with gold chains and medals, flanked the Prince, and behind them were the white-robed choir, and Choral and Philharmonic Societies.

MURDEROUS ASSAULT.—The "Petersboro" Review of the 22nd says:—On the 21st, Mr. J. Edgar, foreman of Messrs. Rathbun & Sons' drive of saw logs, which are now running down the river, was struck on the head at Young's Point by one of his men. It was feared the wound would be fatal. A messenger was speedily despatched to Lakeside for a doctor, and Dr. Bell at once made his way to the Point.

PRINCE LEOPOLD.

HIS ARRIVAL BY THE "SARDINIAN" AT QUEBEC.

QUEBEC, May 23.—H. R. H. Prince Leopold arrived at the steamship Sardinian at 2:15 this afternoon, attended by Col. McNell, V. C., secretary to the Queen, Hon. A. York, R. H. Collins, esq., Dr. Boyle, Lord Elphinstone, &c. His Royal Highness had an excellent passage, was perfectly well the whole way, and enjoyed himself much. When the steamship reached the point (Her Royal Highness Princes Louise and the Governor-General, attended by Colonel DeWinton, drove down from the Citadel, escorted by a detachment of the Queen's Own Canadian Hussars, to the Queen's Wharf, where "B" Battery was drawn up as a guard of honor. The staff present on the wharf were General Sir Edward Selby Smyth, Colonel Duches, nay, D. A.; Colonel Strange, Commandant, Captain Smith, Mayor Forrest, Colonel Colter, &c.

The Governor and Her Royal Highness embarked on the steam yacht Dolphin, and steamed to the Lévis side, where they boarded the steamship, being received at the gangway by Captain Dutton. On meeting the Prince Her Royal Highness tendered him an affectionate greeting. The united party crossed in the steam yacht back to Quebec, when the Royal salute was fired. After this they drove direct to the Citadel.

—Sir A. T. Galt and Lady Galt had the honor of dining with H. R. H. the Prince of Wales at Marlborough House on Wednesday evening, the 5th inst.

—The Globe printed on Saturday the largest newspaper in British America, sixteen pages, an achievement which the New York Herald considered remarkable.

THE QUEEN'S BIRTHDAY.

Celebration in Belleville.

Loyal Demonstrations—Athletic Games—Fireman's Parade—Incursions and Excursions—Ball, &c.

PARTICULARS OF THE DAY'S PROCEEDINGS.

As is usual on public holidays and days of rejoicing, the small boy race earlier yesterday morning than had the rest of the family, and soon gave vent to the patriotic feelings with which he had been charged almost to bursting during the past few days. The occasion was the 61st anniversary of the birth of Her Majesty Queen Victoria, and the "small boy" took occasion to make morning hideous with the discharge of firecrackers and other fireworks, whilst larger boys soon added to the fun with the loud detonations of powder loaded shot guns and other weapons. These unwelcome noises soon roused the city from sleep, and ere long the din was modified by the sweet strains of the serenading bands, who never forget to visit and serenade a number of the most prominent residents of the city on such occasions. The weather was all that could be desired, the light rain of the previous night having confirmed the laying of the dust as effected by Friday night's and Saturday morning's showers, whilst the sun shone out brightly and warmly. In a word, it was "Queen's weather"—such as is usually prevalent on this auspicious day.

VISITORS.

The first visitors to arrive were those who came from Trenton on the steamer *Yarona*, and they were soon lost in the throng of holiday makers who, even at the early hour of 8 a.m., were abroad. The *Alexandra*, also from Trenton, followed by another party; then succeeded the *Arctura*, from Pictou, and a large crowd; and a little later the train arrived from Madoc, well loaded, and that from Hastings, Campbellford and Stirling came in shortly after noon, with nicely decorated engines and cars. The ordinary means of reaching town were also resorted to very largely, the roads being thronged with rapidly moving vehicles of all description, from the heavy lumber wagon to the neat and tasty phaeton and top-buggy, all well loaded with smiling specimens of humanity; for the drive had been a pleasant one, the air being warm and little or not arising to disturb the serenity of any one. The streets were thickly thronged, and what with the crowds moving about the sidewalks, the flags, banners and streamers thrown to the wind, the loud and sharp report of fireworks and fire-arms, and the strains of music from the bands, the scene was altogether a highly animating and pleasing one.

THE FIREMEN.

The first notable event of the day, and one which annually engages a large share of public attention, was the parade and review of the Fire Brigade.

Previous to the hour appointed for the turn-out, however, a most pleasing and interesting occurrence took place at the handsomely furnished hall of Independent Hose Company No. 2. A delegation of five of the charter members of Active Hose Co. No. 2 of Rochester, N. Y., and which deputation was composed of Messrs. M. H. Lempert, Foreman; J. E. Rauber, 1st Assistant; Jerome Dowd, Joseph Fee and John Baird, had arrived on Saturday evening on a fraternal visit to their old friends of No. 2 of this city. On Monday morning they surprised "our boys" by the presentation to them of a very handsome silver speaking trumpet—one of the finest articles of the kind ever seen here. It has a gold-washed mouthpiece, golden lined bell, and is fringed in beautiful design outside, except in three places, on which appear the following inscriptions: "Independent No. 2, from the old boys of Active Hose Co. 2, Rochester, N. Y., May 24th, 1886," whilst on the third medalion is engraved a good representation of a steam fire engine. The presentation was made by Mr. Fee on behalf of the charter members of his Company, he saying in doing so that the members of the organizations had long been warm friends, and the charter members of Active Hose No. 2 of Rochester offered this token of their friendship to Independent No. 2 of Belleville, with the hope that it would aid in keeping green the memory of their friendship. Capt. Cummins replied in a very neat speech on behalf of Independent No. 2, saying he and his fellow members of the Company had been taken by surprise by the generous gift of their Rochester friends. They would value the present as though it was of its intrinsic worth—so much so that it was valuable and handsome—of the friendly feeling which prompted its bestowal. He alluded to the long-standing friendship between the Companies, and ended by heartily thanking the Rochester friends for their beautiful present. The men of No. 2 have procured brass helmets from the manufacturers in Montreal, with silver plated helmets for the officers, which it may be stated here, present a very handsome appearance.

Another incident, though not of so pleasing a character as that recorded above, took place just at its conclusion. David Bradford's fine team of grey horses, which draw the Merryweather engine to fires, being frightened by the explosion of a bunch of fire-crackers close to them when in front of the engine house, overpowered a boy who had the reins, and bolted at top speed across the upper bridge. They were caught after going about a mile, having sustained no damage beyond the casting of a shoe, and the slight cutting of one of its legs by one horse.

The parade was a really pretty sight—the engines being nicely decked with flowers and their brass works shining like mirrors—the hose carts were also decorated with taste, whilst the neat uniforms of the men and their good physique and marching made up a sight that was well worth witnessing. The Oddfellows' band and that of the 15th Battalion accompanied the procession, and the playing of both was worthy of the admiration that it excited. After proceeding

up and then down street, a halt was made at the market square, where the brigade was reviewed by the Mayor and several members of the Fire Committee, all of whom expressed the opinion that the Fire Brigade of Belleville is a credit to the city. The review over, the march, which was very pleasant, owing to the absence of dust and the prevalence of a good breeze, was resumed, the Companies separating shortly after returning to Front Street.

THE ATHLETIC GAMES.

The hours which elapsed between 11 and 2 o'clock were comparatively uneventful, though hands were parading and demonstrations of various weapons, &c., saluted the ear from all quarters of the city. At about 1:15 a rush set in for the Agricultural Grounds, where a number of amateur and professional gymnasts and athletes were to compete for prizes. The Agricultural hall was thrown open at 2 o'clock, and immediately a large crowd surged in, crowding and crushing until the place was well filled.

The exhibition was commenced with a performance on the tight rope by "Prof. Yates, of New York." Whilst awaiting the appearance of the "Professor," and just as he mounted to the rope, a railing in the south-east corner of the building, on the upper portion, broke, precipitating three men who sat on it from a height of 15 feet to the ground. They alighted, as may be imagined, with no great avoidance, but their fall was broken by some other unfortunate who sat below; still, as it happened, all escaped with very little hurt. Mr. Yates then proceeded with his performance, but as there was not a sufficiency of room for his long balance pole to be manipulated, he was unable to show to advantage. Such performance as he was able to give was, however, of a very inferior grade.

A considerable amount of time was cut to waste, and then the competition for best general gymnast for the Ritchie prizes for seniors and juniors in the Mechanics' Institute classes—a plated butter-dish for the seniors and a plated globe for the juniors—was entered upon, the judges being Messrs. R. M. Roy, Major Gillum, Walter Alford, and C. Peterson. There were about 20 entries, and the result was as follows:

Seniors—H. Wallace.

Juniors—A. Dickens.

Still more time was wasted, and the people were highly impatient, there being an apparent slackness in the management which caused great dissatisfaction. At about 20 minutes to 4 Mr. Johnston appeared, had the ring cleared, and announced the first item, namely:

100 yards dash.—For this there were 6 starters, and the race resulted as follows: 1st—B. Diamond; 2d—H. E. Beasley; 3d—W. Drowry.

220 yards hurdle race.—1st H. Wallace;

2d H. E. Beasley; 3d H. James.

Quarter mile race (open).—1st W. D. Auldjo, Toronto; 2d H. E. Beasley; 3d J. Garratt.

Standing High Jump.—1st H. Wallace

4 ft 7 in.; 2d W. Eves 4 ft 6 in.; 3d J. Forin 4 ft 6 in.

Walking—1 mile.—1st J. Little, Toronto;

2d H. E. Beasley; 3d R. Arnott. Time 8:14.

Infants' Race, 100 yards—1st heat.—1st

W. Leavens; G. Elworthy 2; A. Walker

3. Second heat.—1st S. Lazier; L. Curtis

2; A. Dickens 3. Deciding heat.—W.

Leavens 1; G. Elworthy 2; A. Walker 3.

Running 400 yards (open).—1st, T.

Smith, Cobourg, 18 ft 4 in.; 2d, B. Dia-

mond, 17 ft 9 in.; 3d, W. Eves, 16 ft

6 in.

1 Mile Race (open).—1st W. D. Auldjo;

2d H. E. Beasley; 3d Isaac Wilson. Time

4m. 41s.

Club Springing—2d class.—1st H. James;

2d H. E. Beasley. 3d class.—1st S. Lazier;

2d L. Wolever; 3d A. Dickens. 1st class

—1st W. Eves; 2d J. McMullen.

Tumbling—Juniors.—1st Arthur Dick-

ens; 2d Walter Addison; 3d L. Wole-

ver.

Three-legged race—Juniors.—1st W.

Leavens and S. Lazier; 2nd A. Dickens

and F. Garratt; 3d G. VanAllen and G.

Elworthy. Seniors.—1st H. Wallace and

B. Diamond; 2d H. E. Beasley and H.

James.

Vaulting with pole (boys).—1st A. D.

Robertson; 2d S. Lazier and L. Wole-

ver.

Running high jump.—1st, H. Burdett

(gold medal); 2d, T. M. Smith (Cobourg);

2d, W. Eves; 3d, Jno. Forin. Boys.—1st,

S. Lazier; 2d, G. VanAllen and W. Leav-

ens, a tie.

Vaulting with pole (open).—1st, T. M.

Smith; 2d, John Forin; 3d, W. Eves.

Hitch and Kick (open).—1st, W. Boyd;

2d, H. Wallis and B. Diamond, a tie.

Sack race (junior boys).—1st, S. Lazier;

2d, F. Garratt. 2d class.—1st, H. E. Beas-

ley; 2d, J. James.

Hop, skip and jump (open).—1st, W. Boyd,

Napanee, 43 ft 3 in.; 2d, T. M. Smith, 38

ft 1 in.; 3d, B. Diamond, 37 ft; 4th, W.

Eves, 35 ft 9 in.; 5th, John Forin, 35 ft.

6 in. Second class boys.—1st, H. James,

33 ft 5 in.; 2d, H. E. Beasley, 33 ft 2 in.

despite the utmost efforts of Mr. Johnston and three or four policemen, the ring could not be kept clear, and until the Chief arrived was proper order secured.

EXCURSIONS.

There were several excursions, the *Alma* Gilbert and *Tarima* taking considerable parties to Pictou races, while the ferry steamer *Yarona* voyaged across to Manassauga Point, and numerous private excursions also took place to various points.

ANNUAL ASSEMBLY.

In the City Hall in the evening, Independent Hose Co. No. 2 held their annual assembly, and with a greater abundance of success than formerly. The attendance was very large, the music of the orchestra of the 15th Battalion band, was excellent, and everything passed off as harmoniously and pleasantly as one could desire.

In various parts of the city fireworks were set off and crackers and rockets were also set off promiscuously.

INCIDENTS.

There were in all five runaways, all of which were caused by firecrackers, but as it fortunately happened no serious damage was done.

Drunkness was unusually prevalent, and although the police were as forbearing as possible, they felt obliged to arrest some particularly uproarious men, who were lodged in the cells. There were 15 fights reported to the police, but the officers were able to quell them without great difficulty.

IDYL WILD EXCURSION.

About 120 of our citizens took advantage of the low fare to visit this famed summer resort on Rice Lake. The train left the Station, Pinnacle Street, at 7 a.m. sharp, reaching Hastings about half past nine, where they found the steamer *Kingfisher* two barges, one on each side, nicely covered with evergreens, which made a very pleasant and cool resting place. The number brought up by the train was about 300, which was increased at the steamer to about 500, all of whom seemed to enjoy the trip up the Lake, the scenery and size of the body of water astonishing all who were there for the first time. The steamer *Golden Eye* met them about six miles from Idyl Wild, and being a fine powerful steamer they soon reached their destination, where about 3,000 people, with the Peterborough Fire Brigade Band, were enjoying themselves in the usual picnic style. The principal attraction was the single scull race open to amateurs only, for the Champion Cup, distance 3 miles, 14 miles and return. The cup is indeed a beauty, supported about 23 feet high, by standing by oars crosswise and two anchors resting at the base, surmounted by an carman in racing costume, the whole beautifully inlaid with gold. For this there were the following entries: Messrs. T. Wallace, Gore's Landing; D. Cameron, Wm. Shaw, Dobbin and Brewster, Peterboro'. Cameron broke his car shortly after starting, leaving the race to the other four. Shaw took the lead and kept it, finishing about half a mile ahead of Wallace, the other two being nowhere. The friends of Wallace say his boat weighed 100 lbs., while Shaw's was only 34 lbs. which made the difference in their positions. Shaw pulled a strong steady car, kept up his stroke to 32 to the minute over the whole course finishing in 18:3. Shaw is the maker of his own boat. "The double scull race was not a success. Two crews entered."

Shaw Broke and McLennan and Stoke, all of Peterboro'. The Shaw's car lost gear way and they came back, the others pulling over the course. The water was very bad for sculls.

After this the excursion started for Belleville, reaching here about one o'clock a.m., all glad to get home and expressing themselves very well satisfied with the accommodation furnished by the Railway.

Only one first class car, one baggage car, and one coal car, fixed up in a sort of a way, and into these cars some 300 persons were packed, roasting and almost suffocated with smoke and dust. As Stirling noted more than half the number of those who intended to go to Hastings were able to crowd in and the others went away disappointed. The same thing occurred at every station; it is safe to say 150 at least were left behind, although the officials kindly added another box car at Campbellford.

The steamer *Algonia* was burned to the water's edge, three miles below Iroquois, on the 21st. Crew all saved.

On the 21st two old people named Strades, living in a house owned by John Butler, in that part of the Township of Winchester known as the Boyne, were burned to death.

CITY HALL, BELLEVILLE.

MATINEE AND EVENING, Saturday, May 29th, 1886.

CARD.—As the Metropolitan Hall cannot hereafter be rented for any purpose whatsoever, the management has secured the City Hall, which will be opened to the public on SATURDAY NEXT, MAY 29th, at 10 o'clock, for the purpose of giving a grand entertainment for the benefit of the City Hall.

THE GREAT IDEAL UNCLE TOM'S CABIN CO. AND MYERS SISTER'S COMBINATION.

THE MATINEE will be presented the great MORAN & MURRAY DRAPE.

OUT OF BONDAGE, BY ALICE COLORED ARTISTS, showing the progress of the colored race from Slavery to Freedom, in which the Myers Sisters will introduce selections from all the principal Operas, both in Italian and English, assisted by the great colored Comedians, J. C. LUCAS and the only Chorus of Twenty Voices.

UNCLE TOM'S CABIN will be given in the Evening, with Two Companies combined, all the slave characters being represented by colored people, and the white characters by white people, FOR THE FIRST TIME IN THE WORLD.

Seventy years ago, at a house packed to the doors everywhere. Popular prices, 25, 35, and 60c. Reserved seats for sale at 10c. Admission to Matinee, 10c. Children only 5c. To all parts of the house. Matinee commences at 2:30.

REMOVAL.

J. E. EAKINS, M.D., has removed his office and residence to Corner Hotel and Church Streets.

Belleville, April 30, 1886.

dermentioned places at the hours named:	
For SPRINGFIELD.....	Daily, at 8 a. m., and 2 p. m.
For BRIDGEWATER, TWEED, &c.....	Daily, at 2 p. m.
For TRENTON.....	Daily, at 3 p. m.
For PICTOU.....	Daily, at 3 p. m.

Daily Intelligencer.

BELLEVILLE, TUESDAY, MAY 25.

City and Vicinity.

LOST CHILDREN.—Two children who had

strayed from their homes were found by the police this morning and restored to their parents.

FIRE.—The firemen were called out on

Saturday afternoon by an alarm which proved to have been caused by the burning of the soot in a chimney of the Queen's hotel.

FIRE IN TRENTON.—A house in West

Trenton, owned by the Cumming estate, was set fire by a fire cracker yesterday and totally destroyed. The building is said to have been insured.

YACHT SOLD.—The ten ton sailing

yacht *Goldie*, of Pictou, has been sold to parties in Toronto. She will make a comfortable cruiser but is not very speedy.

PICTOU RACES.—In the hurdle race at

Pictou on the 24th, Jack the Barber, entered by Mr. T. K. Joyly, won second prize. This horse is owned by a gentleman resident in Belleville.

ACCIDENT.—Whist Capt. Michael Mul-

lina, owner of the schooner *John Wiley*, which he has been fitting out, was chopping a piece of board with a hatchet, yesterday he nearly cut off the index finger of his left hand.

GONE HOME.—The gentleman from

Rochester who represented the Fire Department of that city here yesterday, left for home this morning. They formed many friendships in Belleville, and left a highly favorable impression with all in whose society they happened to come.

SALE OF FURNITURE.—Remember the

sale of furniture to-morrow at the residence of Mr. Christie, near the Deaf and Dumb Institute. Sale commences at 12 o'clock. Buses will leave Lake & Jenkins office at one o'clock sharp, and as often during the afternoon as may be required.

PERSONAL.—Mr. Henry Corby, jr.,

reached home last night, having visited Halifax, St. John and Prince Edward Island. Mr. G. A. Simpson, D. P. L. S., left Winnipeg on the 19th inst. in charge of a Government surveying party. His field of operations is 1,100 miles distant from the capital of the Prairie Province.

No. 1 Co. 49th BATTALION.—Owing to

a number of the members of the corps, who are firemen, turning out with the fire brigade for inspection by the Mayor and Council yesterday, the Company only mustered some 25 members, and so did not fire the accustomed *feu de joie*.

INCIDENT FIRE.—Yesterday morning

shortly after 10 o'clock, smoke was seen issuing from a window in Ald. St. Charles' carriage factory. Entry to the premises was at once made, and the smoke was found to be caused by a fire which had been created by a fire-cracker. A few pails of water extinguished the incipient conflagration.

FATAL HORSE DISEASE.—In the township

of Sophiasburg, in the County of Prince Edward, a horse disease known as the "glanders," is now prevailing to an alarming extent. Already four horses have been so badly attacked with it that by the order of a veterinarian they were shot. Two of them were owned by Donald Murphy and two by Charles Howe. The disease is a dangerous one, and unless active measures are taken for its prevention it will be productive of a large fatality among the horses of the township.

UNCLE TOM'S CABIN.—This ever popular

drama will be presented by Messrs. Hathaway and Pond's Boston Ideal Company on Saturday afternoon and night in the City Hall. The Danielsonville (Conn.) *Sentinel* says of it: "The entertainment of the Hyers Sisters, on Saturday evening, was a very fine representation of this well-known play. Sam Lucas gave the finest and most perfect rendition of Uncle Tom that has ever been seen in this place. The others took their parts in an excellent manner, and so well that we could not particularize further without reproducing the entire cast."

The CRICKET GROUND.—The Belleville Cricket Club are now possessed of one of the finest grounds in the country. Near the centre of the lot, from which a large quantity of stone has been removed, a crease 100 ft. by 80 ft. has been formed by removing the old earth to the depth of 4 ft. filling in with clay and sodding. This is enclosed by a wire fence. On the west side of the grounds a high board fence has been put up, whilst on the south and east sides a rail fence has been built, the whole forming a nice and conveniently situated enclosure.

Police Court.

(Before A. Diamond, P. M.)

TUESDAY, MAY 25.

DUNK.

John Hannah, \$1 and costs; Hugh Monahan, remanded for a week; Lloyd Burdon, Michael Kennedy, Frank Hawkins discharged; James McDougall, Wilson Fulton and John Armstrong, \$1 each and costs; John Hunt, carpenter, remanded for a week.

THE FISHERY LAW.

Several fishermen were charged by the Overseer with contravening the fishery law by catching pickered in the Trent out of season. The result was as follows: James Daven, \$10 and costs; Moses Wood, adjourned for one week; John Patrick, fined \$10 and costs; Julius Baker, acquitted.

Marmora Correspondence.

B. Hopson, who was engaged a few weeks ago in a severe pugilistic battle with Mr. Stanlick, has for various charges been since immured within gloomy prison walls, where he will be away from the scenes of his life repeated and favorite practice of boxing matches.

Mining does not appear to be carried on at present as vigorously as it was a few months ago, although a few men are still employed in the Duffin and Galling mines. Great improvements and additional machinery have been added to the Stewart crusher. A substantial and capacious furnace has been built, at the estimated cost of \$2,000. A commodious shed has also been built to protect it, by W. Deacon and E. W. Campion. A large amount of concentrated crushed ore is ready for roasting, which is said to yield about \$80 to the ton. It is said to require about 4 tons of crude lead to bring out of the former. A large quantity of arsenic is extracted also from the ore.

We often hear of money being scarce,—yet it seems O. McMullen, the proprietor of the Malone hotel, can hardly choose that statement, as in five days he took in, it appears, no less than \$100, even in so small a village. But then of course mining is thirty times in this warm weather, and that may account for the large amount of a barrel of beer going down so many dusty throats in a few days.

A mine has been opened on the Penberon place, which was bought a short time ago at a mortgage sale for a small amount, but now it seems gold has been found there, and the property may return seven fold what was paid for it.

About fifty acres of O. Devine's place has been bought by Mr. D. Stewart for mining purposes for about \$300.00, and seems to turn out favorably.

Ague, measles, and whooping-cough are now prevalent in Marmora; the two former assume the form in Madoe of an epidemic, especially with the young, and the solemn tolling of the bell often warns the living that the spirit of another of their number has left this mundane sphere, we trust for a better world.

The weather has been very warm this week, but last week some cold days, with frosts at night occurred, which were expected to be unpleasant in their effects on fruit trees, but they seem to have survived.

A concert is to be held in St. Paul's Church on May 24th, for the benefit of the organ fund.

A social was held in Jones' School House on the 14th ult.

The Court of Revision was held on the 17th ult., and some farmers were successful in obtaining a considerable reduction in the amount of their assessment.

The cheese factories are now driving business at a lively rate and on a large scale.

MARMORA, May 22.

A legal contest is going on between Dale Carpenter & Loucks as to who has the prior claim to the asbestos mine which the latter claims to have discovered on his place. Dale, however, maintains that he was the original discoverer. They have had one trial and the case has been deferred for a short time.

Mr. W. Deacon is now waiting to obtain a purchase for the gold mine which he has opened on his place.

Lead, it appears, has been found on the farm of Mr. J. Wells.

Mr. Robinson is hauling iron ore from the Duffin mine to Thompson's crossing, Madoe. The Sovereign crusher at Malone, it is said, this summer will resume business.

Mr. James Wiggins has arrived in Winnipeg and Mr. R. Haughton in Marquette, Manitoba, and they seem well pleased with those localities, both as regards the soil, and climate, &c. It is a pleasure to see the increasing loyalty which so many are now evincing in preferring the North-West as the site of their future home, where they can have the benefit of British law and institutions and rejoice to see the Union Jack waving over their heads, proud to identify in the banner, and not have to submit to a Republican government or have to flag but the Stars and Stripes.

A furious storm of rain, accompanied by a gale which almost blew a hurricane, burst over on the 20th inst., hurling furies down for hundreds of feet in distance—such a storm has not been experienced here for many years; however the rain was much needed and crops in general are much improved by it.

Messrs. Briggs & Sons are doing a large and successful business in the manufacture of cheese boxes which they make very neatly and substantially.

The weather has been very warm lately, but the roads at night have not been very dry, &c., down, however not very extensive ly.

Moquitoes are quite abundant now and give rather unpleasant tokens of their presence, especially to the engaged laborer as he endeavors to sink into the arms of Morpheus.

The proposed concert of St. Paul's Church has been deferred for the present.

Gold has been discovered near the farm of Mr. John Quinn in an old abandoned mine which was worked during the last gold excitement in 1867. He has offered the sum of \$5,000 for the six acres of land surrounding the mine by Mr. Stewart, if after a fair trial it should prove sufficiently remunerative. Mr. W. Campion, it seems, was the fortunate discoverer of the precious metal in the present instance, and contemplates becoming a shareholder if the ore proves as good as it promises to be so far.

News Condensed.

—Carlyle is said to be rapidly failing.

—Col. Osborne Smith left Ottawa for Winnipeg on the 24th inst.

—The Montreal Post has announced its suspension.

—The National Republican Convention opens in Chicago next week.

Toronto, Ont., Canada

GENERAL DEBILITY
Dyspepsia, Bronchitis, Loss of
petite, Nervous Prostration,
Asthenia, and the like,
IN ITS FINEST AND SWEETEST STAGES,
CURED BY THE USE OF
Fello's Compound Syrup
Hypophosphites.

As this preparation is entirely different in combination and effect from all other drugs called Hypophosphites, the public are warned that the genuine has the name of Fello's

[illegible]

mind, that was a very bad case and I fully believe that had I not given it to me, I should have been a long time in the world heartily and is gaining in flesh the fair patient and the action of the heart is terrible. I feel, this year very well.

Northport, Wis., May 18, 1891.

Sir:—I have been using your medicine ever a year now and with the best effect. I used to get bottles of medicine and have made a new man of me, I have been over six years with a number of diseases and my was the worst. I have been under the care of a great many Doctors have taken quantities of medicine with no benefit, and I have been growing weaker and weaker until I accident across one of your circulars and was cured of my lung medicine. I am now almost magical, upon me and I was a myself and friends, having gained so much.

I remain respectfully,
D. WALTER

MORNING DESPATCHES.

AMERICAN.

LEADVILLE, May 27th.—2,700 miners have struck. They held a meeting and visited the mines, compelling other men to quit the work.

LEADVILLE, (late).—Not a man is at work at any of the mines. It is estimated that 5,000 men are participating in the movement, which perhaps 3,000 other miners are quietly at their homes. All the prominent miners are strongly opposed. The excitement is feverish. Mich' Moore, a Molly Maguire from Pennsylvania, is at the head of the movement.

LEADVILLE, Ks., May 27.—Thomas C. Thurston, who killed his business partner in January and was acquitted about a month ago, met D. R. Anthony, editor of the Times, on the street yesterday and fired two shots at him, one of which struck a young man in the Times office, making a severe scalp wound, and the other struck Lucien Baker, a lawyer, in the left side and passed through his body.

Physicians think he may recover. Baker is a prominent attorney and cleared Thurston when tried for murder. The officers are obliged to accede to Thurston to prevent summary punishment.

DENVER, May 27.—Reports from Santa Fe state that on the 24th a sharp battle occurred between Victoria Indians and a portion of Gen. Hatch's command on the headwaters of the Rio Grande. From 30 to 40 Indians were killed. The battle occurred at daylight. The troops after marching all night, came suddenly upon the Indians encamped; the Indians taken slightly by surprise, were soon disconcerted and fled in disorder. No information as to loss to troops. The bodies of several Navajo and Comanche were found, showing that these Indians have been co-operating with the hostile Apaches.

Reports from the western and southern lines of New Mexico concerning the Indian depredations and murder of herders continue to arrive. Many small settlements must be abandoned.

NEW YORK, May 27.—The Herald's cable says the London Stock Exchange was buoyant yesterday. All American railways rose considerably.

The Tribune's Chicago despatch says that everything indicates the Convention will be long, but not tedious. Logan repudiates the assertion that he telegraphed Pinkerton to bolt at New Orleans, and guaranteed the admission of bluffers.

The Tribune's Washington special says that Senator Hamlin leaves for Chicago to-day as Blaine's personal friend and representative.

Riley said after the race that his boat was not fit to row, and gave way under him at every stroke. This accounted for his wild steering. Riley admitted that Hanlan would have beaten him even if he had not broken his foot-brace. Riley thinks he will beat Hanlan yet.

The Herald's San Francisco intimates that Kalkoff's impeachment trial will result against him.

Yesterday Kearney's counsel received a telegram that the agitator has been triumphant before the Supreme Court at Sacramento, and that an order would be immediately issued for his release from the house of correction.

NEW YORK, May 27.—Arrived, the Saragossa, from Liverpool.

Alexander Wild, a passenger on 3rd Avenue Railroad, yesterday was wounded perhaps mortally, by a stray ball from a lad's toy pistol.

The Pacific Mail Steamship Company has passed formally into the hands of Gould and the Union Pacific railway company at the annual meeting yesterday.

At the Trunk Line meeting yesterday it was decided not to reduce the eastbound rates at present.

The Western Union Co. has asked for an injunction to prevent the American Union Co. using the duplex telegraph machine patented by the electrician of the Western Union Co.

There were several cases of sunstroke in and about New York yesterday.

THE AUSTRALIAN CATTLE TRADE.—The question of exporting frozen meat is occupying the attention of all the Australian colonies. According to an official statement recently made, there are 6,000,000 sheep and 3,000,000 head of cattle in Queensland alone. This, it is calculated, would allow, after the home consumption had been taken into account, of a weekly exportation of 2,000 tons. Refrigerating works are being erected, and arrangements are being made for shipping to suit the requirements of the trade.

MANHOOD: HOW LOST, HOW RESTORED

We have recently published a new edition of Dr. Culverwell's Celebrated Essay on the radical and permanent cure (without medicine) of Nervous Debility, Mental and Physical Infirmities, Impediments to Marriage, etc., resulting from excess.

Price, in a sealed envelope, only 6 cents, or two postage stamps. The published edition, in this admirable form, is so arranged that, without the aid of a physician, the application of the knife, or the use of any other simple, certain and effective, but his condition may be, may cure himself cheaply, privately and radically.

This Lecture should be in the hands of every youth and every man in the land.

Prince Edward Island; now in Cape Breton; now in some western Nova Scotia county; always active, always eloquent, always powerful, and always successful—Sir Charles Tupper in five years exhibited almost a lifetime of activity. Few individuals contributed so much to the success of the Liberal Cause as the Minister of Railways has the management of three important departments of the public service—the Pacific Railway, the International Railway, and the Canada—each of which depends the solution of a great problem for the future of Canada—viz., the opening up of the far west; the preservation of the grain trade; the establishment of permanent and profitable inter-provincial trade. Successful during a quarter of a century of active life in most things which his hand was put, and his heart given; successful already, so far as time has been given him, in accomplishing in part, two of the great problems before him; who can doubt that if Providence gives him time and strength, as the people will give him, and himself power, he will accomplish all to which his hand has been set, and will add new lustre by his labors to the second Dominion Administration of Sir John Macdonald.

BELLEVEILLE, FRIDAY, MAY 28.

Unfair Competition.

The manufacturers of the United States were, under the late Government, able to crush out our struggling industries, so as to retain Canada as a market for them, but since the inauguration of the National Policy they have been shut out, and our manufacturing interest is rapidly assuming larger proportions. Still the American manufacturers evidently do not intend to allow our markets to slip through their fingers without a struggle.

The Globe says that in a few cases the prices of American manufactured goods are cut for Canada, but the fact is that there is scarcely a line of American manufactured goods that has not a special Canadian price list. The following copy of a special price list of an American manufacturer will show what strenuous efforts are being made to crush out our factories, which purpose once accomplished, the price would again rebound to the old figures, when we would be paying for goods manufactured in the States the same price as is now paid for goods manufactured at home with all the attendant advantage of home manufactures.

"SPECIAL EXPORTATION PRICE LIST."
Having carefully examined the catalogues of our Canadian competitors, and having a great desire to supply our many friends in the Dominion, we now offer the following special numbers at prices which speak for themselves.

The above circular is a specimen of the special price list of American manufacturers to the Canadian customers in which they offer instead of the regular 33 1/2 per cent discount, to sell to Canadian customers at 60 per cent special discount, or a difference of nearly 17 per cent.

SIR JOHN MACDONALD'S POLITICAL MISDEEDS.—In connection with Lord Beaconsfield's literary pursuit in his retirement the Mail says: "We have had a reason at least for suspecting that Sir John Macdonald contemplates some collection of the political memoirs of his time in such leisure as politics may allow him to have."

THE GLOBE AND THE SENATE.—The Toronto Telegram says:—"The Globe is evidently trying to fulfill its promise to be a Liberal paper by abandoning its own policy and taking Liberal measures. The reform of the Senate is eminently a Liberal measure, having been opposed by the Globe, tooth and nail, for years, is now adopted by that journal as a plank in the new platform. It looks odd, to be sure, to see the Globe swallowing itself in this fashion, after declaring that the poor tools who were agitating for a reform of the Senate were 'meagrely educated schoolmasters, afflicted with 'midsummer madness.'"

CHANGES AMONG RAILWAY OFFICIALS.—It is said that Mr. Sandford Fleming, C. E., has been Consulting Engineer of the Pacific Railway instead of Chief Engineer, and that Mr. Collingwood Schreiber has become Chief Engineer in Mr. Fleming's place. Mr. Fleming resumes his old position as Chief Engineer of the Intercolonial in order to settle up some unfinished business for which his certificate is necessary by statute.

TORONTO AND OTTAWA RAILWAY.—An Ottawa report says that Mr. Gooderham, of the firm of Gooderham & Worts, was in the city yesterday on business with the Government. Mr. Gooderham recently purchased the charter of the Toronto and Ottawa Railway. In conversation with a reporter he stated that there was a probability of the road being commenced this summer. The firm own the Nipissing Railway, and their primary object in securing the charter was in the interest of that road. A meeting of the shareholders of the Toronto and Ottawa Railway has been called for the first time at Peterborough, where the project will be fully discussed. Mr. Gooderham will then make propositions.

TO CANADA FOR SPORT.—The Montreal Witness says:—"Year by year the cool, fish-abounding streams of Canada are being sought more and more by distinguished visitors from the United States and Europe. At Metapedia a party of American gentlemen have purchased the property of Mr. Fraser, consisting of a hotel, with fishing privileges, at a cost of some \$30,000, and will establish a club house there during the summer. A party of American sportsmen who arrived here a few days ago, said they were shortly for the Saguenay. The Hon. Charles Ellis, of England, and Lord Elphinstone, it is said, fish at Mingan, an Indian village on the north shore of the St. Lawrence.

News Condensed.

—The Hull's live fund amounts to \$19,635.44.
—\$1,600 cattle were received at Chicago on the 27th.
—On the 27th, 615,000 bushels of grain were received at Chicago.
—Fortin, the Ottawa big game, has been committed for trial.
—The latest wonder in Halifax is the birth of a calf without eyes or tail.
—Six thousand five hundred and eight tons of coal were shipped from Pictou last week.

—Fall wheat is headed out in the vicinity of Hamilton, being fully a week earlier than usual.
—Mr. Collingwood Schreiber, Chief Engineer of the Canada Pacific Railway, has left for Winnipeg.
—A party of 55 families, including several from Scotland, started from Toronto for Manitoba yesterday.
—A. P. Macdonald, contractor Canadian Pacific Railway, is advertising for 1000 laborers to go to British Columbia.
—Thomas Garrett, Bookkeeper of the Dominion Type Foundry, Montreal has levanted with a shortage in accounts of \$200.
—The Lord Lieutenant of Ireland made his State entry into Dublin yesterday, and was enthusiastically received.

—Sir John A. Macdonald went to Toronto yesterday. On his return to Ottawa he will go to Orchard Beach for a brief holiday.
—The ship-strikers boarded the *Alban* steamers on the 27th and compelled 50 *Alban* boats to abandon their work. The police made two arrests.
—Mr. J. T. Brill, of Guelph city, has received an order for three cars of butter and six cars of eggs, to be shipped to South Africa in September.
—The Intercolonial Railway receipts at Halifax station for the first four months of 1880 show an increase of \$80,447 over the corresponding period last year.

—Rev. Wm. Arthur M. A. and Rev. Wal. McMillan, representatives of the British Methodist Church to the M. E. Church U.S., are in Toronto.
—Large quantities of lumber are now passing over the Canada Central Railway. Yesterday 70 freight cars reached Brookville. This is said to be no unusual thing.
—It is said that the Pope will accept Bismarck's proposed measure amending the May Laws, and that instructions to this effect have been sent to the Papal Nuncio at Vienna.

—Another robbery of letters has occurred in the Post-Office Montreal, committed, it is believed, by a recent appointee. Thirty letters were found upon him, and he is under arrest.

—A solution of the Albanian difficulty, which is supposed to have the approval of Germany, is the sanction of the autonomy of Albania under a native prince doing homage to the Sultan as a sovereign.
—Three bonuses amounting to \$15,000 have been voted to the Toronto, Grey & Bruce railway under its new scheme. Voting will take place on two more, one for \$15,000 and another for \$8,000 before the end of the month.

—Mrs. Macpherson and Miss Isabel Macpherson, wife and daughter of the Hon. D. L. Macpherson, of Toronto, were among those in attendance at Her Majesty's recent drawing room at Buckingham Palace, London.

—Major Greig, Noah Barnhart, G. D'Arcy Boulton and Walter Townsend, of Toronto, were injured by the upsetting of a cab in Hamilton, the former very seriously, having his nose broken, head cut, and injured internally.

—A comparative statement regarding the number of vacant houses in Ottawa shows that there has been a decrease of ninety this quarter as compared with the previous quarter, and yet some people say emigration is depopulating the capital.

—The appearance of the wheat crop in France and England is all that could be desired, and if the promised yield is realized, it is computed that competition with the United States will reduce the price £1 per quarter. This means a saving to England and France together of £20,000,000 sterling.

—Sir Charles Dilke in the House of Commons yesterday, stated that the Government were desirous of offering their friendly services to restore peace between Chili and Peru, but that hitherto their overtures had been ineffectual. A correspondence is going on with other Governments in relation to the matter.

MONEY-ORDER SYSTEM.—A new arrangement has been entered into between the American and Canadian postal authorities by which the exchange of money-orders between the two countries has been much simplified and the cost reduced. The system is similar to the new arrangement with England.

RETURNED.—The *Winning Times* says: "Mr. Rowe, of the *Times*, returned with his wife and family to the city last evening, having gone as far as Chicago to meet them on their journey from Ottawa. Miss Howell, daughter of Hon. Mackenzie Bowell, Minister of Customs, accompanied them, and will be the guest of Mr. and Mrs. Rowe during her stay in Winnipeg."

PREBYTERIANISM.—The General Assembly of the Presbyterian Church of the United States, which met at Saratoga last year, convened in Madison, Wis., last week. It consists of nearly 600 delegates, ministers and elders, from the 38 synods of the country, which included 179 presbyteries. The strength of the denomination may be known by a few figures. In 1879 there were 5,416 churches, 4,988 ministers, 374,496 communicants, and 614,774 Sunday School members. To support these churches \$6,811,768 was contributed by their congregations, while to home missions \$390,683 was given, and to foreign missions \$361,668. For all purposes the amount of money raised aggregated \$6,269,019. In the care of the denomination are 13 theological seminaries, with 334 students for the year, and 161 were graduated. The consideration of all these interests come within the scope of the General Assembly. One of the most important subjects to come up during this session will be the report of the committee appointed in 1878 to revise the form of government and book discipline. The assembly will probably remain in session about two weeks.

MORNING DESPATCHES.

AMERICAN.

LEADVILLE, May 28.—The mine superintendents have resolved to refuse the strikers' demands. The indications are that the strikers are weak.

NEW BRUNSWICK, N. J., May 28.—Social circles were excited over the crime of murder on Wednesday night from the handsome residence of S. C. Ballard, a prominent grocer. Mrs. Ballard subsequently appeared on the roof and clambered to a neighboring house, whence she descended declaring her husband had beaten her. The husband states that his wife is demented and beat herself.

PHILADELPHIA, May 28.—The *Times* CHP special agent says the fight is over, and a unit rule will begin on Monday, when a temporary chairman will be named by the National committee. The Blues and Sherman men will combine upon a man who will not decide against the right of individuals to vote as they please. Further than this there will be no coalition.

NEW YORK, May 28.—Elizabeth Williams commenced a suit for divorce in Brooklyn yesterday against John Williams, Metropolitan minister, of Jamaica, whom she charged with immorality and drunkenness, and denied the alleged ill-treatment.

MAMIE TULLIS, aged 16, said to be a daughter of wealthy parents in Easton, Pa., ran away from home recently and died in Jersey City hospital last night from fever.

SARAH BUSKLEY, aged 21, of Williamsburg, was burned to death yesterday by an explosion of kerosene which was pouring upon a smoldering fire.

MISS LULA PUMPKIN was seriously burned at Sing Sing last night by the explosion of a kerosene lamp which she was lighting. The house was also damaged by fire.

WALTER WALL, a wealthy young resident of Paterson and a good swimmer, had a fit while bathing yesterday, and was drowned. This makes five cases of drowning in Paterson within a week.

A woman and child were seriously burned at East 26th st. yesterday by an explosion of a kerosene lamp.

The conference of Coal Companies yesterday decided not to advance prices at present. A special meeting may be called in July if the advance is warranted.

Yesterday was the hottest day in May. Deaths in this vicinity directly due to heat were ten recorded—seven in this city, one in Brooklyn and two in Jersey City. Slightly cooler this morning.

Michael Maher, employed at Castle Garden, found \$600 which had been lost by a Swedish emigrant yesterday, and returned it. She begged and kissed him ten minutes, then gave him half a dollar.

THE WIMBLEDON TEAM.

THE MEN WHO ARE SELECTED—THE PROVINCES WELL REPRESENTED.

OTTAWA, May 20.—The Wimbledon team has been selected, and will be made up as follows:—Wheeler O'Grady, Wellington Field Battery; Capt. Barnhill, 78th Regiment, Nova Scotia; Private O'Grady, Goyernor-General's Foot Guards; P. C. Walters, Wakefield Infantry Company, Quebec; Lieut. Mills, 10th Royals, Toronto; Captain Strachan, 47th Battalion; Captain Todd, Governor-General's Foot Guards; Private McIntyre, Kildonan Infantry Company, Manitoba; Sergeant McDougall, Charlotteville, P. E. I., Engineers; Private Kent, Cumberland, N. J., Provincials; Private A. W. Graham, 25th Battalion; Major Wilson, 23rd Battalion; Major Gies, Wakefield Infantry Company, Quebec; Sergeant Macdonald, Prince of Wales Rifles; Sergeant Private F. Graham, 25th Battalion; Sergeant Harris, Halifax Garrison Artillery; Private Howland, Kildonan Infantry Company, Manitoba; Sergeant Sutherland, Governor-General's Foot Guards; Sergeant Baillie, 47th Battalion; Private Sargisson, No. 2 Company, Victoria, B. C. The provinces are represented as follows:—Ontario, 11; Quebec, 2; Nova Scotia, 3; Manitoba, 2; British Columbia, 1; Prince Edward Island, 1. Total, 21.

CHEESE NOTES.

The Montreal *Globe* of the 27th says: "The tendency appears to be toward a gain of strength, on choice cheese. The cable is up to 69¢, advice from the interior speak of some pretty full rates already paid, and it is thought that if strictly choice were here it could be sold without difficulty at full former rates, and some factories are understood to have been engaged at 12¢. On the medium lower grade the feeling is slow and unsettled, but there appears to be no gain of tone."

RELIGION IN ENGLAND.—According to the Registrar-General's returns, it appears that there are altogether upwards of 120 religious denominations in Great Britain. Of non-conformists, the most numerous and influential are the Wesleyan Methodists, the Congregationalists or Independents, and the Baptists. The first of these (excluding the Unitarian and new connection Methodists) are said to have more than 8,000 places of worship. Those of the Independents are set down at 3,500, and those of the Baptists at 2,000. The Presbyterians and Unitarians and the Quakers come next in influence. It is estimated that the population of England and Wales, in connection with the Established Church, is about 13,500,000, while that of all other creeds together, makes a total of 11,000,000. A million and a half added to the other side would, according to the estimate, place the Church of England in a minority. The Dissenters from the Church of Scotland are said to number more than a half, some say as much as two-thirds of the population of that country.

THE NEW COMET.—Professor Newcomb, writing to the *Tribune* concerning Schaeberle's comet, discovered at Ann Arbor, Mich., April 26th, says: "The comet is growing fainter and will be in the stars' eye on June 10th. It will emerge again about the middle of July, and will then grow brighter until October, when it is at its likely to become visible to the naked eye. From July until September it will only be visible in the east and after midnight. During October and November it will be in the stars' eye and therefore be remarkable for a long period of visibility. The elements seem to show," says Prof. Newcomb, "that it is not identical with any other previous known comet."

Police Court.

(Before A. Diamond, P. M.)
FRIDAY, MAY 28.
DUNKIN.

Charles McLean, first offense, was discharged.

Marine Notes.

Passed up—*Schr. Sea Bird*, from Oswego, for Trenton, light.

A schooner from Trenton, 100 laden, passed down yesterday afternoon.

Arrived—*Schr. Mary Taylor*, Oswego, light. (Shot of loaded, bearded boats, at the Grand Junction wharf. *Schr. Tremont*, Oswego, from Oswego, is loading lumber at the Eagle mill.

The steam barge *Indian* passed up last night from Kingston for Trenton, light.

TO WHOM IT MAY CONCERN.

TAKE NOTICE, that the Council of the Corporation of the County of Hastings will meet at the Sheriff Hall in Belleville, on TUESDAY, the Eighth Day of June 1880.

At the hour of 2 p. m., for organization and the despatch of general business.

All parties having accounts against the Corporation, are requested to hand them in not later than the second morning of the Session. By order.

J. T. BELL, Co. Clerk, C. H. Shire Hall, Belleville, May 17th, 1880. 3d&wt

D. B. Perrin & Co.'s

J. E. EAKINS, M.D., has removed his office and residence to Corner Hotel and Church Streets.
Belleville, April 30, 1880.

MORTGAGE SALE
OF
VALUABLE FARM PROPERTY.

IN PURSUANCE of the power of sale contained in a certain mortgage, which will be produced at the time of sale, there will be sold by Public Auction on

Saturday, the 5th day of June, A. D. 1880,

at the Court House in the City of Belleville, by Charles Wilkins, Auctioneer, the following valuable farm lands:

PARCEL I.—Being composed of the west half of the south half of lot number 13 in the 6th concession of the Township of Tyndine, and County of Hastings.

PARCEL II.—Being the east half of the north half of lot number 16, in the 6th concession of the Township of Tyndine, and County of Hastings.

Each lot contains 50 acres.

Parcel one has about 5 acres under cultivation, the remainder being wood land, all well fenced.

Parcel II is entirely under cultivation, and on it there is a good Frame House 24x36, and a barn 36x48, and a well.

The land is a Clay Loam, near a Church, Post Office and School House. It is situated 9 miles from Belleville and 15 miles from Trenton, and will be sold at a bargain. Title indisputable. For further particulars, and for terms and conditions of application, Messrs. BELL & PONTON, Vendor's Solicitors, wtd&wt

Belleville, April 30, 1880.

MORTGAGE SALE

VALUABLE FARM PROPERTY.

UNDER and by virtue of the power of sale contained in a certain mortgage, which will be produced at the time of sale, there will be sold by Public Auction on

Saturday, the 29th day of May, next, at 12 o'clock, noon, by Charles Wilkins, Auctioneer, at the Court House in the City of Belleville, the following valuable freehold property:

The west three quarters of Lot number 3, in the 1st concession of the Township of Hastings, containing 120 acres, more or less. 100 acres of the said land are cleared and under cultivation. The soil is clay loam. On the premises are a frame house 24x30, a frame barn 30x50, two sheds 20x30, and a drive-house 18x24. The place is well watered. It lies about 15 miles from Belleville. The whole will be sold at a bargain.

Terms and conditions made known at time of sale, or in the meantime on application to Messrs. BELL & PONTON, Vendor's Solicitors, d&wt

Belleville, April 27, 1880.

Daily Intelligence

LET THERE BE HARMONY IN THINGS ESSENTIAL—LIBERALITY IN THINGS NOT ESSENTIAL—CHARITY IN ALL.

VOL. 14.

BELLEVILLE ONTARIO, SATURDAY, MAY 29, 1880.

NO. 24.

Gold Flake Cut Plug Smoking.

MANUFACTURED BY GLOBE TOBACCO COMPANY, WINDSOR, Ont.

GOLD FLAKE CUT PLUG

ITS MERITS

We claim that this is the best Smoking Tobacco ever produced in this country, and present a few facts to substantiate our claim:

1. It is made from the very best selections of Bright Old Virginia Leaf.
2. It is absolutely pure and free from the noxious properties so common to other smokings.
3. It will not gum the pipe; this fact alone proves its superiority over any other tobacco made.
4. It burns free and sweet to the very last, and leaves no bitter taste in the mouth.
5. It gives a cool and pleasant smoke, and does not parch the throat or dry the tongue.
6. Its lasting properties equal that of any plug made, and being cut ready for use is much more convenient.
7. It does away with the thralldom of the knife and tobacco-cutter and saves much valuable time and material.
8. It is put up in neat and convenient packages, handy for the pocket, and warranted to keep in any climate.
9. It forms a live coal in the pipe, and will keep its fire in the strongest wind, making it the best in use for sportsmen.
10. Its pleasant aroma and favorite smoke makes it a favorite with the ladies.
11. It is superior in every point of Economy, Convenience, and EXCELLENCE to any smoking ever introduced into Canada.
12. It is made by a responsible concern which makes no assertions that cannot be substantiated.
13. It is put on the market at great expense, entirely on its own merits, and at so low a price that only large sales can give a fair return.
14. It shall be kept up in every point of quality and excellence so long as it is manufactured by us.

ANNOUNCEMENT

We would respectfully inform our many friends and the Tobacco using public generally, that while we may seem to confine our attention largely to manufacturing the Gold Flake Cut Plug, that we are still supplying a constantly growing trade with all the various grades of Cut Goods, both Cheering and Smoking.

Our Gold Flake Cut Cheering, so justly popular in the United States, is also manufactured in our Windsor Factory, and having the same stock and material, as well as equal facilities, we make here, as in the States, the best Cheering Tobacco in the World.

The "Victory" brand, known to smokers for the past twenty years in Canada, has been so improved by us that it is growing in popularity every day. We have also cheaper grades of "Cut Goods" and Smoking Tobacco.

The "Big Wagon" a common smoking, is also well known, and gives universal satisfaction.

It is expected that the Government will require all Cut Goods to be put up in packages of one pound or less, and we are as rapidly as possible perfecting our arrangements to comply with this new requirement.

This new law, while entailing upon us an amount of additional labor, will be a great convenience to both dealer and consumer, and result in having our Goods reach the Consumer in much better shape than at present.

HOW AND WHERE OUR GOODS ARE SOLD.

We employ no travellers, and sell only to responsible Wholesale Houses. The saving of the cost of selling Retailers is given to the Wholesaler, who is thus enabled to sell at Factory Prices.

We give below the names of prominent merchants who keep our goods in Stock, and from whom dealers may order as they need.

We shall be pleased to have you give our goods a trial and report to us if not entirely satisfactory.

GLOBE TOBACCO CO.,
DETROIT, MICH., AND WINDSOR, ONT.

THE GLOBE TOBACCO WORKS,
OF DETROIT,

Formerly conducted under the corporate name of Walker, McGraw & Co., has changed its name to the GLOBE TOBACCO COMPANY, with the same Shareholders, Officers, and Management as before.

This has been done partly on account of incorporating their branch at Windsor, Ontario, which for the past two years has been carried on in the name of J. E. Saxton, the secretary and treasurer of the Detroit company.

THE NAME OF THE WINDSOR CONCERN

GLOBE TOBACCO CO.,

With J. E. Saxton as President, and A. A. Bontell, Secretary and Treasurer.

The above cut is a fac simile, except in size, of our four ounce package of GOLD FLAKE CUT PLUG.

The following Letter speaks for itself:

Ottawa 3 April 1880

Mr. J. E. Saxton
Windsor

Be good enough to
send me a sample of this Gold Flake Cut Plug. I have
seen as already furnished by you
for the use of the House of Commons
Smoking room through Mr. W. H. D.
Sent by express and enclosing Gold
Flake Cut Plug. I am sure it will be
House of Commons tobacco
Yours truly
J. E. Saxton

P.S. The Gold Flake plug
almost proved a satisfactory
as it was of 800000 in
have been using it, no doubt
that will have the effect
of introducing it into the
House of Commons
Sent bill & I will send
and

CLIPPINGS FROM THE PRESS.

HAMILTON, May 29, 1879.
GOLD FLAKE CUT PLUG—It is free from
stems, and is put up in convenient shape.
The flavor suits the palate of the writer, and
the odor is, to say the least, less obnoxious
to non-smokers than most tobacco. There
is no bad taste or frowning in the mouth
even after smoking the Gold Flake to excess.
—The Spectator.

OTTAWA, May 31, 1879.
THE GOLD FLAKE—It is of superior quality,
and is put up in convenient packages.
Smokers will appreciate it. —The Free
Press.

PORT HURON, June 9, 1879.
GOLD FLAKE—The aroma of this tobacco is
such that
Those who always smoked will smoke the more,
And others smoke who never smoked before.
—Daily Guide.

ST. JOHN, N. B., June 3, 1879.
GOLD FLAKE—It is of superior quality,
and is put up in convenient packages.
Smokers will appreciate it. —The Daily
Telegraph.

PARKHILL, Feb. 26, 1880.
TOBACCO—Indolence grows upon the smoker,
and we have been casting about for
some relief to the throat, to the lungs and
tobacco cutter. We have tried the Gold
Flake Cut Plug, and hereafter you couldn't
 coax us to use any other. It is fragrant, ex-
hilarating, and not hot for the mouth. —Park-
hill Gazette.

KINGSTON, Feb. 25th, 1880.
GOLD FLAKE—This is a species of tobacco
made specially to meet the requirements of
the Canadian public. It is a Cut Plug of
moderate strength, and more pleasing than
offensive in smell. We can recommend it,
since we know just what it is. —The Daily
British Whig.

L'ORIGINE, March 4th, 1880.
Tobacco as an article of consumption in
this country has now almost become one of
the necessities, and to be able to furnish the
public with a genuine article is quite a con-
sideration. The Gold Flake Cut Plug Smok-
ing Tobacco is fast superseding all others in
use, as it has become a great favorite with
those who are good judges of "the weed."
It is made from purest leaf, and done up in
tinful packages in a very careful manner,
which prevents the slightest deterioration,
preserving its original moisture and fragrance.
Those who are in the habit of sending their
sorrows curling into the air from a tobacco
pipe, should invest in a package of "Gold
Flake." —The Advertiser.

DRESDEN, March 5th, 1880.
GOLD FLAKE—We confess to a weakness
for the weed—that is, we are not
professing a horror for the stinking stuff that
many people are in the habit of using, which,
while ostensibly cheaper as relates quantity,
is really the dearer article, in that the out-
siders are invariably composed of the coarser
grades, the inner being composed of the re-
fined, cured in a liquor, the main feature
of which is its adhesiveness. We can heartily
recommend the "Gold Flake" as a smoking
tobacco, both as to fragrance and cleanliness.
—The Dresden Times.

GOEDERICH, March 10, 1880.
"GOLD FLAKE"—This is a brand of cut
tobacco which is now deservedly popular. It
is made from the best leaf, is manufactured
in such a way that not only are the good
properties retained, but are also improved,
and the harmful, noxious nicotine neutralized.
—Huron Signal.

GOEDERICH, Feb. 27th, 1880.
We had the pleasure of receiving a few
days ago, a sample of Gold Flake Smoking
Tobacco, and if we know anything about the
weed—and if we do not ought to—our
readers who enjoy a really good pipe of toba-
cco, may take our assurance that they will find
it to their advantage to give this brand a trial.
—The Goederich Star.

ST. CATHARINES, Aug. 27, 1879.
GOLD FLAKE—Having tried the sample
sent, we are free to admit there is plenty of
smoke in it. It has a mild and pleasant fla-
vor, does not burn the tongue, and has all the
lasting qualities of plug tobacco. We
believe it to be an article of merit, and des-
tined to win the favor of lovers of good
smoking tobacco. —Evening Journal.

SIMCOE, March 10th, 1880.
We have tried a sample package of the ce-
lebrated Gold Flake Cut Plug Smoking To-
bacco, and have no hesitation in saying that
it surpasses anything of the kind we have
ever used, therefore we do not wonder that it
is becoming a great favorite with Canadian
smokers. All "lovers of the weed" should try
it, and they will be convinced of its ex-
cellent qualities. —The British Canadian.

PEMBRIDGE, March 5, 1880.
GOLD FLAKE—We have received a sample
of the Gold Flake Cut Plug, which we have
distributed among our smoking friends, and
they all say it is of the very finest brand.
The price is also said to be reasonable, and if
so, the Gold Flake Cut Plug is bound to carry
the day among the "epicurean" smokers. —
The Pembridge Observer.

PERTH, Feb. 27th, 1880.
"GOLD FLAKE" TOBACCO—We received a
package of the celebrated "Gold Flake Cut
Plug" Smoking Tobacco from the Globe To-
bacco Works, Windsor, Ont. We have had
it tested by an experienced smoker, who has
pronounced it the best article and the most
convenient he has ever used, as well as being
fully as cheap as any other. —The Perth
Courier.

BRANTFORD, Feb. 27, 1880.
A BOON TO SMOKERS—There is nothing
confining so much to an enjoyable smoke as
good tobacco. No matter how costly the
pipe may be if the filling is not of the first-
class quality the pleasure of the smoker is
marred. The Gold Flake Cut Plug, although
but a short time has elapsed since its ap-
pearance in Canada, has become a favorite with
smokers. It is mild and pleasant in flavor,
and it is not the least disagreeable to those
who do not use tobacco. —The Daily Courier.

SHREVEPORT, Feb. 27, 1880.
The "Gold Flake" manufactured at the
Globe Tobacco Works, Windsor, is said by
smokers to be the purest, finest, and best
smoking tobacco in the world. —The Strat-
ford Beacon.

QUELPH, March 5th, 1880.
We have to thank Mr. Saxton for a pack-
age of Gold Flake, which is first-class. It is
greatly in favor in this section, and is large-
ly taking the place of the old-fashioned plug.
—Daily Mercury.

NAFANIE, Feb. 27th, 1880.
A good article. We have received a sam-
ple of the Gold Flake Cut Plug Smoking To-
bacco, and it is undoubtedly one of the
finest brands ever offered to the public. It is
manufactured from the best Virginia leaf,
and is a scientific principle. Smokers who
give it a trial will use no other. —The Tele-
graph.

PERMOTT, March 3rd, 1880.
THE GOLD FLAKE Cut Plug Smoking To-
bacco, put up by the Globe Tobacco Works,
Windsor, Ont., is undoubtedly one of the
finest brands ever offered to the public. It is
manufactured from the best Virginia leaf,
and is a scientific principle. Smokers who
give it a trial will use no other. —The Tele-
graph.

A Good Thing.

A manufacturer who spends his life in pro-
paring for the market some necessity for
humanity, should be a good judge of the worth
of the article that he produces. When he is
devoting his energies to a legitimate trade,
and his productions come into daily competi-
tion with those of many others, he will
himself place upon his goods may be well
estimated by his confidence in putting them
upon the market. It is now only one year
since the Gold Flake Cut Plug was first in-
duced to the notice of smokers in Canada,
and yet the manufacturer had full confidence in
its worth, and was not afraid of letting people
know that he had a good thing. A year of
prosperity, where many predicted defeat, has
proved that he did not over estimate the value
of his productions. One of the largest buyers
in Canada recently remarked that "The Gold
Flake is beyond question the best smoking
ever introduced here, and its consumption will
increase just as fast as people find out that it
is manufactured, and have tested its excel-
lence."

Gold Flake.

One smoke of this
Will bathe the drooping spirits in delight,
Beyond the bliss of dreams. Be wise and taste,
—Adapted from Milton.

Economy.

A gentleman accustomed to smoke cigars
thinks nothing of giving ten cents for one and
smoking it up in a few minutes. Now, for
ten cents, he can buy a package of Gold Flake
Cut Plug which will fill more than common
sized pipe with smoke, and each cigarette will
last an ordinary smoker a full half hour. In
this way he gets five and one half hours of
smoke for the price of one cigar. Again,
for purity of material and excellence of flavor,
there is no comparison between this tobacco
and the common cigar, the Gold Flake being
much superior. We claim that for rich or
poor this is the most economical smoking in
use, yet can get much more comfort out of
your money in the Gold Flake Cut Plug than in
any other tobacco made. Just try and
prove the truth of this statement for your-
self.

Gold Flake.

It cheers the sad, revives the old, inspires
the young, makes weariness forget his toll,
And fear his danger. Opens a new world
When this the precious falls.
—Adapted from Byron.

The Best, the Cheapest.

The Dominion of Canada has a population of
about four millions. There was consumed
during the last fiscal year about seven mil-
lion pounds of tobacco, according to the Gov-
ernment a revenue of nearly one and one half
millions of dollars. It is estimated that about
two in seven of the population use tobacco
in some form, which would give to each a
little over six pence, and make him a tax-
payer in supporting the Government to the
amount of 1s. 2d. The excise duty on manu-
factured tobacco is twenty cents per pound,
and is the same on all grades. That which
sells for five cents per pound pays the same
excise as that which sells for fifty. The con-
sumer who buys the cheap tobacco pays a
much larger percentage to the Government,
and also of profit to the dealer than he who
buys the best. Now, take into consideration
the purity of material and its lasting qual-
ity, and you will find that in tobacco, as in
other things, the best is the cheapest.

It is now pretty generally understood from
Halifax to Winnipeg that the Gold Flake
Cut Plug is the best smoking tobacco ever
made in Canada. It only remains for those
who smoke to test it for themselves, and
they will also find that in the end it is the
cheapest.

Government Favor.

We understand that the Inland Revenue
Department at Ottawa have made for the
Globe Tobacco Works, Windsor, Excise
stamps of the denomination of one-half of a
pound. This was done to enable that com-
pany to put upon the market a ten cent
package of their excellent Gold Flake Cut
Plug. This package was demanded by
consumers, and so popular has it already be-
come that the second order for 100,000 has
gone forward to the Department.

To the Moon.

Pale moon I wonder if
Upon the earth you are so fair,
The things we love on earth,
Are also growing there?
Do roses on your green slopes
In some forth-blossoming bloom
And fill the purer air
With fragrance and perfume,
Do they fair valleys, too,
Grow things for which we need,
But above all other things,
Do you grow the fragrant weed?
If you're some pure and sweet
And good as our Gold Flake,
I wouldn't mind ascending
A smoke or two to take,

Daily Intelligencer.

THE BUILDERS.

All are architects of fate,
Working in these halls of time;
Some with massive deeds and great,
Some with ornaments of rhyme.

Nothing useless is or low;
Each thing in its place is best;
And what seems but idle show
Strengthens and supports the rest.

For the structures that we raise,
Time is with material filled;
One to-day and yesterday
Are the blocks with which we build.

Truly shape and fashion these;
Leave no yawning gaps between;
Think not, because no man sees,
Such things will remain unseen.

In the older days of Art,
Builders wrought with greatest care
Each unseemly part;
For the gods are everywhere.

Let us do our work as well,
Both the unseen and the seen;
Make the house whose gods may dwell
Beautiful, entire, and clean.

Else our lives are incomplete,
Standing in these walls of time
Broken storeways where the feet
Stumble as they seek to climb.

Build to-day, then, strong and sure,
With a firm and solid base;
And something and secure
Shall to-morrow find its place.

Thus alone can we attain
To those terraces, where the eye
Sees the world as one vast plain,
And one boundless reach of sky.

The Gentlest Register.
1880 (Des Moines Register.)

"Do you know the prisoner well?" asked the attorney.

"Never knew him sick," replied the witness.

"No levity," said the lawyer sternly.

"Now, sir, did you ever see the prisoner at the bar?"

"Took many a drink with him at the bar."

"Answer my question, sir," yelled the lawyer.

"How long have you known the prisoner?"

"From two feet up to five feet ten inches."

"Will the court make the—"

"I have, judge," said the witness, anticipating the lawyer.

"I have answered the question. I knowed the prisoner when he was a boy two feet long and a man five feet ten."

"Your honor—"

"It is a fact, judge. I'm under my oath," persisted the witness.

The lawyer arose, placed both hands on the table in front of him, spread his legs apart, leaned his body over the table, and said:

"Will you tell the court what you know about this case?"

"That ain't his name," replied the witness.

"What ain't his name?"

"Case."

"Who said it was?"

"You did. You wanted to know what I knew about this case—his name's Smith."

"Your honor," howled the attorney, plucking his beard and shaking his roots, "will you make this man answer?"

"Witness," said the judge, "you must answer the questions put to you."

"Land o' Goshen, judge, hain't I bin doin' it! Let the blamed cuss fire away, I'm ready."

"Then," said the lawyer, "don't beat about the bush any more. You and this prisoner have been friends?"

"Never," promptly answered the witness.

"What! Wasn't you summoned here as a friend?"

"No, sir. I was summoned here as a Presbyterian. Nary one of us was ever friends—he's an old-time Baptist, without a drop of Quaker in him."

"Stand down," yelled the lawyer in disgust.

"Hey!"

"Stand down."

"Can't do it. I'll sit down or stand up."

"Sheriff, remove that man from the box."

Witness relives, muttering: "Well, if I ain't the thick-headed cuss I ever laid eyes on."

The Story Told a Boy.

A Detroit boot black, who had strayed out to Pontiac, was on his return, having a seat in a car with a benevolent old man. Of course, the boot black was as soon as he sat down, the wind blew in at the rate of 40 miles an hour, and the old man presently said:

"Why do you keep the window up?"

"Don't I want some way to jump out if the cars fall into the river?" replied the boy.

Then he stuck his head and shoulders out, and the old man said to the boy:

"Boy, why do you lean out the window so far?"

"Don't I want to see if there are any stiles on the track?" replied Shine.

BARBER, BRIGNALL & CO.

BARBER, BRIGNALL & CO.

SPECIAL.

WE take the present opportunity of thanking the Citizens of Belleville and surrounding Counties for the constantly increasing trade we have the pleasure of doing. Every day new customers are being added to our list, and our sales so far this year are far in advance of anything we have ever done in a corresponding period.

IMMENSE SALES OF MILLINERY.

Our usually large staff of Milliners have been nearly doubled this season and are working long overtime every day in order to keep up with the demand for trimmed Hats and Bonnets. We have no hesitation in saying that our assortment of Rich and Fashionable Millinery surpasses what can be seen at any other house in Eastern Ontario.

DRESS GOODS.

We are also selling thousands of yards of New Dress Goods and Prints, and we cordially invite intending purchasers of Dress Materials (including Bunting's Grenadines, Muslins, &c. &c.) to make an inspection of our magnificent assortment before buying. Also a superior stock of Mourning Materials, such as Paramattas, Cashmeres, Silk Warp, Henrietta Cloth, Crape Cloths, Rain-proof Crape, &c. &c., at the most moderate prices.

SPECIAL BARGAINS.

Over 100 dozen Ladies' Parasols and Umbrellas; the best value in the Dominion. Over 100 dozen Ladies', Misses and Children's Hose in White, Plain colors, and Fancies, at a great variety of prices.

300 dozen Ladies' and Gents' hemmed Linen Handkerchiefs, including Hem-stitch-ed and Mourning at about the usual wholesale price.

CARPETS AND LACE CURTAINS.

Parties wanting Carpets will find it to their advantage to visit our Carpet Wareroom (situated on the ground floor) and see the large and varied assortment we are now offering at prices which cannot be undersold.

We claim to have one of the largest, best selected, and most attractive stocks of Dry Goods and Carpets in the Dominion, and our prices are such as satisfy the most careful and prudent buyers.

BARBER, BRIGNALL & CO. IMPORTERS.

FRUIT JARS.

WE are just receiving the larger part of our purchase of GLASS JARS for this season. We have bought MORE LARGELY, AND TO BETTER ADVANTAGE than ever before, and prices will be found actually lower than ever, in spite of the very large advance in most kinds of glassware.

The pattern we offer is the same as we have kept for several years past—the GEM—which we have no hesitation in pronouncing, all things considered,

THE BEST JAR MADE.

To those requiring three dozen or more we are prepared to offer SPECIAL PRICES

We shall have, as usual, a complete stock of STONEWARE PRESERVE JARS of all sizes, and JELLY TUMBLERS, both covered and uncovered. ALL AT LOWEST POSSIBLE PRICES.

NEXT WEEK

We shall receive a considerable portion of our spring stock from England, including a full stock of White Granite Plates, Teas, Platters, Covered dishes and Bedroom Sets. The quality will be found good and prices as low as ever. In addition to these staple goods, the lot includes some very beautiful

MAJOLICA WARE, JET & PARIAN GOODS.

We expect these novelties to be well worth inspecting.

WE HAVE NOW

On hand an unusually fine and attractive stock of FOOTED NAPPIES, or small glass preserves dishes on foot. They vary in price from 50c to \$1.00 per doz., the bulk of them being 60c. They are much more attractive looking than the flat ones and are rapidly coming into use. Our stock of

SILVER-PLATED WARE

is as complete as ever and includes some very beautiful new designs. CRUET STANDS are decidedly better for the money than ever before. CAKE BASKETS are as low as ever, and the same may be said of BUTTER DISHES. SILVER PLATED KNIVES are still very cheap though we have no doubt an advance must take place before long.

In short our whole stock is in first class condition and we believe that we are in a position to satisfy the most fastidious or exacting customer. We are always glad to see visitors whether they purchase anything or not.

TERMS STRICTLY CASH.

Belleville, May 29th, 1880.

F. H. ROUS & Co.

Humorous.

Leadville is called a young town, its inhabitants are mostly miners. The boy who was kept in after school had orthography says he was spelled "L-E-A-D-V-I-L-L-E". The Arab who invented alcohol was years ago, but his spirit still lives. The Gait's Ajar—Miss Elizabeth Phelps has a badly sprained ankle.

"Religious gypsies" is what those are called who go from church to church, hear a different minister every Sunday, and haven't finished reading the yet, Sam?

No, master; 'tis a very large one. "Oh, well, you've had time to see mountain."

A young lady was asked recently if she preferred her two brothers, who she loved, to either of them. "I prefer the other."

It was a hint that ought to have been in the prayer-meeting. "Now, Mr. Smith, you pray the last half of the prayer."

A little girl in one of our public schools the other day had occasion to pass the word "angel." Coming to the teacher she stopped dismayed and asked her teacher if there was any man named angel.

"To calculate the entire cost of a trip to the top of Mount Washington, it is merely to summit up," remarked a witty individual. "We presume, however, would answer the same purpose as 'sum up.'"

Very Red-haired Passenger—A conductor, why on earth don't you get on? Conductor—Good gracious! put your head in; how can you expect to go on while that danger signal is lit?

At a recent Western festival a man more pitiful than pleasantly looked addressed our editor and brother. "I was last Tuesday exchanged his winter dress on a treacherous spring day for an A shroud was—"

A bee's sting is only one-fourth of an inch long. A very insignificant thing, but it leaves a warm, itchy sting about two feet deep. There is a sting about the sensation caused by stings, although it may look like it.

It is queer how few folks know that a night's sleep is a good thing. A man of heaven and asked St. Peter if he of the right ever got in there.

The reply, "It is a good thing," was of a great many rich people to be here. Many of them are so sure that they should not be here, they would never have been here.

When Mr. DeLassus was in Suez Canal, a gentleman called on him and desired of subscribing for the island of Sweden. "Put it all the same," said Mr. DeLassus.

"It's in Suez," said Mr. DeLassus. "All right," said the other gentleman. "What or where is it?"

English don't like it; I was on. Another enthusiastic was not an inch to perdition. Although essay, more your enthusiasm else, should follow you.

The other evening, young men serenaded his girl on Vagabond. The amateur orchestra of the member had hardly begun.

"What a fine dream," said the window went up, and old Bots father—stuck his head out and said, "What a fine dream."

"What a fine dream," said the window went up, and old Bots father—stuck his head out and said, "What a fine dream."

"What a fine dream," said the window went up, and old Bots father—stuck his head out and said, "What a fine dream."

Daily Intelligencer.

BELLEVILLE, SATURDAY, MAY 29.

City and Vicinity.

CITY COUNCIL.—A regular meeting of the City Council will be held on Monday night.

REMEMBER.—"Uncle Tom's Cabin," by the Boston Ideal Company at the City Hall to-night.

Big Egg.—Mr. Abel Finkle shows a Brahama egg, the measurement of which reaches 8 1/2 in. by 5 1/2 in.

POLICE.—The inmates of the cells last night numbered three, namely one prisoner and two tramps.

GOLD FLAKE.—The readers of the INTELLIGENCER are invited to peruse carefully our full page advertisement to-day. Lovers of the pipe will find Gold Flake Out Plug the very thing they want.

ANOTHER INCENDIARY FIRE.—Yesterday afternoon, while a high wind was blowing, the roof of Walker & Co's foundry was set fire to by a spark from the cupola. Fortunately the fire was discovered in time to prevent damage.

MORE ROOM.—More room is needed in the market building for the accommodation of sellers. As early as 9 o'clock this morning every table was occupied, so that many farmers had to place their baskets of butter and eggs on the floor.

FAIR WEATHER.—Mr. Thomas Sweeney, of the 2nd concession of Sidney, has left at this office a sample of his fall wheat, the longest stalks of which measure 3 ft. 8 in. This shows good growth, considering the unfavorable character of the early part of the season.

ANGLING.—The patient angler now enjoys good sport on the bay. Two salmon are reported to have been caught by anglers within the last few days, whilst black bass and other fish take freely. The Grand Junction wharf is now a favorite resort of those on piscatorial sport intent.

THE IRON MARKET.—A recent report states that 1,264 miles of railroad have been constructed in the United States this far this year, against 493 miles in 1877. With railroad building going on at such a rate consumption may be trusted to exercise a steady and wholesome influence on the iron market at no distant day.

NEW CHURCH IN WEST HASTINGS.—The Stirling News Argus says: "The contract has been given and the work begun on the new M. E. Church on what is known as 'Ryan's hill.' West Hastingsdon. The building is to be of brick, 28x40 with full tower and spire. The contractor also builds a shed 100 ft. long; all to be completed by the 1st of December next. The building, which is not a large one, will be next in style of architecture and finish, and a credit to those concerned in building it."

PRESBYTERY OF KINGSTON.—The Canada Presbyterian says: "This Presbytery met by permission of Synod in St. James' Square Church, Toronto, on the 13th inst. Mr. Turnbull and Professor Mowat resigned their commissions as members of the General Assembly, and Messrs. Macleod and Chambers were appointed in their stead. Rev. H. Gray and Dr. Boulter were appointed to support certain resolutions of the Presbytery to come before the Assembly. It was agreed to comply with the request of the Peterboro' Presbytery to re-transfer Blairton to their bounds. There was read a communication from the Rev. David Wishart, asking for leave of absence for four months on the ground of ill health. The leave was granted, and sympathy expressed with him in his affliction. Furthermore, the convention of the Presbytery Mission Committee was requested to recall Mr. Wishart all the aid in his power in the matter of supplying his pulpit."

FROM MADOC.

Fatal Railway Accident.

MADOC, May 29.—A very bad accident occurred here yesterday. Simon Driscoll, while driving along in the country with his wife, their horse took fright and ran away. Turning round to see the cause, they were both thrown out and his wife severely cut on the head and her skull cracked. She expired this morning, never speaking after the accident.

Marine Notes.

The ship, Florence, has arrived from Oswego and is loading lumber at the Eagle mill.

An Independent gang of longshoremen has been organized at Oswego, numbering 10 to 15, who have fixed their price for unloading lumber at 10c a thousand.

The ship, Belle, and the scow, Glasgow, have arrived with firewood.

Thos. Franchmontague has cleared for Oswego with lumber. She got off this morning by lightening.

AFTERNOON DISPATCHES.

LONDON, May 29th.—Correspondents state that no better seed time has been experienced in Ireland for many years than now. Crops are healthy and well advanced. An unusual area has been planted with potatoes, which come up well, as new seed has been extensively used.

LIVERPOOL, May 29.—A London correspondent says that Lovell, the American minister, has received instructions from Sec'y. Evarts relative to the fisheries question, of a much more amiable character than is indicated by the debate in Congress.

LONDON, May 29.—A Berlin dispatch says it is understood that the Pope personally wishes the party of the Centre in the Prussian Diet to abstain from either moving an amendment to or voting upon the church bill.

QUEENSTOWN, May 29.—Arrived, the Republic.

NEW YORK, May 29.—John Broughman, the well known actor, lies dangerously ill at his residence here. He is rapidly sinking and death is hourly expected.

DENVER, May 29.—A Buena Vista special yesterday morning James Reed and Jas. Edwards instantly killed each other. They had some trouble, and were meeting drew revolvers, fired two shots each and both fell dead.

GENEVA, May 29.—Difficulties supervene in the construction of the St. Gothard tunnel. In the part where the formation is of porous white stone the vaulting has already given way twice or three times. It required the greatest care and constant stirring with timber to prevent the passage entirely collapsing. It was thought that granite wall 6 feet thick would support the superincumbent mass of white stone and keep the tunnel open. A wall of this thickness had just been finished, but it began to give way and the engineers are at their wits end. The geologist of the tunnel says it can be overcome only by going around the white stone instead of through, involving the entire reconstruction of the part of the tunnel, in which case it will probably not be ready in two years.

WEATHER REPORTS.

TORONTO, May 29.—Probabilities for the next 24 hours: For the day, fair, with moderate to fresh winds, mostly from the south-east and south, partly cloudy, slightly warmer weather.

GRAND ORANGE LODGE OF B. N. A.—The 2nd meeting of the Grand Orange Lodge of B. N. A. will open in the Albert Hall on Tuesday next. It is expected that there will be a large number of delegates present, and the question of applying for a Dominion Act of incorporation will be considered.

Custom House Arrivals.

(Reported by C. E. DIXON, Customs and Ship Broker.)

INWARDS.

Str. Alexandria, Odgersburg and Montreal, general cargo, Schrs. Florence and Trenton, Oswego, and Mary Taylor, Charlotte, light, Ontario, Hamilton, cargo glass, oil and sundries, for Messrs. F. H. Ross and L. W. Youngman.

CLEARED.

Schrs. Tranchmontague, Oswego, lumber, H. B. Rathbun & Son; Mary Taylor, Charlotte, basswood bolts, A. Campbell.

OUTWARDS.

INWARDS.—John L. Bean & Co. 7 hrs. 1 box; E. H. Ross & Co. 1 box; Downey's Provisions 100 eggs cases W. N. Nilsen 6 cases; Geo. Ritchie & Co. 3 pkgs. A. Robinson, 10 pkgs.; R. Templeton, 4 cases; J. G. Lever, 1 box; T. L. Enkist, 1 case; E. Harrison, 1 piano; Scott's Bowne, 11 cases and 5 hrs.; J. Barkly, 23 eggs cases; a gent. 1 bale; Fitzpatrick & Kelly, 25 boxes.

OUTWARDS.

A. Robinson, 1 bale; S. Manghen, 1 box; Holden, 1 box; J. W. Walker, 1 do. T. Donnelly, 1 pa.; Rev. J. Smith, 1 trunk; W. P. E. Ross, 1 box; B. H. W. Davy, 1 pa.

REMARKS.—The newest wonderer to be seen in the city is the new "Farming for Profit" book, which is being sold in Peterborough next Thursday on the tour of the Trent Valley navigation route, and that he will be accompanied by the Minister of Customs—Mr. Bowell. Preparations are being made by the citizens of Peterborough, irrespective of party, to entertain the Ministers at supper in the town. Messrs. Tupper and Bowell will also probably visit Belleville and the site for the Murray Canal.

FARMING FOR PROFIT.—No branch of industry has taken more rapid strides of late years than that of farming, which has now been reduced to a science. The old haphazard process of farming has been to a great extent abandoned, and farmers find that to compete with their neighbors it has become necessary to study the science of farming. We have received a copy of "Farming for Profit" from the publishers, Messrs. Bradley, Garrison & Co., of Brantford, Ont., which treats exhaustively of the subject, and as the present condition of the agricultural interests of the country, it is a practical farmer, and treats the subject in a manner that shows he has a practical knowledge of farming. The large as well as the small farmer and gardener can receive hints that will be of lasting benefit by a perusal of the work, which is only sold by subscription.
